| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | In-depth coverage of computer operating systems and related computer architecture issues. Coverage of physical devices, interrupts, and communication between the computer and external hardware. Interfaces between user programs and the operating system, system calls, software interrupts, and protection issues. Context switching, process address spaces, and process scheduling. Process synchronization, interprocess communications, critical sections, and deadlock detection and recovery. Memory mapping, swapping, paging, and virtual memory. | | | | | | | | |
| ENT | EECS | CS | 5420 | Operating Systems | LEC | EL | 3 | 0 | | N | G40 | | 0 |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | In-depth coverage of computer-to-computer and program-to-program communication over modern computer networks focusing on the TCP/IP protocol family. Review of data communication issues, physical address binding, bridging, Ethernet, and Token Ring. Internetwork protocols, routing, domains, networks, and subnetworks. Transport protocols, reliability, flow control, retransmission, and acknowledgement. Distributed systems, server and client issues including verification, and authentication. High-level protocols and applications including electronic mail, network news, remote terminal interaction, and the World Wide Web. | | | | | | | | |

| | | | | COURSE DESC: Case-based reasoning (CBR) is an artificial intelligence (AI) paradigm, in which new problems are solved by reusing the solutions to previously encountered problems. Enables students familiar with AI problem solving techniques to explore CBR in depth. Featured will be: overview of fundamentals; discussion of research projects; CBR system implementation: and student presentations. | | | | | | | | | |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Provides an introduction to computational tools used extensively throughout graduate study in engineering. Topics include array manipulation, matrix computations, computer graphics, and symbolic manipulation. Also covered are programming language constructs and advanced data types. In addition, the course introduces computer-based modeling, simulation, and analysis of dynamic systems. Course concepts are applied to graduate-level engineering problem solving. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduces fundamental and advanced concepts required for the understanding of electronic and ionic transport in micro and nanoscale devices. Reviews theory elements such as effective mass, band structure, electrostatics, screening, low and high-field transport, and scattering. Explores novel design tools and numerical techniques used for simulation of practical devices. Examines more closely the structure, operation, design principles, advantages and disadvantages, applications and future prospects for a wide range of traditional (diodes, MOSFETs, bipolar transistors etc.) and advanced (MODFETs, HBTs, nanowire and nanotube transistors, single-electron transistors, memristors, graphene devices, plasmonic devices, bio-molecular devices). On an orthogonal direction, surveys a number of critical technology fronts that many of devices reviewed may play an important role (ultra-low or high-power applications, high-performance solar devices, flexible electronics, THz devices and bio-nano sensors). | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Students taking this course must have had undergraduate courses in electromagnetic wave theory, differential equations, and vector calculus. This course is designed as an introduction to the basics elements of integrated optical devices. In the first part, we focus on the development of optical waveguides and investigate the utilization of these structures in passive photonic circuits. Critical properties such as waveguide loss, mode coupling, material loss, power flow, anti-guiding, coupling to optical fibers, and device fabrication will all be covered. In addition, to get a better understanding of the operation of these circuits, students will be required to simulate many of these structures using MatLab throughout the course. In the second part of the course, we extend this analysis to active devices. Modulation of the optical field through acousto-optic and electro-optic effects is studied, as well as the current technology of these structures. Light emitting devices are presented, focusing on the operation and theory of light emitting diodes (LEDs) and semiconductor lasers. The detection of light is presented with an analysis of semiconductor integrated detectors. Finally, recent progresses in integrated optics and novel concepts are studied to motivate research in these areas. | | | | | | | | |
| ENT | EECS | EE | 6333 | Integrated Optoelectronics and Photonics | LEC | LE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Selected topics in engineering and operation of optoelectronic and integrated photonic devices and systems. Topics Include: epitaxial growth techniques relevant to strained and polar hetero-structures, recombination and carriers statistics, defects, lattice vibration, phonons, low dimensional structures, excitons, light propagation in anisotropic media, electro-optic effect, quantum confined Stark effect, magneto-optic effects. Selected advanced concepts in semiconductor bandstructure. Advanced device structure and modeling of LEDs, LDs, and light detectors. Selected topics in integrated optoelectronic and photonics. | | | | | | | | |
| ENT | EECS | EE | 6343 | Modern Optical Materials and Devices | LEC | LE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Provides introduction and overview of modern materials used in optics and optoelectronics including semiconductors and meta-materials. Topics extend from materials science to engineering of optoelectronic and photonic devices. Emphasis on understanding fundamentals relevant to applications in integrated optical systems combining optical emission and detection from the IR through the visible to the UV, linear and nonlinear optical phenomena, dynamics of optical processes, magneto- and electro- optics, high-excitation effects. Well established photonic and optoelectronic devices, plus novel device approaches based on the latest technological developments explored. | | | | | | | | |
| ENT | EECS | EE | 6413 | Advanced Antenna Theory | LEC | LE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Continuation of antenna theory, including arrays and their design, the effect of current distribution on patterns and directivity, field equivalence principle, aperture antennas, methods of optics, and pattern synthesis. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Provides basic concepts and methodologies for digital image processing, and develops a foundation as the basis for further study and research in this and related fields. All mainstream areas of image processing covered, including image fundamentals/modalities, image registration, Radon transform/image reconstruction/projection-slice theorem, spatial and frequency domain image enhancement, image restoration/Wiener filtering, color image processing, wavelets/curvelets/multi-resolution analysis, image/video compression, morphological watershed, segmentation, description/object recognition, video processing, and image data fusion. | | | | | | | | |
| ENT | EECS | EE | 6653 | Computer Vision | LEC | LE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Image sensing and representation, perspective projection, image analysis, visual pattern recognition, image filtering and registration, image enhancement, color perception, texture analysis and Julesz's conjector, content-based image retrieval, motion from 2D image and video sequences, image segmentation, shape from shading, matching in 2D, depth from 2D images, object pose estimation, scene models and matching, stereo and 3D vision, virtual and mixed realities, human biometrics, active and passive scene scanning, robot guidance and surveillance. | | | | | | | | |
| ENT | EECS | EE | 6663 | Pattern Recognition | LEC | LE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Pattern recognition's (PR) goal is the recognition and classification of objects, patterns, images, signals, or waveforms into a number of categories or classes. PR is an integral part in most machine intelligence systems designed for decision-making. Rapidly developing technology with cross-disciplinary interest and participation with other areas such as adaptive signal processing, AI, neural net, optimization and estimation, fuzzy sets, structural modeling, and formal languages. PR applications include image and video processing; machine vision; seismic analysis; radar signal classification; face, gait, speech and character recognition; Fingerprint identification; surveillance; navigation; OCR; medicine and biological sciences; CAD; multimedia systems; digital libraries. Addresses three different (statistical, syntactic, and neural-network) approaches to PR problem. | | | | | | | | |

| ENT | EECS | EE | 7183 | Reinforcement Learning | LEC | LE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | <p>This course will provide a comprehensive introduction to reinforcement learning as an approach to artificial intelligence, emphasizing the design of complete agents interacting with stochastic, incompletely known environments. Reinforcement learning has adapted key ideas from machine learning, operations research, psychology, and neuroscience to produce some strikingly successful engineering applications. The focus is on algorithms for learning what actions to take, and when to take them, so as to optimize long-term performance. This may involve sacrificing immediate reward to obtain greater reward in the long-term or just to obtain more information about the environment. The course will cover Markov decision processes, dynamic programming, temporal-difference learning, Monte Carlo reinforcement learning methods, eligibility traces, the role of function approximation, and the integration of learning and planning. The course will emphasize the development of intuition relating the mathematical theory of reinforcement learning to the design of human-level artificial intelligence. "Reinforcement learning is learning what to do---how to map situations to actions---so as to maximize a numerical reward signal. The learner is not told which actions to take, as in most forms of machine learning, but instead must discover which actions yield the most reward by trying them. In the most interesting and challenging cases, actions may affect not only the immediate reward, but also the next situation and, through that, all subsequent rewards. These two characteristics---trial-and-error search and delayed reward---are the two most important distinguishing features of reinforcement learning." This course will prepare you to study computational principles and hardware organization of what we mean by intelligence and goal-directed behavior. How to motivate machine to act on its own, yet to satisfy a desired objective? How machine interaction with environment leads to better behavior, better understanding, and success in its mission? What are the computational issues in doing this efficiently and in real time?</p> | | | | | | | | |

| ENT | EECS | EE | 7213 | Cognitive Neuroscience and Embodied Intelligence | LAB | LB | 4 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | <p>This course considers neurological, psychological, and structural models of intelligence. It uses these models as a basis for discussion and development of new models that may exhibit potential for creating embodied intelligence. The majority of biological intelligence creatures are simple, yet they can achieve complex information processing that current artificial intelligence cannot match. Can we use these simple models to learn how to design better artificial intelligence? Thus this course is a combination of what we know about intelligence with discovery what makes it possible. The emphasis in this course is on the development of the concept of self-organizing, learning neural systems with locally interconnected processing components (neurons and minicolumns). Neural-net implementations of pattern recognition algorithms provide important, practical advantages by allowing fast realization of parallel, iterative procedures. Self-organizing neural networks that implement associative spatio-temporal memories, statistical self-organization and learning, goal creation and goal oriented development of the memory structures will be discussed. An example self-organizing neural system simulating biological systems will be examined. Cognitive neuroscience focuses on understanding how the brain embodies the mind, using biologically inspired models made of neuron-like processing components. This subject lies at a cross-section of neuroscience and cognitive psychology, and involves developing models that illustrate brain functions, observed cognitive phenomena and their behavioral manifestations. These models are used to develop embodied agents that interact with the environment through a physical body that is able to perceive and act on the environment.</p> | | | | | | | | |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Good knowledge of Fourier transforms, properties, basic DSP: sampling, DTFT, and discrete time filtering (grad DSP course EE6713) required. Structured to cover two areas: the broad area of time-frequency (TF) analysis, and the focused application of wavelets to various signal processing tasks. In TF analysis, covers the fundamental need for this type of analysis, the uncertainty principle, densities, characteristic functions, and mathematical representations, the short-time Fourier transform and Spectrogram, the Wigner distribution, other TF distributions, and some TF distribution construction methods. Various examples will be used to illustrate the power and challenges of TF analysis. In the wavelet section, connects TF analysis to the use of wavelets, and covers multiresolution analysis, 1D and 2D compression of signals and images, noise reduction, and signal modulation. MATLAB Wavelet Toolbox used to implement, study, and visualize the operation of wavelet filter banks. | | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Introduction to code division multiple access (CDMA) and spread spectrum (SS) systems, with coverage of both direct sequence and frequency hopped spread spectrum. Primary focus is the physical layer. Origins of SS, jamming, spectral overlay, spreading sequences, and performance in AWGN and fading channels. Code acquisition and tracking, power control. Selected topics of current interest. | | | | | | | | | |
| ENT | EECS | EE | 7913 | Advanced Digital Control Systems | LEC | EL | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Well versed in analyzing and designing control systems employing continuous time controllers using classical frequency domain and root locus techniques and introduced to state space analysis techniques for continuous systems expected. Focuses on analysis and design of control systems in which a digital computer used to implement dynamic controllers so that performance specifications are met. Topics included are z-transforms, linear difference equations, development of linear models for analog to digital and digital to analog devices, state equations for sampled data systems, stability analysis of feedback sampled-data feedback systems, block diagram representation of sampled data systems, design of discrete state variable controllers for digital feedback control systems via modern state space approaches, e.g., LQG, pole placement, and analysis of sampled-data feedback system to assess stability and performance. MATLAB and/or SIMULINK used as the principal computation tool. | | | | | | | | | |

It is apparent from this definition that the development and analysis of appropriate technologies requires the consideration of elements from multiple fields. For both technical and non-technical majors. Provide a synthesis experience through an introduction to appropriate technology in developing countries. Using case studies and a design project, students will examine the economic and anthropological as well as technical aspects of problems in developing countries. | | | | | | | | |
| ENT | ENT | ET | 5900 | Selected Topics | LEC | LE | 1 to 4 | 99 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | | | | | | | | |
| | | | | COURSE DESC: | A typical topic would be Engineering Writing, where students develop the ability to think critically as a professional communicator | | | | | | | | |
| ENT | ENT | ET | 5950 | Robe Leadership Seminar | SEM | EL | 3 | 0 | | I | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Through selected readings, class presentations, discussions, and case studies, students will seek an understanding of leadership and its importance and effectiveness in achieving goals with followers. Successful leaders in engineering and other fields will visit the class and share their knowledge of leadership. Several written reports and oral presentations on leadership case studies will be required during the term. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: ETM 3030 and (PHYS 2001 or 2051) and advanced standing in ETM | | | | |
| | | | | COURSE DESC: | Uses a micro-controller to demonstrate the theory and application of analog and digital electronic devices. These devices include resistors, photo resistors, potentiometers, LEDs, thermistors, capacitors, transistors, diodes, DC motors, stepper motors, keypads, LCD displays, and integrated circuits. The lectures include series-parallel circuits, ohms law, circuit analysis methods using KVL and KCL, and Boolean logic used in digital circuits analysis and simple design. The lab experiences include building, testing, and troubleshooting micro-controller applications. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Theory and application of digital controls in manufacturing. Includes relay logic and closed loop control theory using negative feedback. Introduction to sensors, signal conditioning, circuits, D-A and A-D conversion, and Proportional-Integral-Derivative (PID) control. Lab experiments include programmable logic controllers and control of mechanical, hydraulic, pneumatic and electrical systems. Theory and application of robots used in manufacturing. Includes classifications, sensors and feedback mechanisms, robot/computer communications, and programming. Also includes selection of robots based on task and economic criteria. Lab activities include on- and off-line programming of robots and developing robotic work cells. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Capstone course requiring student teams to use knowledge from previous technical and business courses to develop a manufacturing operations plan for a product. Includes production planning and control, resource planning, product cost considerations, facilities planning, and tooling design and construction. Experience current concepts of enterprise-wide computer integrated manufacturing, manufacturing control systems, and new product development. Emphasis will be placed on team work, computerized production documentation, supply chain execution systems, lean manufacturing, integration and optimization of all business technical functions, operations within a manufacturing enterprise, and product development. Lab activities include the implementation of the above plan including tool build, plant layout, and actual production of parts and product. | | | | | | | | |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | REQUISITE: ET 3300 and ISE 3340 and ENG 3XXXJ and Sr only and WARNING: No credit for both this course and the following (always deduct credit for first course taken): ISE 4490 Development and utilization of network techniques, such as PERT and CPM, to schedule activities, develop financial budgets; allocate resources, and control progress and costs of practical projects. Students are introduced to a computer program that can generate project schedules. The students will, under the co-direction of an industry mentor and a faculty member, be able to work as a member of a team and integrate and synthesize industrial engineering tools and skills to solve a problem. First phase is to identify the design methodology and schedule for the project. | | | | | | | | | |
| ENT | ISE | ISE | 4190Q | Senior Capstone Design I | LEC | LE | 1 | 0 | | N | U30 | | 0 |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Introduces students to key thoughts and tools needed to move to the next level of engineering design excellence, where designing an operational component that works well by itself is not enough. Here students learn how to ensure that a product meets the customer's actual need, that it works optimally and behaves as expected within a much larger and more complex system, that it lasts for its entire expected life, and that it does all these things at an affordable and stable cost. Individual disciplines of system engineering, such as requirements analysis, functional design, and life cycle cost analysis, are identified, integrated into a new way of thinking--systems thinking--and illustrated by a series of exercises and actual case studies from industry and government. Notable successes and spectacular failures are examined, and the indispensable role of the influential team leader is described. Systems engineering is shown to be a uniquely effective interface between management, customers, suppliers, specialty engineers and other stakeholders in the systems development process. | | | | | | | | | |

