List of Approved Additional Natural Science Courses AY 2007-2008

Computer Science students who have entered Ohio University since Fall 1996 are required to take a year-long sequence of either chemistry (CHEM 151, 152, and 153 or 123) or physics (PHY 251, 252, and 253). In addition to this, students must take one additional natural science course required for majors in that discipline. The following is a list of courses that have been approved to meet this requirement.

BIOS 170, 171, 275 CHEM 151, 241, 305, 351, 453 P BIO111, 114, 247, 248
GEOL 101, 480 AST 305 PHY 251, 311, 351, 411, 423, 427

Note that either CHEM 151 or PHY 251 may be used if not used to satisfy the year-long sequence requirement.

Any other courses must be approved by petitioning the Computer Science Curriculum Committee.

This document is advisory and not an official statement of the requirements for a degree. Please see the undergraduate catalog for your official degree requirements.