| ENT | ISE | ISE | 5311 | Applied Systems Engineering | LEC | EL | 3 | 0 | | N | | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: | | | | | | | | | |
| | | | | COURSE DESC: Introduces students to key thoughts and tools needed to move to the next level of engineering design excellence, where designing an operational component that works well by itself is not enough. Here students learn how to ensure that a product meets the customer's actual need, that it works optimally and behaves as expected within a much larger and more complex system, that it lasts for its entire expected life, and that it does all these things at an affordable and stable cost. Individual disciplines of system engineering, such as requirements analysis, functional design, and life cycle cost analysis, are identified, integrated into a new way of thinking--systems thinking--and illustrated by a series of exercises and actual case studies from industry and government. Notable successes and spectacular failures are examined, and the indispensable role of the influential team leader is described. Systems engineering is shown to be a uniquely effective interface between management, customers, suppliers, specialty engineers and other stakeholders in the systems development process. | | | | | | | | | |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Last in a series of ME colloquia which engage students in career exploration, physical demonstrations, and research seminars. Activities to develop professional skills and technical communication skills are emphasized. Requires demonstration of satisfactory oral presentation skills. | | | | | | | | | |
| ENT | ME | ME | 4800 | Mechanical Engineering Colloquium IV | LEC | EL | 1 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F, CR | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Last in a series of ME colloquia which engage students in career exploration, physical demonstrations, and research seminars. Activities to develop professional skills and technical communication skills are emphasized. Requires demonstration of satisfactory oral presentation skills. | | | | | | | | | |
| ENT | ME | ME | 4880 | Experimental Design Lab | LEC | LE | 3 | 0 | 1JE | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Learn the use of basic lab equipment while constructing and testing measurement systems. Complete lab experiments using more advanced instrumentation systems, including various transducers, signal conditioning circuits, and data acquisition systems. Design and conduct experiments that support capstone mechanical design projects. Instruction provided on error analysis and the creation and editing of formal lab reports. Write multiple lab reports in executive summary style, and one formal lab report. | | | | | | | | | |

| | | | | COURSE DESC: Approaches photography as a set of problems and concepts rather than as a unified medium with a linear history. Photography is marked by multiple, often contradictory practices at the nexus of differing discursive and contextual parameters. As a result, the main interest is not only with the photograph as an object of study, but as a modality of thinking and a way of producing new models of visibility. We will investigate the criteria used to identify and discuss photographic images and practices over the century and a half since the inception of processes resulting in photographic material. At the same time, we will ask after the ways in which photographic practices elucidate aspects of the historical context from which they are drawn. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | | | | | |
| | | | | COURSE DESC: | Looks at the three decades of artistic production in America and Europe after World War II and the Holocaust. It focuses on four main questions: first, how did artists attempt to come to terms with the violent rupture in European civilization caused by the dehumanizing forces of war and genocide? Second, how did artistic production assist in the reconstruction of culture and community? How did they forge a connection to the prewar avant-garde? Third, how did artists attempt to engage the increasing presence of media and advertisement production, what Theodore Adorno referred to as "The Culture Industry," and George Bataille has discussed under the rubric of "The Marshall Plan," roughly understood as the "Americanization" of Europe. Last, how does our focused examination of postwar European Art in relationship to post-war American art de-center the art historical narrative that focuses primarily on American art centering on New York? How might our queries suggest a different narrative? Presents a historical approach to the development of art in America, Italy, France, Germany and the Netherlands from the first attempts to represent the atrocities of war to the critique of institutions of power in the '60s through to the return of painting as a form of historical reflection in the late '70s and early '80s. Does not claim to provide an exhaustive catalogue of every important artistic activity after the war. Rather, specific figures will be examined as case studies of the interrelationship between aesthetic, historical and ideological issues from 1945 on. Finally, introduces the history of contemporary artistic practices from the 1960s to the present, and the major critical and historical accounts of modernism and postmodernism in the arts. Focusing on the interrelationships between modernist culture and the emerging concepts of postmodernism and contemporary art, addresses a wide range of historical and methodological questions. These include the evolving idea of artistic autonomy, the changing role of cultural institutions, the shifting relationship of high art and mass culture, the impact of new technologies on cultural production, and the emergence of new audiences for art. | | | | | | | | | | | | |

| | | | | COURSE DESC: | Introduces the varied processes involved in making both intaglio (etching, engraving, drypoint) prints and relief (woodcut, wood engraving, linoleum, plastic) prints. Additional processes include collagraph and color printing. A series of critiques, group discussions, research and information gathering assignments, and lectures and demonstrations complement studio work. Historic and contemporary conceptual issues related to the media will also be introduced, including the print as mass media, political and practical applications. | | | | | | | | |
| FAR | ART | ART | 2430 | Screen/Paper | LEC | LE | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Designed to introduce a survey of fine art screenprinting and papermaking techniques. Investigations will focus on screenprinting and papermaking language and terminology, history and contemporary uses, and the application of the media on personal projects. A series of critiques, group discussions, research and information gathering assignments, and lectures and demonstrations complement studio work. Emphasis will be placed on the mastery of the technical processes, problem solving within process and idea, and quality of the original artwork produced. | | | | | | | | |
| FAR | ART | ART | 2510 | Graphic Design Principles | LEC | LE | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Investigation of the creation of meaning through visual forms: typography, image generation and manipulation, sign/symbol/icon, and visual contrasts. Includes conceptual thinking and creative problem solving in the integration of meaning and content in the construction of visual form. Emphasis on the use of current graphic generating technologies. | | | | | | | | |
| FAR | ART | ART | 2520 | Typography | LAB | LB | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduction to the use of typography as symbolic form. Study of typographic history, nomenclature, and meaning generation through letterform construction, word image, page sequencing, and digital composition. | | | | | | | | |
| FAR | ART | ART | 2520 | Typography | LEC | LE | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduction to the use of typography as symbolic form. Study of typographic history, nomenclature, and meaning generation through letterform construction, word image, page sequencing, and digital composition. | | | | | | | | |
| FAR | ART | ART | 2600 | Environmental Design Studio I | LAB | LB | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Course work includes conceptual and schematic investigation of the built environment with relation to digital and physical media in the design process. Emphasis placed on 3-dimensional and 4-dimensional explorations and visual representations. Project representation methods include hand and computer drafting. Students must have completed a successful portfolio review and maintain a computer workstation in the design studio. | | | | | | | | |
| FAR | ART | ART | 2610 | Environmental Design Seminar I | LEC | LE | 2 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Discussion and presentation of design and process theory and application as related to implementation of digital and physical media in the studio setting. Students must have completed a successful portfolio review and maintain a computer workstation in the design studio. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: Soph or Jr or Sr | | | | |
| | | | | COURSE DESC: | Investigation of material selection and application, construction systems, and building codes as related to interior architecture. investigation of interior finishes and materials, fire performance characteristics of materials, and material specifications. Field trips to actual construction sites when available. | | | | | | | | |
| FAR | ART | ART | 2670 | Computer-Aided Design:Professional Applications | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: ART 2600 and 2610 and (2620 concurrent) | | | | |
| | | | | COURSE DESC: | Instruction of computer-aided design applications to support the generation of architectural floor plans, elevations, schedules and details in construction documents. | | | | | | | | |
| FAR | ART | ART | 2710 | Traditional Practices in Painting | LEC | LE | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: ART 1200 and 1210 and 1220 and 1230 and 1240 | | | | |
| | | | | COURSE DESC: | Development of formal, technical, and conceptual attitudes in painting. Investigating problems in painting, recent developments, and formal concepts. | | | | | | | | |
| FAR | ART | ART | 2720 | Experimental Drawing and Painting | LEC | LE | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: ART 1200 and 1210 and 1220 and 1230 and 1240 | | | | |
| | | | | COURSE DESC: | An exploration of traditional and nontraditional drawing and painting techniques involving contemporary strategies of presentation and research methodologies. | | | | | | | | |
| FAR | ART | ART | 2810 | Film Photography | LEC | LE | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: ART 1200 and 1210 and 1220 and 1230 and 1240 | | | | |
| | | | | COURSE DESC: | Covers fundamental technical and conceptual issues of traditional analog photography. Skills covered include camera operation, film processing, printing, and principles of composition. In addition, slide lectures address pertinent issues in the history and current practice of photography. Through a combination of lectures, critiques, and workshops students learn the fundamentals of traditional silver printing as well as basic camera controls and other skills essential to future work in photography. Both black and white and color processes are examined. | | | | | | | | |
| FAR | ART | ART | 2820 | Digital Photography | LEC | LE | 4 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: ART 1200 and 1210 and 1220 and 1230 and 1240 | | | | |
| | | | | COURSE DESC: | Invites students to explore the possibilities of digital processes. Through class, workshops and demonstrations students learn the basics of Photoshop and become familiar with other digital programs. Others skills include scanning and printing as well as digital camera operation. Class lectures address cultural, social and ethical issues involving digital practice and explore the broad cultural shift from analog to digital media. Students are expected to become competent in various areas of digital practice and to test its possibilities. | | | | | | | | |
| FAR | ART | ART | 2900 | Studio Art Topics | LEC | LE | 4 | 12 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | REQUISITE: Soph or Jr or Sr | | | | |
| | | | | COURSE DESC: | Introduces topical/thematic approaches to art-making emphasizing single and multi- (and/or inter-) disciplinary. Students will research and address topical or media specific concerns through scholarly and studio approaches. Offers experiences in the most current topics/themes in the professional practice of art. | | | | | | | | |
| FAR | ART | ART | 2902 | Figure and Gender | LAB | LB | 4 | 8 | | N | U30 | | 0 |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: A multi- and interdisciplinary studio workshop for the development of individual fine arts practices. Students will pursue individual projects of study, research, and studio production exploring how means, methods, forms, and strategies for exhibition or dissemination are appropriate to project goals and work content. Students will further develop studio work and interests initiated in their concentrated area of study and experience and create new work for a culminating thesis project. Ongoing critique experiences with other advanced students from all areas of fine arts will guide project progress. Discussion and readings will aid students' understanding of how their individual practice and goals reside in discourse with larger movements, positions, and activities of the field of contemporary art. Practice with the presentation of ideas and concepts inherent in the work verbally and in written statements will supplement studio production. | | | | | | | | | |

| FAR | DFT | DANC | 1010 | Intro to Modern Dance | STU | ST | 1 | 2 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduces students to the genre of dance known as modern dance technique. Students develop an understanding of movement in relation to space, time, and energy through movement practice and experimentation and become familiar with body awareness, movement control, body parts, placement, and the kinesthetic sense. Critical thinking on dance as art is developed through class discussion of live dance performances and classroom movement projects utilizing knowledge gained. | | | | | | | | |
| FAR | DFT | DANC | 1020 | Intro to Dance Ballet | STU | ST | 1 | 2 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | An introductory in the basic movement vocabulary and style of classical ballet technique. Classes consist of barre work and center floor work that develops strength, flexibility, and coordination. Ballet movement skills may be taught in the Cecchetti, Russian, or French style and will emphasize proper body alignment/placement, feet and arm positions, and movement combinations that utilize the classical ballet movements learned in class. | | | | | | | | |
| FAR | DFT | DANC | 1040 | Intro to Dance Jazz I | STU | ST | 1 | 2 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | An introduction to jazz dance techniques and jazz dance styles. Emphasis will be placed on developing basic jazz skills that serve as the foundation for all styles of jazz dance from vernacular through hip-hop. Students will learn the dance vocabulary that is specific to jazz dance and that incorporates strength, flexibility, coordination, and rhythmic awareness. | | | | | | | | |
| FAR | DFT | DANC | 1050 | Introduction to African Dance Technique | STU | ST | 1.5 | 3 | | N | U10 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Introduction to traditional dances of Africa. Will focus on developing a balanced practical and theoretical understanding of the dances and related traditional rhythms and songs. It will explore basic African dance movements coming from secular and social dances, focusing on their quality, timing, and spatial organization. Over the course of 14 weeks the students will learn approximately 6 dance types from 6 different ethnic groups. No prior African dance experience in necessary. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Beginning through intermediate level instruction in various styles of jazz dance including the use of proper technique, performance quality, and rhythmic complexity. Development of movement skills from various styles of jazz through using a series of challenging exercises and movement phrases to improve technique and to build strength, stamina, and performance quality. | | | | | | | | |
| FAR | DFT | DANC | 1250 | African Dance Technique I | STU | ST | 1.5 | 3 | | N | U10 | | 75 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduction to traditional dances of Africa. Will focus on developing a balanced practical, and theoretical understanding of the dances and related traditional rhythms and songs. It will explore basic African dance movements coming from secular and social dances, focusing on their quality, timing and spatial organization. Over the course of 14 weeks the students will learn approximately 6 different dance types from 6 different ethnic groups. No prior African dance experience is necessary. | | | | | | | | |
| FAR | DFT | DANC | 1700 | The Dance Experience | LEC | LE | 3 | 0 | 2FA | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | A comprehensive course to introduce the beginning student to contemporary and classical dance forms including modern, ballet, and jazz dance styles. Discussions and readings cover historical and aesthetic perspectives. Live performances and studio practice contribute to students' experiential learning. | | | | | | | | |
| FAR | DFT | DANC | 1700 | The Dance Experience | STU | ST | 3 | 0 | 2FA | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |

| FAR | DFT | DANC | 1801 | Dance Production I | LAB | LB | 2 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | The objective is to participate in as many capacities as possible; in all SOD performances this semester and to gain first hand experience of the process. Focuses on developing skills that will be useful in all aspects of Dance Production. Students will have the opportunity to increase their breadth of knowledge of dance production terminology and practice. They will have a good deal of practice developing time management skills for the field (how you prioritize your life around a performance). They will have practice developing teamwork skills- as all concerts are a team effort. Designed for dance major, but non-majors are welcome. | | | | | | | | |

| FAR | DFT | DANC | 2010 | Dance Technique II Modern | STU | ST | 1.5 | 3 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | A continuation of materials learned in Dance 1010. Students will hone their understanding of modern dance movement in relation to space, time, and energy/effort with increased awareness of rhythm, musicality, and movement phrasing. Movement materials and kinesthetic concepts will be more advanced and built upon the foundational elements of Dance 1010. Live dance performances and class movement projects form the basis of class discussion of dance as an art form. | | | | | | | | |
| FAR | DFT | DANC | 2020 | Dance Technique II Ballet | STU | ST | 1.5 | 2 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | A continuation of Dance 1020. Students are expected to be familiar with basic ballet terminology including feet and arm positions, specific ballet steps including adagio and allegro combinations, basic turns and leaps in the classical ballet tradition. Expectations include improved technical movement skills, musical awareness, and introduction to performance qualities of classical ballet. | | | | | | | | |
| FAR | DFT | DANC | 2040 | Dance Technique II Jazz | STU | ST | 1.5 | 2 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Continues the development of materials from Dance 1040 and introduces more challenging and complex movement skills and jazz dance combinations. It requires a higher degree of stamina, strength and flexibility than Dance 1040 and begins to emphasize the aesthetic and expressive elements of Jazz dance performance. | | | | | | | | |
| FAR | DFT | DANC | 2050 | African Dance Technique II | STU | ST | 1.5 | 3 | | N | U10 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Traditional dances of Africa. This is the second course in the series of African dance technique. Students will learn to recognize movements, rhythms, songs, instruments and paraphernalia by country and selected ethnic groups through a practical and theoretical approach. It will explore intermediate African dance movements coming from ceremonial dances, focusing on facial expressions, meaning and execution of movement. Over the course of 14 weeks, students will learn approximately 6 different types of dance types from 6 different ethnic groups. Prior experience in African dance or DANC 1050 is recommended. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | A continuation of materials learned in Dance 2010. An intermediate/advanced level course in modern dance technique this course develops skills in more complex movement phrasing requiring a good background in stationary and traveling dance combinations, physical strength, flexibility and coordination. Live dance performances and class movement projects form the basis of class discussion of dance as an art form. For serious, non-major modern dancers. | | | | | | | | |
| FAR | DFT | DANC | 3020 | Dance Technique III Ballet | STU | ST | 1.5 | 3 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | A continuation of materials learned in Dance 2020. Emphasis will be placed on mastery of intermediate difficulty movement skills including longer adagio and allegro combinations requiring technical proficiency, musical phrasing and stamina. For serious, non-major ballet dancers. | | | | | | | | |
| FAR | DFT | DANC | 3040 | Dance Technique III Jazz | STU | ST | 1.5 | 3 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | A continuation of materials learned in Dance 2040. Students are expected to be intermediate level jazz dancers with a good command of the jazz dance vocabulary, strength, stamina, coordination, and flexibility. Emphasis will be placed on increased mastery of jazz dance vocabulary and increased understanding and demonstration of the aesthetics and performance elements of Jazz dance in all course materials. For serious, non-major jazz dancers. | | | | | | | | |
| FAR | DFT | DANC | 3050 | African Dance Technique III | STU | ST | 1.5 | 3 | | N | U10 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Traditional dances of Africa. This is the third course in the series of African Dance Technique. Will focus on complex religious and ceremonial dances as performed in their traditional setting. The student will begin to learn how to perform these dances at a professional level. Over the course of 14 weeks the student will learn approximately 6 different dance types from 6 different ethnic groups. Prior experience in African dance of DANC 2050 is recommended. | | | | | | | | |
| FAR | DFT | DANC | 3120 | Music for Dance II | STU | ST | 1 | 2 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Also for music composition majors who wish to write for dance theater. History of music for dance. Choreographer-composer relationship. | | | | | | | | |

| FAR | DFT | DANC | 3250 | African Dance Technique III | STU | ST | 1.5 | 3 | | N | U30 | | 75 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Will focus on complex religious and ceremonial dances as they are performed in their traditional settings. The student will begin to learn how to perform these dances at a professional level. It will include arranging and performing both traditional and contemporary African dances to be performed on a Western stage. Students will learn approximately 6 different dance types from 6 different ethnic groups as well as be invited to perform in the The Ohio University African Ensemble's Annual Concert. | | | | | | | | |
| FAR | DFT | DANC | 3280 | Dance Repertory | STU | ST | 1 to 2 | 12 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Rehearsal and performance of choreographic works taught by choreographer or reconstructors with aid of videotape, film, and/or dance scores. | | | | | | | | |
| FAR | DFT | DANC | 3300 | Dance Kinesology I | STU | ST | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduces basic concepts of the study of the body through an overview of: the anatomy of breathing; the musculo-skeletal system; basic principles of kinesiology and their relationship to fitness training; the nature of stress and benefits of relaxation training. A somatic (body/mind) approach to the course materials draws on experiential activities to enhance conceptual and factually based materials. Explores skeletal alignment, muscular development and function, and mechanical efficiency in the production of dance movement. | | | | | | | | |
| FAR | DFT | DANC | 3300 | Dance Kinesology I | LEC | LE | 3 | 0 | | N | U30 | | 0 |

| FAR | DFT | DANC | 3301 | Pilates Reformer Training | STU | ST | 1 | 4 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Designed to condition students using resistance training on the Universal Reformer and other Pilates apparatus. Students learn exercise principles and techniques on specialized equipment, focusing on correction of body alignment problems, muscle imbalances, strength, and flexibility. | | | | | | | | |
| FAR | DFT | DANC | 3302 | Pilates Mat Training | STU | ST | 1 | 4 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Pilates Method of Body Conditioning and is appropriate for all levels of movement experience. The precision, control, and focus of the exercises enables students to balance the musculoskeletal system so that they are able to efficiently and safely practice other more rigorous, demanding physical disciplines. Includes laboratory practice of 45 mat exercises that train the muscles to improve body stability and mobility. The Pilates method develops precision coordination and concentration in movement while increasing strength and flexibility. Addresses injury rehabilitation from the perspective of preventive training. | | | | | | | | |
| FAR | DFT | DANC | 3303 | Bartenieff Fundamentals | STU | ST | 1 | 4 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Provides the student with an experiential approach to movement as a somatic (from soma, meaning body) study experience. Addresses Irmgard Bartenieff's (1890-1981) work, Basic Six Fundamentals exercises, their relationship to the Bonnie Bainbridge Cohen's six Developmental Patterns and enhancing one's movement facility through an approach based on these materials. Fundamentals provides a framework for movement training through 1) open exploration, 2) discovery, 3) observation and 4) practice. Class work is designed to address common dance and non-dance movement issues. | | | | | | | | |
| FAR | DFT | DANC | 3304 | Yoga: Principles and Practice | STU | ST | 1 | 8 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduction to yoga, particularly the practices of asanas (poses), vinyasas (sequences), and pranayama (breathing techniques). Emphasizes developing a personal practice, sequencing poses and counterposes to promote safety, and practicing pranayama and meditation to improve concentration and body awareness. Readings and class discussions will provide an understanding of the history and philosophy of yoga. No yoga experience is required, but some movement background is helpful. | | | | | | | | |
| FAR | DFT | DANC | 3360 | Dance Movement Lab | STU | ST | .5 to 5 | 10 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Addresses individual problems related to the production of movement. Means to augment physical function and expand the qualitative range of the mover are explored. | | | | | | | | |
| FAR | DFT | DANC | 3405 | Dance Pedagogy | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Principles of teaching dance and their practical application for children and adults. Focus is on what "pedagogy" means and how it differs from curriculum and lesson planning. Includes lecture, discussion, and observation of studio dance classes in several different genres. | | | | | | | | |
| FAR | DFT | DANC | 3405 | Dance Pedagogy | PRA | PR | 3 | 0 | | N | U30 | | 0 |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | The objective is to participate in as many capacities as possible, on all SOD performances this semester, and to gain experience building upon Dance 1801. Focuses on continued development of production skills in all aspects of Dance Production. You will have the opportunity to increased your breadth of knowledge of dance production terminology and practice. You will be assigned a "major job" as a department head for a concert this semester, and will experience all the duties, responsibilities, and techniques of that position. You will have practice developing your teamwork skills, as the leader of a team-- as all concerts are a team effort. Designed for dance majors, but non-majors are welcome. | | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | A continuation of materials learned in Dance 3010. It is an advanced level course expecting students to have previous training in modern dance technique. Students will develop skills in complex movement phrases, perform with strength, flexibility, and body coordination in a range of expressive movement qualities. Expectation of a level of sophistication in performance quality and requires exposure to live dance performance and to dance as an art form. For serious, non-major modern dancers. | | | | | | | | | |
| FAR | DFT | DANC | 4020 | Dance Technique IV Ballet | STU | ST | 1.5 | 3 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | A continuation of materials learned in Dance 3020. Focus will be on upper intermediate technical skills requiring thorough knowledge of ballet vocabulary, directions, and stylistic concerns. May draw on classical ballet movement from the Cecchetti, Russian, French or Contemporary ballet styles. For serious, non-major ballet dancers. | | | | | | | | | |
| FAR | DFT | DANC | 4040 | Dance Technique IV Jazz | STU | ST | 1.5 | 3 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Develops the concept of fitness in practice and theory as applied to dance. Strength, flexibility, aerobic conditioning, and relaxation as a part of the fitness continuum are explored through a variety of approaches to creating and attaining fitness goals. Helps students develop ability to construct anatomically and physiologically appropriate dance class material supported by knowledge of various somatic practices used as adjunct training disciplines in dance. Will survey somatic disciplines as they apply to dance conditioning and professional training. You will experience a selected range of somatic practices through in-class guided practice. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, PR | | | | | | | | |
| | | | | COURSE DESC: | Introduces basic concepts of the study of the body through an overview of: the anatomy of breathing; the musculo-skeletal system; basic principles of kinesiology and their relationship to fitness training; the nature of stress and benefits of relaxation training. A somatic (body/mind) approach to the course materials draws on experiential activities to enhance conceptual and factually based materials. Explores skeletal alignment, muscular development and function, and mechanical efficiency in the production of dance movement. | | | | | | | | |

| FAR | DFT | DANC | 5301 | Pilates Reformer Training | STU | ST | 1 | 2 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | | | | | | | | |
| | | | | COURSE DESC: | Designed to condition students using resistance training on the Universal Reformer and other Pilates apparatus. Students learn exercise principles and techniques on specialized equipment, focusing on correction of body alignment problems, muscle imbalances, strength, and flexibility. | | | | | | | | |
| FAR | DFT | DANC | 5302 | Pilates Mat Training | STU | ST | 1 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | | | | | | | | |
| | | | | COURSE DESC: | Instructs students in the proper form and execution of beginning through intermediate level non-equipment based exercises performed on an exercise mat. It is the principle segment of training in the comprehensive Pilates Method of Body Conditioning and is appropriate for all levels of movement experience. The precision, control and focus of the exercises enables students to balance the musculoskeletal system so that they are able to efficiently and safely practice other more rigorous, demanding physical disciplines. Includes laboratory practice of 45 mat exercises that train the muscles to improve body stability and mobility. The Pilates method develops precision coordination and concentration in movement while increasing strength and flexibility. Addresses injury rehabilitation from the perspective of preventive training. | | | | | | | | |
| FAR | DFT | DANC | 5303 | Bartenieff Fundamentals | STU | ST | 1 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | | | | | | | | |
| | | | | COURSE DESC: | Provides the student with an experiential approach to movement as a somatic (from soma, meaning body) study experience. Addresses Irmgard Bartenieff's (1890-1981) work, Basic Six Fundamentals exercises, their relationship to the Bonnie Bainbridge Cohen's six Developmental Patterns and enhancing ones movement facility through an approach based on these materials. Fundamentals provides a framework for movement training through 1) open exploration, 2) discovery, 3) observation and 4) practice. Class work is designed to address common dance and non-dance movement issues. | | | | | | | | |
| FAR | DFT | DANC | 5304 | Yoga: Principles and Practice | STU | ST | 1 | 4 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduction to yoga, particularly the practices of asanas (poses), vinyasas (sequences), and pranayama (breathing techniques). Emphasizes developing a personal practice, sequencing poses and counterposes to promote safety, and practicing pranayama and meditation to improve concentration and body awareness. Readings and class discussions will provide an understanding of the history and philosophy of yoga. No yoga experience is required, but some movement background is helpful. | | | | | | | | |
| FAR | DFT | DANC | 5360 | Dance Movement Laboratory | STU | ST | .5 to 5 | 5 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Investigation of individual problems and capacities related to the production of movement. Explores the means to improve efficiency and expand qualitative range of the mover through application of specific somatic modalities. | | | | | | | | |
| FAR | DFT | DANC | 5550 | Dance Ethnography: Intellectualizing the Body's Motion | LEC | LE | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Surveys a wide range of theoretical approaches to the study of dance from an ethnological perspective: dance as a system of communication, social structure, ethnicity, and sacred art. Methodologies used are developed in the fields of symbolic anthropology, social, history, ethnochoreology, ethnomusicology, comparative religious, and performance studies. Gathering ethnographic material, ethical dynamics of fieldwork encounters, and duties of the dance ethnographer as a cultural mediator are explored. | | | | | | | | |
| FAR | DFT | DANC | 5710 | Histories of Modern & Post Modern Choreography and Practice | LEC | EL | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Development of Euro-American dance in the 20th- century with focus on contemporary dance through the present. | | | | | | | | |
| FAR | DFT | DANC | 5710 | Histories of Modern & Post Modern Choreography and Practice | LEC | LE | 3 | 6 | | N | G40 | | 0 |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Since dance is an art of the body, it often engages discourses about gender, sexuality, and power. Will examine concert dance from the perspectives of feminist, gender and sexuality studies. How have representations of gender and sexuality in dance changed through time? Class activities will include video/concert viewings, readings, writings, and class discussions. | | | | | | | | |
| FAR | DFT | DANC | 5711 | Dance, Sexuality and Gender | LEC | EL | 3 | 6 | | N | G40 | | 0 |

| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | | | | | | | |
| | | | | COURSE DESC: | Preparation, rehearsal, and performance of a role for public performance. | | | | | | | | |
| FAR | DFT | THAR | 5110 | Acting I: Foundation | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | MFA acting major | | | | | | |
| | | | | COURSE DESC: | The introduction of an intensive foundational and sequential course of actor training. Rigorous emphasis will be placed on the authentic use of self, the awakening of the emotional life and the collaborative process as explored through exercises and scene work. Students will be conditioned to listen and respond, work spontaneously, develop a point of view, and to act by doing. | | | | | | | | |
| FAR | DFT | THAR | 5111 | Acting II: Foundation | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 5110 | | | | | | |
| | | | | COURSE DESC: | Advanced foundation work will be explored through exercises and scene work. Authentic use of self will continue to be stressed. Upon completion of the class, students will have acquired the fundamental principles and tools necessary to consistently craft and deliver work with strong acting values. The work will be able to serve an actor in all mediums of performance, and in all styles of writing. | | | | | | | | |
| FAR | DFT | THAR | 5160 | Movement for Actors I | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | MFA acting major | | | | | | |
| | | | | COURSE DESC: | Introduces the student to fundamental concepts and principles of movement for actors. Emphasis is placed on the human body as an instrument of expression and on developing strength, alignment, and availability. Exercises and movement improvisations are designed to build individual skill, introduce basic movement vocabulary, and develop ensemble work in which particular attention will be given to listening and responding to spatial and temporal elements on stage. | | | | | | | | |
| FAR | DFT | THAR | 5161 | Movement for Actors II | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 5160 | | | | | | |
| | | | | COURSE DESC: | Continues the focus on concepts and principles of movement for actors including a more advanced study of alignment, physical strength, and spontaneity. Additional emphasis will be placed on the embodiment of images and physical actions. Exercises are designed to develop expressiveness and heightened consciousness. | | | | | | | | |
| FAR | DFT | THAR | 5170 | Voice and Speech for the Actor I | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | MFA acting major | | | | | | |
| | | | | COURSE DESC: | Freeing and developing the speaking voice to include the release of physical tension, breath and sound perception, freeing and developing the articulators and resonators. Speech work to include IPA vowel phonetics and transcription. | | | | | | | | |
| FAR | DFT | THAR | 5171 | Voice and Speech for the Actor II | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 5170 | | | | | | |
| | | | | COURSE DESC: | Voice work to develop range and vocal power through repeated and practiced exercises and sound and movement. Speech work covers the International Phonetic Alphabet consonants and proper linking techniques along with the study of speech patterns and rhythms. | | | | | | | | |
| FAR | DFT | THAR | 5200 | Practicum in Directing | LAB | LB | 1 to 6 | 18 | | I | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | Permission required | | | | | | |
| | | | | COURSE DESC: | Directing practicum credits reflect work done on School of Theater productions, lab shows, realism projects, style projects, and playwrights festival productions. The directing mentor makes weekly visits to rehearsals for these projects, assessing rehearsal strategies and overall progress of the production. | | | | | | | | |
| FAR | DFT | THAR | 5210 | Directing I | LAB | LB | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | MFA directing major | | | | | | |
| | | | | COURSE DESC: | Designed to help the student director understand the logical progression of organic components which constitute the process of stage directing. It is programmatically structured to coincide with the student's first fully-realized directing project (the Realism Projects), thereby allowing the student to apply principles and strategies learned in the classroom to concurrent rehearsals, analyze problems experienced in those rehearsals, and formulate solutions based on their own evaluation of potential solutions as well as feedback from the instructor. | | | | | | | | |
| FAR | DFT | THAR | 5210 | Directing I | LEC | LE | 3 | 6 | | N | G40 | | 0 |

| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 5210 | | | | | | |
| | | | | COURSE DESC: | Focuses on two important aspects of directing: the development of new scripts and sound design. It is programmatically structured to coincide with the student's involvement as a director with the annual Seabury Quinn, Jr. Playwrights Festival. The first half emphasizes theatrical sound design and how the director interfaces with this important aspect of theater production. The second half shifts its focus to script development, including the director's role in collaborating with a playwright on new work. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 5111 | | | | | | |
| | | | | COURSE DESC: | Students will develop tools to further incorporate the work of playing an action in pursuit of an objective. Emphasis will be placed on transforming to and creating complex characters; working with a stronger sense of craft and greater specificity. Heightened language texts will be introduced. | | | | | | | | |
| FAR | DFT | THAR | 6111 | Acting IV: Character and Heightened Language | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 6110 | | | | | | |
| | | | | COURSE DESC: | Playing Shakespeare and other advanced acting skills. Using a range of scenes and monologues, the students will explore, rehearse, and perform the works of William Shakespeare. Emphasis will be placed on use of text, specificity, character, and personalization. Additionally, the acting vocabulary will be expanded to include the understanding and application of one or more additional acting methods. | | | | | | | | |
| FAR | DFT | THAR | 6160 | Physical Theater I | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 5161 | | | | | | |
| | | | | COURSE DESC: | The application of advanced technique and integrated movement vocabulary to a more sophisticated study including creation of scenes, heightened language/verse, and character. The research may include study of specialized and advanced practices in stage combat, advanced scene work with special movement challenges, or heightened language as well as advanced composition devising original ensemble, physically-based work. | | | | | | | | |
| FAR | DFT | THAR | 6161 | Physical Theater II | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | THAR 6160 | | | | | | |
| | | | | COURSE DESC: | Through observation and exploration of outside elements including visual arts, music, everyday life, archetypes, as well as their imaginations and individual research, students will study advanced technique and integrate the movement vocabulary into advanced study including creation of character. The research may include readings, mask work, improvisation, and scene work, as well as individual, partner, and ensemble composition. | | | | | | | | |
| FAR | DFT | THAR | 6162 | Stage Combat | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | REQUISITE: | | | | | | | |
| | | | | COURSE DESC: | Will focus on the safe and dramatically effective execution of theatrical violence. Students will learn skill sets specific to stage combat. Of primary importance will be the skills necessary to execute a fight without the risk of injury to the performers involved. Through the preparation and performance of dramatic and comedic scenes involving stage combat, the student will experience the process of stage combat as it applies to the actor. | | | | | | | | |

| | | | | COURSE DESC: The Language of Shakespeare, a textual and practical overview of Shakespeare's use of language and rhetorical devices. | | | | | | | | | |
| FAR | DFT | THAR | 6171 | Voice and Speech for the Actor IV | STU | ST | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES A-F, CR, PR | | | | | REQUISITE: THAR 6170 | | | | |
| | | | | COURSE DESC: Vocal work intended to release undue tension in the voice, increase power, and range without unnecessary strain and incorporate specific speech with heightened expressivity. | | | | | | | | | |
| FAR | DFT | THAR | 6200 | Practicum in Directing | LAB | LB | 1 to 6 | 18 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES A-F, CR, PR | | | | | REQUISITE: | | | | |
| | | | | COURSE DESC: Directing practicum credits reflect work done on School of Theater productions, lab shows, realism projects, style projects, and playwrights festival productions. The directing mentor makes weekly visits to rehearsals for these projects, assessing rehearsal strategies and overall progress of the production. | | | | | | | | | |
| FAR | DFT | THAR | 6210 | Period Style and the Director I | LEC | LE | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES A-F, CR, PR | | | | | REQUISITE: THAR 5211 | | | | |
| | | | | COURSE DESC: Addresses the questions "What is period style", and "How does a director change his or her approach to preproduction and rehearsal when dealing with a period play or a contemporary play with period style elements?" Through a careful examination of the distinguishing characteristics of period style, and in-class application of strategies and tools honed through scene work, the student will develop the tools to direct productions that have a variety of stylistic challenges. The primary focus will be Greek drama and other non-Shakespearean theater. | | | | | | | | | |
| FAR | DFT | THAR | 6210 | Period Style and the Director I | LAB | LB | 3 | 6 | | N | G40 | | 0 |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: The seminar explores the musical-aesthetic thought outside the Western world, from ancient sources to contemporary debates. The readings include mythological, religious, literary, and philosophical texts, both traditional and modern. The areas of musical creativity that will be discussed comprise classical traditions and popular genres, including the uses of music in mass entertainment, ideological propaganda, and devotional practices. Literary, visual, and video materials will help illustrate the attitudes towards music in these cultures. In addition, the seminar will pursue a methodological theme of considerable urgency: Do the existing historical and contemporary approaches do justice to the uniqueness and complexity of music-philosophical theorizing in the cultures of, for example, India, China, or Bali? What kind of an approach would allow us to avoid the pitfalls of comparativism, Orientalism, and distorting biases in general? What kind of a philosophical perspective can assure at once a meaningful multilateral dialogue among world musical cultures, and their resistance to the levelling effects of globalization? A variety of texts, both by authors from a relevant cultural tradition and by Euro-American commentators, will serve as a platform for addressing these questions. | | | | | | | | | |
| FAR | IART | IART | 5601 | Southeast Asian Puppet Theater | SEM | SE | 4 | 99 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F, CR, PR | | | | | | | | | |
| | | | | COURSE DESC: Focuses on Southeast Asian puppet theater, including Indonesian, Vietnamese, Burmese and Thai. Analyzes the literature, music, puppetry, performance conditions, and audience. Students examine the history of puppetry, the contexts of culture, politics, religion, gender, and post-colonial and contemporary manifestations. Throughout, students learn to manipulate the puppets and complete with a short performance. | | | | | | | | | |

| | | | | REQUISITE: ANTH 1010 and Sr | | | | | | | | | |
| | | | | COURSE DESC: This course is intended to give students an overview of the two contributing cultures and their musics found in this country, from the songs of rural Appalachia and New England to the African music brought by the slaves; to the musics that grew out of those traditions, from the popular musics of the cities to the songs of Latin Americans and European minorities. We will trace the way these musics live in the modern city, in the academic world and in contemporary music society. (Nettl, 1976) The student will be introduced to the study of music as a manifestation of human need and a representation of culture. The course uses music as an index to understand American culture while it introduces the student to various concepts in the field of ethnomusicology. (Nettl, 1976) | | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | In much of the country, public and private actions develop business and physical infrastructure, provide needed services and contribute to other physical and intellectual attributes that constitute communities. This course examines the intermingling of public and private roles and responsibilities and the potential consequences for the business, social, economic and physical development of communities that reflect the inevitable negotiation of public interest oversight and entrepreneurial risk in cross-sectoral partnerships. This course will function as a public private partnership with faculty and students engaging business and public leaders to build and analyze partnerships for the future. | | | | | | | | | |

| | | | | Designed to introduce students to management and leadership skills needed for success in public administration. | | | | | | | | | |
| GVS | GVS | LPA | 4850 | Policy Analysis for Public Affairs and Leadership | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Focused upon key aspects of public policymaking and analysis, and designed to introduce you to ways of systematically thinking about public policies. Because one cannot analyze a policy without understanding the roots of the policy in question, in this course we spend some time understanding the key actors and forces in the policy arena, understanding how to develop an appropriate framework for analysis, and the limitations of each analytical framework. | | | | | | | | | |
| GVS | GVS | LPA | 4860 | Public Budgeting | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | This class examines principles of sound tax policy and politics surrounding revenue decisions. It also examines processes and techniques of governmental spending decisions. The practices and fundamental concepts of government accounting, budgeting, financial management and public finance will also be introduced. Contemporary cases of budget decision-making processes at the national, state and local budget systems will be considered. | | | | | | | | | |
| GVS | GVS | LPA | 4870 | Financial Management in Government | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Students will survey the principles, issues and skills of financial management in the public sector. The focus is upon applications in the public sector and not-for-profit environment. The objectives of the course are to provide students with both theoretical understanding of the topic and to develop some of the fundamental skills necessary to work competently in the field. The focus will be on preparing students to be skilled consumers of financial information who possess the ability to analyze it and make sound decisions based on their analysis. | | | | | | | | | |

| | | | | Examines the role that values play in the design and implementation of public policy. The course begins with a brief introduction to some of the most influential traditions in ethics: deontology, utilitarianism, virtue theory and care ethics. This introduction aids us in establishing a common vocabulary for the analysis of policy questions and engagement with the broader debates in which such questions are embedded. We move from this introduction into a closer consideration of ethics in the context of several concrete institutional settings. | | | | | | | | | |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | In much of the country, public and private actions develop business and physical infrastructure, provide needed services and contribute to other physical and intellectual attributes that constitute communities. This course examines the intermingling of public and private roles and responsibilities and the potential consequences for the business, social, economic and physical development of communities that reflect the inevitable negotiation of public interest oversight and entrepreneurial risk in cross-sectoral partnerships. This course will function as a public private partnership with faculty and students engaging business and public leaders to build and analyze partnerships for the future. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, PR | REQUISITE: | | | | | | | |
| | | | | COURSE DESC: | This class examines principles of sound tax policy and politics surrounding revenue decisions. It also examines processes and techniques of governmental spending decisions. The practices and fundamental concepts of government accounting, budgeting, financial management and public finance will also be introduced. Contemporary cases of budget decision-making processes at the national, state and local budget systems will be considered. | | | | | | | | |
| GVS | GVS | MPA | 5870 | Financial Management in Government | LEC | LE | 3 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, PR | REQUISITE: | | | | | | | |
| | | | | COURSE DESC: | The purpose of this course is to survey the principles, issues and skills of financial management in the public sector. The focus is upon applications in the public sector and not-for-profit environment. The objectives of the course are to provide students with both theoretical understanding of the topic and to develop some of the fundamental skills necessary to work competently in the field. The focus will be on preparing students to be skilled consumers of financial information who possess the ability to analyze it and make sound decisions based on their analysis. | | | | | | | | |
| GVS | GVS | MPA | 5890 | Non-profit Management | LEC | LE | 3 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | | | | | | | |
| | | | | COURSE DESC: | An introduction to the non-profit sector and its role in society, the economy, and the delivery of human services. Includes an overview of principle management junctions as each applies to non-profit organizations. | | | | | | | | |

| | | | | COURSE DESC: | Introduce students to the basic principles underlying social science research in the context of public affairs. | | | | | | | | |
| GVS | GVS | MPA | 6020 | Advanced Research Methods in Leadership and Public Affairs | LEC | LE | 3 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | MPA 6010 or POLS 601 | | | | | | |
| | | | | COURSE DESC: | Builds upon MPA 6010 by providing students with a firm grasp of the basic statistical tools and techniques necessary for program evaluation and policy analysis. | | | | | | | | |
| GVS | GVS | MPA | 6030 | Qualitative Research Methods in Public Administration | LEC | EL | 3 | 6 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | REQUISITE: | MPA 6010 or POLS 601 | | | | | | |
| | | | | COURSE DESC: | An introduction to the principles, methodologies, and methods of qualitative research. The course will examine the role of qualitative research in the field of public administration (and allied fields) as well as the relationship between qualitative and quantitative methodologies. The course will provide students the opportunity to examine and practice approaches and methodologies utilized by qualitative researchers such as: interviewing, ethnography, participant observation, case studies, discourse analysis, and content analysis. Through readings, discussions, and practice, students will be able analyze the comparative strengths and liabilities of each method. The course will provide students with the knowledge and skills needed to select qualitative methodologies and methods that are appropriate given the research question at hand. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, PR | | | | | | | | |
| | | | | COURSE DESC: | This course will explore the current research to determine the most up to date recommendations for improving muscle performance. The course will be a combination of traditional textbook recommendations and current research to determine the optimal state of Strength and Conditioning practice. | | | | | | | | |
| HSP | AHSW | EXPH | 6170 | Exercise Testing & Prescription | LEC | LE | 4 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduction to a common body of knowledge related to exercise physiology, exercise testing and exercise programing. Emphasis is on graded exercise stress test administration, basic electrocardiography, and laboratory physical performance tests. Study of the underlying principles regarding the prescription of exercise for all populations (healthy individual, sedentary, and diseased). | | | | | | | | |

| | | | | Introduces the student to language of the deaf, American Sign Language (ASL) and deaf culture in America. Focus is on building sign vocabulary, learning proper fingerspelling technique, attain knowledge of ASL grammar and syntax rules, employ the correct use of non-manual signals, application of personal space and body language, and the development of sensitivity and awareness of the Deaf community in America. The student is expected to acquire basic signing skills and sign vocabulary and begin putting signs together into correct ASL syntax. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, CR, PR | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required and mentor will judge readiness of student to begin dissertation based on student's performance in related directed studies. Students initiate, execute and complete, and orally defend an independent research project in an area of research interest and experience (under the guidance of a primary faculty mentor). The project includes generating relevant research questions, developing an appropriate study design and methods/procedures, selecting appropriate analysis schemes and properly interpreting the results, and defending a written product of the project. | | | | | | | | |
| HSP | RCS | CSD | 8960 | Signal Detection Theory | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Examination of the fundamental principles of signal detection theory and application of the theory to research in the speech, language, and hearing sciences. | | | | | | | | |
| HSP | RCS | CSD | 8961 | Auditory Scene Analysis | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Discussion of the psychological underpinnings essential for persons to form coherent mental representations and interpretations of the world around them based on auditory information. | | | | | | | | |
| HSP | RCS | CSD | 8962 | Working Memory, Cognition and Language | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Students will engage in critical analysis and comparison of the three most prominent models of working memory and will relate the different models to auditory processing and language processing. | | | | | | | | |
| HSP | RCS | CSD | 8963 | Theoretical Accounts of Specific Language Impairment | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Provide students with current knowledge about the primary theoretical positions about specific language impairment (SLI) in children. The seminar examines the different theoretical assumptions underlying various models of SLI and evidence supporting each model. | | | | | | | | |
| HSP | RCS | CSD | 8964 | Advanced Topics in Auditory Prostheses | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Provides overview of basic research and its clinical implications in cochlear implants and other auditory prostheses including intraneural implants, auditory brainstem implants, midbrain implants, and optical stimulation of auditory neurons. Discusses clinical issues with cochlear implants. Provides experience and troubleshooting with the newest hardware and software used in clinical cochlear-implant programming. | | | | | | | | |
| HSP | RCS | CSD | 8965 | Single Subject Research in CSD | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Provides students current knowledge about the value and importance of a range of single subject research designs in communication sciences and disorders. Seminar is reading intensive. Students will facilitate and participate in roundtable discussions regarding the types of single-subject designs and the threats to reliability and validity associated with different single subject designs. | | | | | | | | |
| HSP | RCS | CSD | 8966 | Beginning Communicators | SEM | SE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Provides current knowledge about the development of communication skills of very young children as well as the assessment and intervention of early communication deficits. | | | | | | | | |
| HSP | RCS | CSD | 8967 | Advanced Seminar in Augmentative and Alternative Communication | SEM | SE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Provides students current knowledge and issues related to reliability and validity of contemporary issues in augmentative and alternative communication. Students will describe challenges related to subject selection in AAC research. | | | | | | | | |
| HSP | RCS | CSD | 8968 | Grant Writing in CSD | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Provides students with information about the importance of grantsmanship as a core ability required of academic-research faculty. Focuses on the content and process of strong, competitive grant writing, and presents an overview of a wide variety of potential funding mechanisms in communications sciences and disorders. | | | | | | | | |
| HSP | RCS | CSD | 8969 | Lexical Acquisition in Children | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Provides students with detailed information about typical lexical (semantic) development, how the mental lexicon is organized, theoretical explanations of word learning, and word learning difficulties in children. Both theoretical and clinical perspectives will be provided. Seminar is reading and discussion intensive. | | | | | | | | |
| HSP | RCS | CSD | 8970 | Research Critique in CSD | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Permission required Evaluate peer-reviewed research in communication sciences and disorders, including background information and motivation, methods and procedures, results (statistical schemes), and discussion (data interpretation and contextualization of results). | | | | | | | | |
| HSP | RCS | CSD | 8971 | Language Disorders of Form: Assessment and Remediation | SEM | SE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | REQUISITE: Provides students detailed information about the development and disorders of morphology and syntax in school-age children. | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Explores eye-tracking methods to study a variety of cognitive and linguistic processing abilities in individuals with and without disabilities and disorders. | | | | | | | | | |
| HSP | RCS | CSD | 8973 | Advanced Differential Diagnosis of Aphasia | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Examines the complexities that may impact validity and reliability of aphasia assessment and the study of advanced assessment methods, emerging technologies, and related research needs and opportunities. | | | | | | | | | |
| HSP | RCS | CSD | 8974 | Strategic Academic Career Development in CSD | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Study of career development strategies for individuals pursuing scholarly careers in communication sciences and disorders. | | | | | | | | | |
| HSP | RCS | CSD | 8975 | Research Ethics in CSD | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Study of ethical issues in clinical practice and research in communication sciences and disorders. | | | | | | | | | |
| HSP | RCS | CSD | 8976 | Pedagogy in CSD | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Examines methods to enhance teaching and learning in the field of communication sciences and disorders. | | | | | | | | | |
| HSP | RCS | CSD | 8977 | Signal Processing | SEM | SE | 1 to 3 | 3 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Topics related to signal processing of the auditory system, hearing aids, related hearing devices, and/or cochlear implants will be discussed. Will rely heavily on published literature and other sources of signal processing information. | | | | | | | | | |
| HSP | RCS | CSD | 8978 | Biomechanical and Temporal Analysis of Swallowing | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Seminar identifies the biomechanical and temporal characteristics of normal and disordered swallowing, applies temporal and biomechanical measurements, and developd innovative intervention strategies for dysphagia rehabilitation based on the temporal and biomechanical analysis. | | | | | | | | | |
| HSP | RCS | CSD | 8979 | Advanced Seminar in Neurogenic Speech and Swallowing | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Evaluates current clinical and research issues in neurogenic and organic speech and swallowing. Use advanced assessment tools and treatment strategies for patients with speech and/or swallowing disorders. | | | | | | | | | |
| HSP | RCS | CSD | 8980 | MATLAB Programming in Hearing and Speech Research | SEM | SE | 3 | 0 | | I | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Provides introduction to intermediate level of programming skills using MATLAB in hearing and speech research. Topics include basics, matrices, graphics, graphical user interfaces, acoustics, speech signals, signal processing, and data analyses with MATLAB. | | | | | | | | | |
| HSP | RCS | CSD | 8981 | Developmental, Social and Neural Bases of Memory | SEM | SE | 1 to 3 | 3 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: | | | | | | | | | |
| | | | | COURSE DESC: Examines the key factors that influence autobiographical memory in children and adults from a multidisciplinary perspective. Goals of seminar are to 1) provide students with a sound theoretical and empirical background on research on autobiographical memory; 2) encourage independent, critical analysis of theory and research in this area; and 3) improve written and oral communication of research ideas. | | | | | | | | | |
| HSP | RCS | PT | 2590 | Introduction to Physical Therapy | LEC | LE | 2 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: | | | | | | | | | |
| | | | | COURSE DESC: Designed for those students who are considering physical therapy as a career option. Presentations and topics of discussion will provide the student with an understanding of the physical therapy profession and the requirements for entry into the profession. | | | | | | | | | |
| HSP | RCS | PT | 2591 | Introductions to Physical Therapy Clinical Experience | LAB | LB | 2 | 0 | | I | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Permission required | | | | | | | | | |
| | | | | COURSE DESC: Designed to provide direct observation and discussion of physical therapy evaluation and interventions in local clinics for undergraduate students seriously considering physical therapy as a career. | | | | | | | | | |
| HSP | RCS | PT | 2591 | Introductions to Physical Therapy Clinical Experience | LEC | LE | 2 | 0 | | I | U30 | | 0 |

| HSP | RCS | PT | 7110 | Clinical Science I: Pathophysiology and Differential Diagnosis I | LEC | EL | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, PR | | | | | | | | |
| | | | | COURSE DESC: | Deals with the application of physiological principles to the study of disease and injury, with particular attention to cellular injury, inflammation and repair, and immunity. Emphasis is given to the implications of pathophysiology for physical therapy evaluation and treatment. The general principles of pathophysiology will be applied to a limited set of specific examples in this class. However, subsequent clinical and systems-based courses in this curriculum will assume a working understanding of the concepts presented in this class. Will also prepare the student to treat patients with select systemic conditions, whether or not those conditions are the primary reason for physical therapy referral. Emphasis will be placed on identification of the patient with systemic pathologies requiring further consultation or referral to other health care providers through principles of differential diagnosis. | | | | | | | | |

| | | | | ELIGIBLE GRADES: A-F, PR | | | | | | | | | |
| | | | | REQUISITE: PT 7110 | | | | | | | | | |
| | | | | COURSE DESC: Provides students with an overview of topics from a cellular to a systems level. Gastrointestinal, genitourinary, hepatobiliary, renal, endocrine, and metabolic systems will be covered. Additionally, the role of physical therapy in acute care and the Intensive Care Unit (ICU) will be covered. For each topic area or system, the student will be presented with the pathophysiology focused at the cellular and tissue level. The role of physical therapists in differential diagnosis, by recognizing the signs and symptoms associated with impairments of the systems, will be presented. Prepares the student to identify the patient with systemic pathologies requiring further consultation or referral to other health care providers. | | | | | | | | | |

| HSP | RCS | PT | 7510 | Neural Basis of Movement I: Systems and Behavioral Neuroscience | LEC | LE | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F, PR | | | | | | | | | |
| | | | | COURSE DESC: Covers a systems approach to neural basis of motor, sensory, cognitive, affective, and homeostatic processes that underlies behavior with emphasis on the motor control and motor learning of locomotion, postural control/balance, and skilled movement. Students will apply content to evaluating neural origins of movement dysfunction and the physiological basis for strategies to improve skilled motor performance. | | | | | | | | | |
| HSP | RCS | PT | 7520 | Physical Therapy Mgt of Brain Injury and Balance Disorders | LAB | LB | 4 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES A-F, PR | | | | | | | | | |
| | | | | COURSE DESC: Focuses on utilizing knowledge of neuroanatomy, motor control systems and motor learning concepts to the physical therapy examination, and evaluation and treatment of persons who have focal or diffuse lesions within the brain, such as stroke or traumatic brain injury. Focus is on a systems approach to clinical decision-making, functional retraining and case management. | | | | | | | | | |
| HSP | RCS | PT | 7520 | Physical Therapy Mgt of Brain Injury and Balance Disorders | LEC | LE | 4 | 0 | | N | G50 | | 0 |

| HSP | RCS | PT | 7650 | Physical Therapy Management: Physical Agents | LAB | LB | 3 | 0 | | N | G50 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, PR | | | | | | | | |
| | | | | COURSE DESC: | Students will be introduced to the theoretical constructs for the use of physical agents in the treatment of patients by physical therapists. Additionally, students will practice the application of both thermal and electric physical agents in the treatment and rehabilitation of orthopedic, neurological, and integumentary conditions. | | | | | | | | |
| HSP | RCS | PT | 7650 | Physical Therapy Management: Physical Agents | LEC | LE | 3 | 0 | | N | G50 | | 0 |

| | | | | ELIGIBLE GRADES | A-F, PR | | | | | | | | |
| | | | | COURSE DESC: | Discusses biological, histological and biomechanical principles of connective tissues, bone, and muscle as applied to physical examination and therapeutic exercise. There is presentation of medical imaging of the listed tissues as they appear on plane x-ray, MRI, fMRI, CT scan, PET/SPECT scan, and ultrasound as related to physical therapy practice. Basic principles of exercise prescription will be discussed to achieve optimal outcomes for the patient based on the pathology, biomechanical principles of tissues, impairment, and the desired level of performance. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, PR | | | | | | | | |
| | | | | COURSE DESC: | Focuses on orthopedic examination and treatment of the upper quarter of the musculoskeletal system, as well as a brief introduction to the cervical spine. Designed around the understanding of and subsequent application of the anatomy, mechanics, pathomechanics, pathology, surgical intervention, and rehabilitation to physical therapy case studies involving the upper quarter. Content includes orthopedic evaluation skills, advanced skill development in special tests, introduction to manual therapy of the extremities, and development of appropriate exercise programs. | | | | | | | | |
| HSP | RCS | PT | 7710 | Orthopedics I: Upper Quarter | LEC | LE | 3 | 0 | | N | G50 | | 0 |

| | | | | ELIGIBLE GRADES | A-F | REQUISITE: | Jr or Sr | | | | | | |
| | | | | COURSE DESC: | An introduction that explores human sexualities with a focus on the ability to form relationships that are integrative, creative, and recreative. There is also an emphasis on realizing personal potential within the context of life patterns, based on scientific research. Approaches human sexualities from a developmental perspective and considers historical, biological, physiological, social, cultural, and familial factors that impact human sexual development, values, beliefs, and behaviors. There is a strong emphasis on the socio-cultural construction of sexualities and the ways in which gender scripts, sexism, and heterosexism impact individual development and functioning. Relationship, sexuality, and spirituality are deeply intertwined, which is why the course considers these elements in addition to the biological and physiological aspects of sexualities. | | | | | | | | |
| HSP | SPH | CFS | 3601 | Human Sexualities | LEC | LE | 3 | 0 | | N | U30 | | 0 |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | This is the child and family studies capstone course in the assessment of children, individuals, couples and families, and the acquisition of helping skills needed to facilitate these processes; all necessary in preparing students for their final internship experience. It is designed to help students acquire practical helping skills, techniques, and theoretical foundations that define and support assessment and effective helping relationships for human services professionals working in a wide range of settings. Highly experiential in nature and includes multiple opportunities for practice, demonstration, and discussion of methods and techniques drawn from the text, lectures, and supplemental materials. It also includes an introduction to group process. Specific emphasis is placed on integrating previous and concurrent course content and experiences, and bringing an enhanced level of skill to the helping relationship. Additional considerations include an emphasis on a student's personal beliefs, values, and spirituality and their impact on the helping process and developing an awareness of multicultural issues and other significant topics that impact the helping relationship, such as ethics, gender, race, religion, disability, ageism, and sexual orientation. | | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Focuses on older persons in the context of family life. Students will examine the following topics as they relate to aging and families: historical perspectives, demographic trends, theoretical frameworks, research methods, intimate relationships, intergenerational relationships, and life course transitions. Particular attention will be given to the multiple contexts affecting and being affected by families in middle to later life. Students also will have the opportunity to participate in a service-learning project that complements the course content and allows for reflection on personal development as it relates to the concepts learned in class. | | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | The purpose is to help students understand the nature and impact of traumatic experiences on children, adolescents, adults, and families. Examines the history, scope, and impact of human trauma, resiliency, and adaptation. It explores traumatic stress syndromes, vicarious trauma, and universal traumatic response patterns. Considers the impact of these experiences from a biopsychosocial and developmental perspective: psychological trauma has somatic consequences. Treatment, intervention, adaptation, resiliency, recovery, attachment, personal meaning, and the spiritual aspects of trauma are explored. Intended to provide students with a clear understanding of the physical and psychological processes involved in adaptation and integration and how untreated trauma can lead to lifelong pathology and dysfunction. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | An introduction that explores human sexualities with a focus on the ability to form relationships that are integrative, creative, and recreative. There is also an emphasis on realizing personal potential within the context of life patterns, based on scientific research. Approaches human sexualities from a developmental perspective and considers historical, biological, physiological, social, cultural, and familial factors that impact human sexual development, values, beliefs, and behaviors. There is a strong emphasis on the socio-cultural construction of sexualities and the ways in which gender scripts, sexism, and heterosexism impact individual development and functioning. Relationship, sexuality, and spirituality are deeply intertwined, which is why the course considers these elements in addition to the biological and physiological aspects of sexualities. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | This is the child and family studies capstone course in the assessment of children, individuals, couples and families, and the acquisition of helping skills needed to facilitate these processes; all necessary in preparing students for their final internship experience. It is designed to help students acquire practical helping skills, techniques, and theoretical foundations that define and support assessment and effective helping relationships for human services professionals working in a wide range of settings. Highly experiential in nature and includes multiple opportunities for practice, demonstration, and discussion of methods and techniques drawn from the text, lectures, and supplemental materials. It also includes an introduction to group process. Specific emphasis is placed on integrating previous and concurrent course content and experiences, and bringing an enhanced level of skill to the helping relationship. Additional considerations include an emphasis on a student's personal beliefs, values, and spirituality and their impact on the helping process and developing an awareness of multicultural issues and other significant topics that impact the helping relationship, such as ethics, gender, race, religion, disability, ageism, and sexual orientation. | | | | | | | | |
| HSP | SPH | CFS | 5610 | Dynamics in Parent-Child Relations | LEC | EL | 3 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Explores the nature of parenting and parent/child relations over the lifespan from a historical, theoretical, and developmental perspective. It examines attachment, practical parenting strategies, the unique challenges faced by families in today's complex society, and the behavioral, emotional, social, spiritual, and relationship factors that help parents to create positive, nurturing family environments. The dynamics of parent/child interactions are analyzed from a systemic perspective that considers the reciprocal impact of children on parents as well as the impact of parents on their children. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Explores the developmental tasks and life experiences of children ages 10 through 21 and the contexts in which this development occurs, including families, peer groups, schools, neighborhoods, and work and leisure settings. Theories and research relevant to adolescence will be reviewed; the implications of these theories and research for working with adolescents will be considered. | | | | | | | | |
| HSP | SPH | CFS | 5660 | Transitions in Development: Middle and Later Life | LEC | LE | 3 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Focuses on older persons in the context of family life. Students will examine the following topics as they relate to aging and families: historical perspectives, demographic trends, theoretical frameworks, research methods, intimate relationships, intergenerational relationships, and life course transitions. Particular attention will be given to the multiple contexts affecting and being affected by families in middle to later life. Students also will have the opportunity to participate in a service-learning project that complements the course content and allows for reflection on personal development as it relates to the concepts learned in class. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | The purpose is to help students understand the nature and impact of traumatic experiences on children, adolescents, adults, and families. Examines the history, scope, and impact of human trauma, resiliency, and adaptation. It explores traumatic stress syndromes, vicarious trauma, and universal traumatic response patterns. Considers the impact of these experiences from a biopsychosocial and developmental perspective: psychological trauma has somatic consequences. Treatment, intervention, adaptation, resiliency, recovery, attachment, personal meaning, and the spiritual aspects of trauma are explored. Intended to provide students with a clear understanding of the physical and psychological processes involved in adaptation and integration and how untreated trauma can lead to lifelong pathology and dysfunction. | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Sr only | | | | | | | | | |
| | | | | COURSE DESC: Reviews the historical record of the creation and use of potentially hazardous chemicals emphasizing drugs; legal or otherwise through the present day. By examination of chemical accidents or questionable drug approval decisions, in light of society needs and desires, students will appreciate chemical risks versus chemical benefits. Many infamous major chemical incidents such as Bhopal, Three Mile Island, and the Exxon Valdez spill will be covered in detail, as will current drug issues such as fluorinated drinking water supplies, Viagra, and the Plan B pill. Perspectives from the media, business, and government will be covered to enable students to critically evaluate risks and benefits, and develop a realistic understanding of the democratic chemical approval process. | | | | | | | | | |

| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: POLS 1010 and SOC 1000 | | | | | | | | | |
| | | | | COURSE DESC: Explores international social work and social welfare in the context of global social issues. Although the course uses the African continent as its primary focus, readings and other course materials also provide information about other international contexts. Presents an overview of the social work profession, the impact of global interdependence on social work practice, and historical and current social welfare challenges facing the developed and developing countries. | | | | | | | | | |
| HSP | SPH | SW | 3213 | Child Abuse and Neglect | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | REQUISITE: Jr or Sr | | | | | | | | | |
| | | | | COURSE DESC: Designed for social work students and other students interested in human services. Explores child abuse and neglect within an ecological and family systems perspective. Emphasizes an interdisciplinary viewpoint and incorporates experiences in the community. Examine theories of causation of child abuse and neglect, issues in recognition, assessment, intervention, treatment, follow-up, and related issues of family violence and substance abuse. Incorporates discussion of social work values, ethics, and historical traditions in child welfare practice, including understanding issues of diversity for individuals and families. Consider child welfare policy issues, including advocacy issues, in relation to child protection, intervention with diverse populations, and treatment. The questions we are asking in this course are: Using an ecological perspective, what are the meanings of child abuse and neglect to individuals, to families, and to society? Understanding some of these meanings, what are some recommendations for social policy response? | | | | | | | | | |
| HSP | SPH | SW | 3233 | Counseling Older Adults | LEC | LE | 3 | 0 | | N | U30 | | 0 |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | The first of a two-course series that provides knowledge, concepts, and fundamental skills needed for beginning level practice in public and private child welfare. Focuses on interventions to protect children from abuse, neglect, and sexual abuse by strengthening, supporting, and empowering their families. Organized around four themes. First, content is provided on the mission and scope of child welfare practice, articulating the underlying philosophy and values that drive child welfare practice, and addressing cultural and relationship issues when working with families. Second, the course provides conceptual and practical information on identifying child maltreatment, assessing family needs and strengths, and determining both immediate and long-term risk to children of future maltreatment. Third, information is presented on case planning and applying a casework model to working with families. Fourth, content is presented on interviewing skills in child welfare setting, especially as these skills relate to family assessment and case planning activities. | | | | | | | | |
| HSP | SPH | SW | 4224 | Child Welfare II | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | The second in a series of two child welfare courses. Continues with a family-centered and strength-based approach to child welfare services that addresses the developmental and permanence needs of children in the child welfare system. The Caseworker Core Training content is divided into five core modules covering: assessment in family-centered child protective services; investigative processes in family-centered child protective services; case planning and family-centered casework; child development and implications for family-centered child protective services; and separation, placement, and reunification in family-centered child protective services. Explores the phenomenon of traumatic stress as a topic of increasing importance in child welfare/social work practice and how secondary traumatic stress is derived from the social worker-client relationship. Allow social workers to prevent and intervene in secondary traumatic stress in themselves, colleagues, clients, and organizations. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | The first of the two semester senior social work practice courses, SW 4960 is designed to teach students the basic concepts and skills of generalist social work, focusing on both micropractice, particularly assessment of individuals and families, and macropractice, beginning assessment of organizations and communities. Classwork will focus on learning the skills of social work intervention with individuals and families, groups, and social systems at all levels. Introduces and guides students through the initial stages of practice evaluation used for purposes such as analyzing the level of goal attainment and the effectiveness of interventions with individuals, groups, families or communities. Concepts introduced in this course can be further processed in the accompanying field seminar and in field work practice. In the subsequent courses in the senior practice sequence, students will build on the skills and concepts introduced in this course. | | | | | | | | |
| HSP | SPH | SW | 4801 | Social Work Practice I | LEC | LE | 3 | 0 | | N | U30 | | 0 |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | This is the second and final course in the undergraduate social work practice sequence. Develops the generalist intervention model and applies the model to working with families, groups, and communities, illustrating social work practitioners' roles of counselor, educator, broker, case manager, advocate, and introduces roles of mobilizer and evaluator. Content related to the promotion of social and economic justice with oppressed and disadvantaged populations is introduced, with special attention to social injustice among racial and ethnic minorities, the economically disenfranchised, Appalachians and GLBT people. Focuses on the analytical and interactional skills associated with the problem solving model, by continuing the research project begun in SW 4960, now consisting of data collection, data analysis, and reporting writing assignments. Attention is also given to selected skills associated with the roles of broker, teacher, and advocate in effecting macro-level change. Builds on the community analysis experience from the first semester by writing an individual grant proposal that addresses specific identified community problems. Grant proposals, as an aspect of advocacy and brokerage, are identified as a means of partially rectifying economic and social injustice. Ethical dilemmas in practice and issues of diversity will be highlighted. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Explores international social work and social welfare in the context of global social issues. Although the course uses the African continent as its primary focus, readings and other course materials also provide information about other international contexts. Presents an overview of the social work profession, the impact of global interdependence on social work practice, and historical and current social welfare challenges facing the developed and developing countries. | | | | | | | | |
| HSP | SPH | SW | 5213 | Child Abuse and Neglect | LEC | LE | 3 | 0 | | N | G40 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Designed for social work students and other students interested in human services. Explores child abuse and neglect within an ecological and family systems perspective. Emphasizes an interdisciplinary viewpoint and incorporates experiences in the community. Examine theories of causation of child abuse and neglect, issues in recognition, assessment, intervention, treatment, follow-up, and related issues of family violence and substance abuse. Incorporates discussion of social work values, ethics, and historical traditions in child welfare practice, including understanding issues of diversity for individuals and families. Consider child welfare policy issues, including advocacy issues, in relation to child protection, intervention with diverse populations, and treatment. The questions we are asking in this course are: Using an ecological perspective, what are the meanings of child abuse and neglect to individuals, to families, and to society? Understanding some of these meanings, what are some recommendations for social policy response? | | | | | | | | |
| HSP | SPH | SW | 5223 | Child Welfare I | LEC | LE | 3 | 0 | | N | G40 | | 0 |

| | | | | COURSE DESC: | | | | | | | | | |
| | | | | First of a two-course sequence providing foundation knowledge and skills for social work practice. Provides a conceptual framework for generalist practice. Maintaining a person-in-environment focus, students utilize a strengths-based problem-solving model that incorporates awareness of the impact of social work values and ethics on all levels of practice. Students develop an understanding of how various aspects of diversity impact practice and formulate a range of practice interventions based on empowerment and social and economic justice within a rural environment. Also integrates content on social work practice methods and biological, psychological and social theories of human behavior to enable students to assess individuals and families. The professional role, the nature of self-knowledge, self-discipline, and availability of other resources required for professional performance are emphasized. | | | | | | | | | |

| | | | | COURSE DESC: | Helps students acquire first-hand knowledge and exposure to applied aspects of development, communication and development work, and/or related-aspects of area studies training in an international setting, or with an international organization. Students will gain and/or expand their field work experience in an area of their own professional and/or research interests, and will strengthen their understanding of the competencies needed to perform well in relevant organizations, all of which will enhance their own professional and personal growth. Because of the varying nature of internships, students might be involved in a variety of work activities ranging from assignments that focus on very specific projects and tasks, to more general responsibilities that might involve them in regular activities within the host organization. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, PR | | | | | | | | |
| | | | | COURSE DESC: | Exposes students to and immerse them in the day-to-day realities of local development and social service organizations in Athens County and southeastern Ohio. Students will gain exposure to existing social and development challenges in the region, contribute to the efforts of local organizations, apply knowledge and skills acquired throughout their program of study, and provide valuable service to the local community. This program also will give students an opportunity to strengthen and/or develop a greater sense of community engagement and participation, and explore professional ideas in a welcoming environment. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | The Osteopathic Clinical Anatomy Orientation allows all entering OU-COM students, regardless of their curricular track, to begin their training together, immersed for roughly four weeks in clinically-oriented study of human gross anatomy, with an integrated introduction to osteopathic manipulative medicine and evidence-based medicine. At the core of the course are the laboratory activities. Students will participate in 4 three-hour gross anatomy labs each week. These activities involve dissection of human cadavers, imaging studies, and discussion of clinical anatomy in an interactive laboratory setting. The structure of the human body is presented in a clinically relevant manner, providing correlations of normal anatomy to common disease states. The ultimate goal is to enhance clinical reasoning in the context of human gross anatomy. 1 to 2 one hour Anatomy/Palpation labs will occur each week to correlate with the anatomy dissections and landmark identification. Wednesdays are spent in the OMM lab with an introduction to relevant osteopathic manipulative diagnostic skills. A few key lectures will provide background for the laboratory studies and provide an introduction to evidence-based medicine. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | This sixteen-week course is the first in a series that serves to foster the integration of basic science material with clinical science issues. In essence there are three main components of these courses: clinical case study, formal laboratory sessions, and problem sets. Small group discussion sessions using clinical case studies serve as the focus of the courses. In addition, formal laboratory sessions in Gross Anatomy and Microanatomy are designed to explore the relationships between form and function in a clinically relevant setting. Finally, Biomedical Science Problem Sets further supplement material covered during the small group discussion process, providing students with opportunities to interact with content experts throughout the biomedical science disciplines. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | The goals of this six-week Cardiovascular course are to: 1. enable students to be life-long learners, self-motivated, and able to continue and advance their knowledge of cardiovascular medicine both now as students, and in later years as practicing physicians. 2. enable students to understand the fundamental biomedical concepts that are needed for effective diagnosis, treatment, and prevention of cardiovascular disease and disorders in a diverse patient population. These concepts will be derived from the study of the disciplines of physiology, pharmacology, anatomy, embryology, histology, pathology, infectious diseases, biochemistry, nutrition, and social medicine. 3. expose students to these fundamental biomedical concepts, and to the scientific basis for medical decision making through the context of several cardiovascular cases dealing with palpitations, heart murmurs, hypertension, chest pain and shortness of breath. 4. expose students to emerging scientific knowledge and technologies that will have a significant impact on medical thinking and their own clinical practices in the years to come. 5. enable students to refine their clinical skills of patient interviewing and physical examination as they relate to patients who present with cardiovascular disease or disorders. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | Fundamentals in Clinical Osteopathic Medicine 1 and 2 are a series of courses devoted to assisting students in developing clinical skills necessary to work towards mastery of the AOA Core competencies. Fundamentals in Clinical Osteopathic Medicine 1 is a sixteen week course. The focus is on History and Physical (H&P), Osteopathic Manipulative Medicine (OMM) skills and Clinical and Community Experiences (CCE). Integral to all of these areas are psychosocial skills. Other components will guide the student in learning specific psychosocial and psychomotor skills, as well as reinforce the importance of an evidence-based approach to the clinical application in the practice of medicine. The format of the course incorporates clinical lab sessions, utilizing peers or simulated patients for practice in obtaining history and performing physical examinations. On occasion, learning activities will utilize real patients. Clinical cases in the concurrent Biomedical Sciences course are structured to foster learning objectives that enhance History and Physical exam skills. An ongoing thread in this course is the Problem Oriented Medical Record (POMR) and medical progress notes (SOAP notes) tools students need to develop and maintain excellent documentation of clinical encounters. The OMM lab component for this course is taught to PCC students in conjunction with the students in the CPC curriculum. Students will be assigned to one or more clinical faculty for 8 four-hour experiences per quarter to be given an opportunity to practice their developing clinical skills. They will also be assigned to community agency preceptors for 2 four-hour experiences per quarter in order to develop an understanding of the roles of non-physician personnel and health care services provided outside the hospital/physician's office. Objectives and activities for each community agency experience are available on the CCE website. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | This six-week Neurology course offers students the resources and environment for learning the basic structure and function of the nervous system and the application of this knowledge to clinical cases of headache, altered consciousness, weakness, movement disorders and altered cognition. The cases encourage the student to develop neurological diagnostic skills based on principles of neuroanatomy, neurophysiology, neuropharmacology, neuropathology, infectious disease, and epidemiology. The skills of history taking and physical examination are reinforced in laboratory sessions on the neurology examination. Mastery of clinically relevant neuroanatomy is facilitated in lab sessions devoted to brain dissection. The cases also lead students into considerations of the psychosocial management, pharmacological treatment, OMM, surgery intervention, and rehabilitation of patients with neurological disorders. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | This three-week Psychiatric course is designed as a comprehensive introduction to psychiatry across the lifespan. Emphasis is placed on the major psychiatric disorders, including: their neuro-chemical basis, assessment, diagnosis, evidenced-based treatments including the pharmacology and clinical utilization of all classes of psychotropic medications as well as psychological interventions. The course is divided into three weekly modules: Anxiety Disorders, Mood and Childhood Disorders, and Psychotic/Personality Disorders. Students are expected to do significant outside reading based upon assignment for each learning topic and activity. Real patient interviews and case studies are utilized to assist the student in experiencing the reality and learning the distinguishing features of these disorders. Case vignettes will be utilized in problem sets and an extensive review prior to the NBME Psychiatry Subject Exam final. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | This five-week Endocrinology and Metabolism course presents an opportunity for students to delve into the major endocrine systems in the body, including the pituitary, thyroid, parathyroid adrenal and pancreatic glands. Students explore the regulatory mechanisms of the hormones secreted by these glands and the metabolic effects elicited by these hormones. A major focus of the course is the clinical relevance of hormonal signaling on bone metabolism, growth, and carbohydrate, lipid and amino acid metabolism. Hormonal control under normal physiological conditions is contrasted with disease states such as electrolyte imbalance, growth disorders, weight homeostasis and diabetes. By the end of this course, students will integrate and understand the underlying mechanisms by which these hormones act and how these signals are interpreted by tissues such as liver, bone, adipose, and muscle to coordinate metabolic changes in the body. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | This three-week Geriatrics course introduces Clinical Presentation Curriculum (CPC) students to key concepts essential to caring for older adults. The Block begins by presenting the aging demographic imperative. There are not enough geriatricians to care for this growing segment of the population. Therefore, it is critical that all medical students are trained to meet the needs of older citizens with complicated, overlapping, factors associated with chronic medical conditions. Older adults often have three or more chronic medical conditions, take multiple medications and respond to treatments and medications differently than do younger patients. This block targets these often complicated overlapping factors. An emphasis is placed on understanding the following: aging versus disease; geriatric syndromes and atypical presentation of disease; providing care across the continuum of locations: ambulatory, hospital, assisted living, nursing home, and home; comprehensive geriatric assessment; psychosocial and environmental considerations; pharmacology/prescribing practices; and advance directives. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | This three-week Geriatrics course introduces Clinical Presentation Curriculum (CPC) students to key concepts essential to caring for older adults. The Block begins by presenting the aging demographic imperative. There are not enough geriatricians to care for this growing segment of the population. Therefore, it is critical that all medical students are trained to meet the needs of older citizens with complicated, overlapping, factors associated with chronic medical conditions. Older adults often have three or more chronic medical conditions, take multiple medications and respond to treatments and medications differently than do younger patients. This block targets these often complicated overlapping factors. An emphasis is placed on understanding the following: aging versus disease; geriatric syndromes and atypical presentation of disease; providing care across the continuum of locations: ambulatory, hospital, assisted living, nursing home, and home; comprehensive geriatric assessment; psychosocial and environmental considerations; pharmacology/prescribing practices; and advance directives. | | | | | | | | |

| | | | | COURSE DESC: | Fundamentals in Clinical Osteopathic Medicine 3 and 4 are a series of courses devoted to assisting students in developing clinical skills necessary for to work towards mastery of the core competencies. Fundamentals in Clinical Osteopathic Medicine 4 is a sixteen-week course in the second year of the PCC curriculum builds upon the clinical skills learned in the first year Fundamentals in Clinical Osteopathic Medicine courses. It is devoted to continuing the development of clinical skills necessary for the practice of osteopathic medicine. Osteopathic Manipulative Medicine (OMM) skills and Clinical and Community Experiences (CCE) are an integral part of this course. Other components will guide the student in learning specific psychosocial and psychomotor skills, as well as reinforce the importance of an evidence based approach to the clinical application in the practice of medicine. The student will master specific clinical skills that can be taught in a classroom or laboratory setting and that will help the student become more involved in patient care and clinical learning, for example in dealing with the angry patient and end of life issues. The student will continue to refine his or her skills learned in the first year Fundamentals in Clinical Osteopathic Medicine course in the use of the Problem Oriented Medical Record, and clinical documentation, i.e., SOAP notes The format of the course consists of clinical lab sessions, utilizing peers or simulated patients for experience in obtaining history and performing physical examinations. On occasion, experiences utilizing real patients or didactic sessions will be employed as well. The CCE component of Fundamentals in Clinical Osteopathic Medicine for PCC 2 is designed to provide the student with varied experiences in the field of health care. Experiences will be assigned in different settings where they may continue to practice their clinical skills; essential to the course is the notion of acute versus ambulatory care. | | | | | | | | |

| | | | | COURSE DESC: | <p>REQUISITE: Offered only to 2nd year OUCOM students in good standing</p> <p>This sixteen-week course will provide second year Osteopathic medical students with an opportunity to advance their skills in, understanding of and capacity to teach Osteopathic manipulative medicine (OMM) beyond the level possible through the standard year 1 & 2 curricula. The topics presented by our OUCOM director of faculty development will be: "giving constructive feedback". A weekly instructional hour designed to prepare these students to teach year 1 students as table trainers in the Osteopathic manipulative medicine lab will constitute the lecture portion of the course. One faculty development session will be provided fall quarter to focus honors students teaching skills. Each weekly lab period is 2 hours in length. During that lab each second year honors student will be supervising the progress and facilitating the understanding of six to eight year 1 students in a setting where faculty lead the lab and provide the resources to answer questions that the honors students have and/or questions year 1 students have with which the honors students need help. This allows the honors students to deepen their understanding and refine their palpatory skills following the adage, "see one, do one, teach one." A journal club will be scheduled once each quarter with review of articles relevant to Osteopathic philosophy, principles and practice. The honors students will have the opportunity to evaluate articles and exchange ideas with OMM faculty and post-graduate residents. There will also be one 2 hour lab session per quarter that will bring new diagnostic and therapeutic skills into focus (beyond those taught in the courses in the first two years).</p> | | | | | | | | |

| | | | | COURSE DESC: | This extended program offering (one year) is designed to provide the student with concentrated learning experiences in family medicine, educational methodologies relative to medical and patient education, and research design and development. The student is expected to participate in supervised clinical experiences and selected teaching activities within the college as well as produce a scholarly research paper. Teaching activities and research options are contracted with the instructor of record to accommodate individual needs. | | | | | | | | |
| OST | OST | OCOM | 7922 | Primary Care Associateship in Preventive Medicine/Public Health | PRA | PR | 2 to 30 | 30 | | N | M60 | | 0 |
| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | This course is for osteopathic medical students planning for primary care practice who wish to expand their knowledge and skills in preventive medicine and public health as it applies to primary care practice. | | | | | | | | |
| OST | OST | OCOM | 7930 | Directed Studies in Pre-clinical Osteopathic Medicine | IND | IS | 1 to 30 | 0 | | N | M60 | | 0 |
| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | Directed Studies in Pre-clinical Osteopathic Medicine is a course in which osteopathic medical students pursue directed independent work under the guidance of a faculty member. A student who undertakes this course usually does so to explore in more depth areas covered broadly in courses, to conduct research, to participate in sanctioned global health activities abroad, to prepare to remediate content or a COMPLEX failure or to explore topics not ordinarily covered in the curriculum. | | | | | | | | |
| OST | OST | OCOM | 7940 | Research and Scholarly Advancement Fellowship | RSC | RS | 1 | 0 | | I | M60 | | 0 |
| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | The purpose of this course is to provide an early research experience for students who have successfully completed the Year 1 medical school curriculum. This course will complement the current Patient-Centered Continuum (PCC) and Clinical Presentation Continuum (CPC) curricula currently offered by the College of Osteopathic Medicine. It will also better prepare the students to fulfill future research requirements, such as those in the CORE (Centers for Osteopathic Research & Education) and/or residencies and fellowships. Published research has shown that early research exposure for medical students improves their future attitudes and interest in research (Ley & Rosenberg, 2007), increases their productivity as physicians (Zier, Friedman, & Smith, 2006), better trains medical students to critically assess medical literature (Guillory & Sharp, 2003), and can help to interest medical students in research and academic careers (Solomon, et.al., 2003). | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | The purpose of this required four-week required course in surgery is to provide the student with an overview of the clinical specialty of General Surgery. This rotation is not intended to transform the student into a surgeon, but rather it is to provide the clinical clerk a survey of the specialty. The student will encounter a variety of experiences in those areas traditionally identified as Surgery. This course can be taken out of sequence. General Surgery subspecialties can be taken during the same semester as OCOM 8140. | | | | | | | | |

| OST | OST | OCOM | 8501 | Defining Health Policy: History and Process in Government | SEM | SE | 5 | 0 | | N | M60 | | 0 |
| | | | | ELIGIBLE GRADES | CR, F | | | | | | | | |
| | | | | COURSE DESC: | Both university faculty and actual policymakers participate in instruction. A workshop in the orientation week sets the definitions to be used and introduces the materials in the texts. The sessions are organized around: 1. State policymaking - the powers which reside in the state and processes used to set health policy. Material is presented by faculty, officials, and elected representatives from the state in which the meeting is held. Comparison and contrast to other states is included. 2. Executive branch government policymaking - the agencies, regulatory and research evaluation processes by which policy is generated and implemented for the administration defining their missions and illustrating their ability to impact policy. The sessions are organized by the American Association of Colleges of Osteopathic Medicine (AACOM) at its Chevy Chase, Maryland offices. 3. Federal legislative policymaking - the process and the players. A full-day workshop on the legislative process in Congress is offered by personnel from the training program for freshman legislators. University faculty present sessions on the history of health policy in government. The role of special interest organizations and methods for presenting policy solutions to policymakers are covered by national experts. Other material is included throughout the year on topics such as the role of values in health policy decisions, budgets as policymaking tools, how to influence your legislator, the growing presence of D.O.s in health policy, and the policymaking processes of the American Osteopathic Association. Evaluation: Participants build a policy agenda with government relations staff of the AOA and carry it to federal legislators and staff from their own state - then evaluate the sessions with the accompanying staffers. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, F | REQUISITE: | | | | | | | |
| | | | | COURSE DESC: | The issues to be included in each year's curriculum are determined by a curricular planning group which meets in July to plan the following academic year. Instruction is organized around set problems furnished to the Fellows at one session and resolved at the next. Key references are furnished and the program content is delivered by experts and policymakers intimately involved in the issue under discussion. Wherever possible, both sides of controversial issues are presented. Issues presented in the programs for a sample year are: Reform in Healthcare Entitlement Programs (state and national perspectives) The Healthcare Market move to Managed Car Determining and Controlling the Healthcare Workforce The Role of Regulation in Healthcare Economics of Healthcare Health Policy Issues in the Osteopathic Profession Preparing for an Increasingly Diverse Patient Population Follows are trained in problem-based learning in the orientation sessions. Groups of five meet with a faculty facilitator trained in small group facilitation. In the first session they read the case, identify the learning issues it presents, and make member assignments in preparation for the resolution of the case at the next session. They meet again to share their work at the opening of the following month's program and to decide what questions they will put to the presenters. (Presenters are furnished the case in advance). Finally, they meet to arrive on a solution and plan a presentation of their work. Evaluation: Faculty and Fellows critique presentation of the case resolution following each issue-based program. Presenters are evaluated by the Fellows and the feedback used to select the strongest faculty for the following year's program. | | | | | | | | |

Issues presented in the programs for a sample year are: Reform in Healthcare Entitlement Programs (state and national perspectives) The Healthcare Market move to Managed Car Determining and Controlling the Healthcare Workforce The Role of Regulation in Healthcare Economics of Healthcare Health Policy Issues in the Osteopathic Profession Preparing for an Increasingly Diverse Patient Population Follows are trained in problem-based learning in the orientation sessions. Groups of five meet with a faculty facilitator trained in small group facilitation. In the first session they read the case, identify the learning issues it presents, and make member assignments in preparation for the resolution of the case at the next session. They meet again to share their work at the opening of the following month's program and to decide what questions they will put to the presenters. (Presenters are furnished the case in advance). Finally, they meet to arrive on a solution and plan a presentation of their work. Evaluation: Faculty and Fellows critique presentation of the case resolution following each issue-based program. Presenters are evaluated by the Fellows and the feedback used to select the strongest faculty for the following year's program. | | | | | | | | |

| | | | | COURSE DESC: | A one week orientation offers instruction in computing to enhance e-mail skills, database searching and internet information searches. Reference librarians offer a workshop in the use of the contemporary library with a focus on current health policy documents and resources. Computer skills are reinforced in session gathering references for an assigned research paper, in communication among participants and program faculty, and in instruction in PowerPoint, a statistics program, etc. Guidelines for developing the research paper and workshops in writing skills are offered by medical communicators. Two sessions in quantitative and qualitative analysis address reading and understanding statistical testing methods, survey and focus group methods, and statistical exercises on the computer. One-on-one research design and editorial support are available during project development, and instruction in presenting the findings effectively is offered in the last week of the session. Time is reserved each week to review progress and share feedback on the projects. Evaluation: Policy papers are due mid-summer after the year of study. They are read by reviewers from the AOA council of Federal Health Programs who select three of four for presentation at the fall meeting where certifications are awarded. Others are presented and all printed as proceedings for distribution to the Fellows and alumni of the program. | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | REQUISITE: | | | | | | | | |
| | | | | COURSE DESC: | The purpose of this rotation is to provide an opportunity for the student to explore issues in the delivery of health services in other countries. This rotation is not intended to transform the student into a specialist, but rather it is to provide a survey of the specialty. Students will need to use a logical and appropriate clinical approach to the care of patients in a developing country setting, utilizing locally available resources, and applying principles of evidence-based decision-making and problem-solving. These experiences are designed not only for students considering careers in international health, but for increasing the understanding of any future physician practicing in the United States who may care for patients from other countries. The experience is also designed to deepen the awareness of all participants regarding the determinants of health and illness and diverse methods of approaching health problems in settings with varied cultural, socio-economic and political characteristics. These experiences help students develop sensitivity to health disparities and their causes, including health, social, economic and environmental factors. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | REQUISITE: | Year 3 or 4 Osteopathic Medical Student | | | | | | | |
| | | | | COURSE DESC: | The EKG Reading Self Study elective uses resources provided by OU-HCOM to assist student in learning the basics of reading and interpreting electrocardiographs (EKGs). A variety of EKGs will be presented to the student to learn from, and textbooks will be used to assist the student in understanding the interpretation of normal and abnormal cardiac rhythms. At the end of the week of self-study the student will be given an examination consisting primarily of rhythm strips to interpret and correctly identify. | | | | | | | | | |
| OST | OST | OCOM | 8940 | Research Elective - Introduction to Research | RSC | RS | 2 | 0 | | N | M60 | | 0 | |
| | | | | ELIGIBLE GRADES | CR, PR, F | REQUISITE: | | | | | | | | |
| | | | | COURSE DESC: | The purpose of this rotation is to provide the student with the opportunity to develop or enhance his/her knowledge and skills to a level appropriate for a beginning researcher in preparation for engaging in an actual research study. This course is available for the student who wants to design and participate in specially selected research addressing questions derived from osteopathic clinical practice and philosophy under the direction of basic science or clinical faculty. | | | | | | | | | |
| OST | OST | OCOM | 8941 | Scholarly Work - Required Paper | RSC | RS | 2 | 0 | | N | M60 | | 0 | |
| | | | | ELIGIBLE GRADES | CR, PR, F | REQUISITE: | | | | | | | | |
| | | | | COURSE DESC: | Students are required to work with the primary preceptor on an assigned service between December of year 3 and December of year 4 to select and approve an appropriate patient actually seen while on rotation as the basis for this paper. The selected patient case must lend itself to producing a paper that includes the usual components of a case report; the case must have some noteworthy appeal that would be valuable to a particular audience. Once the audience has been identified, the student must select a target journal as a potential venue for publication of the case report; it may be helpful to identify a few target publications and discuss these with the preceptor. The case report must then be written to conform to the submission guidelines and specifications of the specified target journal. An osteopathic component must be included in the manuscript submitted for grading. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | <p>The purpose of this elective rotation is to provide the student with the opportunity to develop or enhance his/her knowledge and skills to a level appropriate for a beginning researcher. Permission to participate must be given by the CORE Research Director and the Assistant Dean Clinical Education; the student must also be in good academic standing. This rotation provides a broad overview of critical review of literature via hands-on experience. In hospital and ambulatory settings (as appropriate), the student is expected to encounter a variety of experiences that may lead to a clinical question answerable through the conduct of an extensive and critical review of the literature. To achieve rotation objectives, the student is expected to apply research-based concepts of diagnosis and management to the patient, develop a working knowledge of both inpatient and outpatient treatment modalities, research design, understanding basic statistical results and interpretation, human subject protection, manuscript writing, and dissemination of research findings as means of contributing to evidence-based medicine. Throughout the rotation, students should have multiple opportunities to perform different aspects of a critical literature review and to practice problem-solving skills.</p> | | | | | | | | |
| OST | OST | OCOM | 8943 | Research Elective - Case Based Study | RSC | RS | 2 to 6 | 6 | | N | M60 | | 0 |
| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | <p>The purpose of this rotation is to provide the student with the opportunity to develop or enhance his/her knowledge and skills to a level appropriate for a beginning researcher. To accomplish this, the rotation provides an opportunity to write a case report and submit it for publication. A case report is defined as an account of the signs, symptoms, diagnosis, treatment and follow-up of a patient that follows an unusual or noteworthy case presentation. A case report can consist of a single-case study or a multiple-case study (N<11). In hospital and ambulatory settings (as appropriate), the student potentially may encounter unique or rare illnesses/diseases or treatment and therapy. To achieve the rotation objectives, the student is expected to apply the concepts of diagnosis and management to the patient, develop a working knowledge of both inpatient and outpatient treatment modalities, be familiar with human subjects protection and its implication on collection of patient information, write the paper following a target journal's submission guidelines, and submit the manuscript for publication as means of contributing to evidence-based medicine. Throughout the rotation, students should have multiple opportunities to perform different aspects of scholarly work and to practice problem-solving skills. The student should enroll for the research rotation only after they have found an acceptable case to report; the rotation should not be used to locate a case to report upon.</p> | | | | | | | | |
| OST | OST | OCOM | 8944 | Research Elective - Retrospective, Prospective, and Meta-Analysis Studies | RSC | RS | 6 to 24 | 24 | | N | M60 | | 0 |
| | | | | ELIGIBLE GRADES | CR, PR, F | | | | | | | | |
| | | | | COURSE DESC: | <p>The purpose of this rotation is to provide the student with the opportunity to develop or enhance his/her knowledge and skills to a level appropriate for a beginning researcher. Permission to participate must be given by the CORE Research Director and the Assistant Dean Clinical Education; the student must also be in good academic standing. Student research can consist of any of the following types of studies: a retrospective study, a prospective study, a survey study or a meta-analysis. To accomplish this, the rotation provides a broad overview of research via hands-on experience. To achieve rotation objectives, the student is expected to apply research-based concepts of diagnosis and management to the patient, develop a working knowledge of both inpatient and outpatient treatment modalities, research design, statistics and hypothesis testing, human subject protection, protocol development, and dissemination of research findings as means of contributing to evidence-based medicine. Throughout the rotation, students should have multiple opportunities to perform different aspects of research and to practice problem-solving skills.</p> | | | | | | | | |

| RHE | OUC | HST | 1000 | Introduction to Human Services Technology | LEC | LE | 3 | 0 | | N | U20 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Comprehensive introduction to knowledge and skills required for successful human services work. Reviews the definition and basics of client care. Human service professionals serve individuals, families, groups, communities and/or other supported human services organizations. Human services basic principals and ethical standards, historical aspects, technology skills, job requirements, models of service delivery, client care, professional roles, working within delivery systems, and beginning skills in the helping processes discussed. | | | | | | | | | |
| RHE | OUC | HST | 1200 | Crisis Intervention | LEC | LE | 3 | 0 | | N | U20 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Provides theoretical understanding and skill-based training in assessment and intervention strategies that are solution oriented and that may be applied to a variety of crisis situations. Trains students how to respond to crises in a variety of settings with a diverse group of clients. Also designed to help students become proficient in crisis intervention skills. | | | | | | | | | |
| RHE | OUC | HST | 1500 | Behavior Management | LEC | LE | 3 | 0 | | N | U20 | | 0 |
| | | | | ELIGIBLE GRADES A-F | | | | | | | | | |
| | | | | COURSE DESC: | | | | | | | | | |
| | | | | Examines the application of behavior management principles and techniques used to help clients change or alleviate various human problems. Emphasis on learning to objectively describe, measure, and analyze behavioral data. Ethical issues in behavior management with clients discussed. Research, cultural differences, professional behaviors, and diversity of special populations in behavior management reviewed as well. | | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introductory course in group work practice that explores current theories and issues current in group dynamics. Objective is to acquire knowledge and practice skills which are necessary for group work. Emphasizes basic theory about groups and group process, demonstrates the skills necessary for effective practice, and gives the opportunity to discuss and practice these skills. Explores the history of group counseling, and current theories, principles, techniques of organization, leadership, and participation in group dynamics and processes. Actual group exercises that demonstrate the application of various theoretical models utilized. Discusses methods for implementing groups and outcome evaluation. Combines lecture and interactive learning experiences which facilitates self-awareness, group leadership, and small group participation. | | | | | | | | |
| RHE | OUC | HST | 1750 | Chemical Dependency | LEC | LE | 3 | 0 | | N | U20 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Provides a perspective of chemical dependency intervention strategies, including theories of addiction and change, self-help support movements, assessment and diagnosis, continua of clinical care, legal and ethical standards of care, and stage-based therapeutic interventions. Dynamics and mechanics of substance abuse and chemical dependency discussed. Special populations and diversities as they relate to client care highlighted. Emphasis placed on understanding evidence-based treatment practices as defined by the Substance Abuse and Mental Health Services Administration (SAMHSA) and the National Institute of Drug Abuse (NIDA). | | | | | | | | |
| RHE | OUC | HST | 1900 | Case Management | LEC | LE | 3 | 0 | | N | U20 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Introduction to the philosophy, goals, and methods of case management and its roles in the fields of social and protective services, mental retardation/developmental disabilities, mental health, and corrections. Trains students in the basic aspects of assisting clients in case management jobs in the social service field. Definitions, responsibilities, communication strategies, and documentation requirements of case management taught. | | | | | | | | |
| RHE | OUC | HST | 2900 | Special Topics Human Services Technology | LEC | LE | 1 to 3 | 12 | | N | U20 | | 0 |
| | | | | ELIGIBLE GRADES | A-F, CR, PR | | | | | | | | |
| | | | | COURSE DESC: | Provides opportunity for students to explore topics of interest in structured courses developed as common interests arise. May be repeated. | | | | | | | | |
| RHE | OUC | HST | 2921 | Practicum I | LEC | LE | 3 | 0 | | I | U20 | | 0 |
| | | | | ELIGIBLE GRADES | CR, F | | | | | | | | |
| | | | | COURSE DESC: | Students participate in 100 hrs of supervised field experience at local agency or institution. Provides an opportunity to gain practical training and experience under guidance and supervision of professional agency staff and a faculty person. May require a group project as a part of the 100 hour requirement to support a social service agency training module. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | The course is intended to be a capstone course. The course centers around the theme that a company achieves sustained success if its managers (1) formulate an astute game plan (2) implement and execute the game plan with proficiency. The course will prove how and why doing an effective job of strategy formulation and strategy implementation produces good business performance. In studying the tasks of strategic management, the course will integrate the knowledge students have gained from previous courses. Strategic management requires dealing with many variables and situational factors at one time. The students will be able to weigh the pros and cons of what strategy entails: a total enterprise perspective and a talent of judging how all of the relevant factors add up to shape the actions needed to take place in a business. | | | | | | | | |

| | | | | COURSE DESC: | Course builds upon knowledge gained in MSC 2010. Further developing student's understanding of military leadership and leadership techniques. Topics discussed include the principles of war, warrior ethos and the army values. Students are introduced to the eight troop leading procedures and the squad orders process. Students continue to develop their map reading and land navigation skills through classroom practical exercises. Course also covers time management, terrorism awareness, team goal setting, and problem solving techniques. Students learn the basics of problem solving and operations execution from beginning to completion. Leadership traits and styles are covered with a capstone presentation and self analysis prior to the end of the course. Teaches the basic duties of the commissioned and non-commissioned officer. Some classes may be held outdoors. A two-hour optional Leadership Laboratory, MSC 2020L, is held once a week. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | Leader's Training Course (LTC) is four weeks of intense classroom and field training held in the summer at Fort Knox, Kentucky. By transforming yourself through this rigorous training, you will qualify for enrollment in the Army ROTC Advanced Course. At LTC you experience the Army firsthand by developing your potential in the most important of ways-mentally, physically and emotionally. You will be grouped into squads where you will gain experience in all leadership roles-culminating in verbal and written feedback on your improvement. You will also receive a stipend, transportation to and from Fort Knox, housing and meals. The first phase begins with Physical Training (PT) and Drill and Ceremony (D&C) which instill self-discipline and prepare you for the rigors and challenges of the upcoming weeks. The second phase builds on the basics Cadets have learned by extending into adventure training in the field. Combat Water Survival Training, rappelling, land navigation and marksmanship training provide physical challenges that test Cadets individually while developing teamwork skills. In the third phase, Cadets learn squad-level operations by taking part in demanding field exercises. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Explores the theory of managing, group dynamics, and leading small military units with an emphasis on practical applications at the squad and platoon levels. Students will have a strong understanding of structure, process, and behaviors required of leadership. Examines various leadership styles and techniques as they relate to advanced small unit tactics and problem solving. Familiarizes students with a variety of topics such as land navigation, field craft, five battle drills, troop leading procedures, operations orders, risk management, and weapons systems. Involves multiple, evaluated leadership opportunities in field settings and hands-on experience. Students will also need to brief superior and subordinates on a wide range of topics. Students are given maximum leadership opportunities in weekly labs. A two-hour per week lab, three one-hour sessions of physical training a week, and a weekend field training exercise are required. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Studies theoretical and practical applications of small unit leadership principles. Focuses on managing personnel and resources, the military decision making process, the operations order, and oral communications. The student will also continue to improve his/her problem solving skills, motivation techniques, team dynamics, and situational leadership. This course will expand the student's knowledge in land navigation, Patrolling, Patrol Base Operations, and the Principles of War. Exposes the student to tactical unit leadership in a variety of environments with a focus on preparation for the LDAC experience. A two-hour per week lab, three one-hour sessions of physical training a week, and a weekend field training exercise are required parts of the course. | | | | | | | | |

| | | | | ELIGIBLE GRADES | A-F, CR | | | | | | | | |
| | | | | COURSE DESC: | The mission of the Leader Development and Assessment Course (LDAC) is to train U.S. Army ROTC Cadets to Army standards and to develop leadership and evaluate officer potential. This is accomplished through a tiered training structure using light infantry tactics as the instructional medium over a 28 day period. The Warrior Forge training program is sequential and progressive. It starts with individual training and leads to collective training, building from simple to complex tasks. This building-block approach permits integration of previously-learned skills into follow-on training. This logical, common-sense training sequence is maintained for each training cycle. Every day at LDAC is a day of training. Some of the major training events include the Army Physical Fitness Test, land navigation, weapons training, confidence building, and small unit leadership evaluations. | | | | | | | | |
| UNC | MSC | MSC | 4010 | Military Leadership, Management, and Ethics | LEC | LE | 3 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | A-F | | | | | | | | |
| | | | | COURSE DESC: | Course develops future officers in many areas including leadership, personal development, values and ethics, officership, and tactics and techniques. The students will develop and execute training from beginning to completion to include reviewing for future improvement. Students will work on problem solving, career management, leadership development, ethics through scenarios, and the military decision making process. Communication will be a major focus in the areas of counseling, instructing, briefing, writing and evaluations. Students will learn about the military justice systems and administrative tools that can be used for discipline. Outside the classroom all of the areas will be developed through assigned duties in the Cadet chain of command as well as planning and leading the activities of the Corps of Cadets to include physical training, military science lab, and special events. A leadership lab, MSC 4010L, plus participation in three one-hour sessions for personal and organizational physical fitness are required. | | | | | | | | |
| UNC | MSC | MSC | 4010L | Advanced Leadership Laboratory | LAB | LB | 1 | 0 | | N | U30 | | 0 |
| | | | | ELIGIBLE GRADES | CR, F | | | | | | | | |
| | | | | COURSE DESC: | Two-hour lab designed to reinforce skills learned in MSC courses. Labs are mainly conducted at the Ridges but may also take place in classrooms. Senior Cadets plan, prepare and execute all training events conducted. Fourth year Cadets serve as the instructors, leading the all Cadets in practical exercises on small unit tactics, land navigation, patrolling and the field leaders reaction course. The Senior Cadets also serve as graders, evaluating the performance of the all Cadets in leadership positions. Lab allows Senior Cadets to exercise their leadership skills by instructing, evaluating and mentoring the subordinate Cadets. | | | | | | | | |
