

TABLE OF CONTENTS

	Page No
I. Introduction	1
A. Radioactive Material License and ALARA.....	1
B. General Responsibilities of the Radiation Safety Committee	1
C. General Responsibilities of the Radiation Safety Officer.....	2
D. General Responsibilities of the Applicant	3
II. Application for Use of Radioactive Materials	5
A. Broad Scope Campus Radioactive Material License.....	6
B. Guide In Completing the Application to Obtain and Use Radioactive Isotopes	6
III. Use of Radioactive Materials (General)	7
A. Procurement of Radioactive Materials By Individual Purchase.....	7
B. Procurement of Radioactive Materials by Blanket Purchase Orders.....	8
C. Purchase by Purchasing “P” Cards (Prohibited).....	8
D. Requirement for Ordering Radioactive Materials	8
E. Gifts and Loans of Radioactive Materials	8
F. Transfers of Radioactive Materials.....	9
G. Requirement for Caution Signs and Labels	9
H. Handling and Processing Techniques	10
I. Storage of Radioactive Materials.....	11
J. Radioactive Waste Disposal	12
K. Maximum Permissible Exposure Limits/External - Internal Monitoring.....	14
IV. Use of Radioactive Materials (Research and Instructional Programs).....	16
A. Use of Sealed or Plated Radioactive Sources	16
B. Use of Liquid Radioactive Materials	16
C. Alpha Emitting Isotopes	17
D. Neutron Sources.....	17
V. Use of Radioactive Materials (Biological and Chemical)	17
A. Administration of Radioactive Materials to Animals.....	18
B. Biological and Chemical Procedures That May Release Airborne Radioactivity....	18
C. Other Precautions/Comments in Using Radioactive Materials for Biological	19
and Chemical Use	
VI. Tandem Van de Graaff Accelerator.....	19
A. Responsibilities	19
1. Background.....	19
2. General Responsibilities of Radiation Safety Committee	20
3. General Responsibilities of TALC (Accelerator Supervisors).....	20
4. General Responsibilities of Radiation Safety Officer.....	20
5. General Responsibilities of Accelerator Operator	21
6. Standard Operating Procedures for Accelerator Personnel	22
7. Visitor Policy and Orientation of Personnel	23

TABLE OF CONTENTS

	Page No
B. Description of Accelerator Areas; Radiation Fixed Monitoring System; Audible, Visual Warning Devices; Shut-Down Control Panel Test; and Shut-Down and/or Accumulation Count Reset	24
1. Introduction.....	24
2. Fixed Monitoring System	25
3. Safety Interlocks and Warning Devices.....	26
4. Calibration of Fixed Monitoring System	26
5. Accelerator Shut-Down Control Panel Test	27
6. Accelerator Shut-Down and/or Accumulated Count Reset	27
C. Portable Radiation Monitors	28
1. Introduction.....	28
2. Portable Survey Meters (Neutron, Gamma, Beta) and Chirpers	28
3. Calibration of Equipment.....	29
D. Personnel Monitors	29
1. Film Badges	29
E. Permissible Exposure Limits, Area Surveys and Radiation Signs	30
1. Introduction.....	30
2. Occupational Exposure Limits.....	31
3. Nonoccupational Exposure Limits.....	32
4. Nonoccupational Exposure Rate Limits	32
5. Survey of Areas and Radiation Signs	32
6. Internal Monitoring.....	32
F. Storage and Use of Radioactive Material	32
1. Induced Radioactivity in Materials.....	32
2. Handling Activated Materials.....	32
3. Storage of Radioactive Materials.....	33
4. Machining Activated Materials	33
5. Vacuum Pump Exhaust, Vacuum Storage Maintenance and Cooling.....	33
6. Gas Target System	34
G. Release of Radioactive Material to Sanitary Sewer System.....	34
1. Sanitary Sewer System	34
2. Release of Radioactive Material to Atmosphere	34
VII. Use of Radiation Machines	34
A. X-Ray Diffraction Machines	34
B. Medical X-Ray Machines	37
C. Electron Microscopes	41
D. Other X-Ray Machines	43
E. Neutron Generators.....	43
VIII. Emergency Procedures/Radioactive Material Spills.....	47
A. Contamination of the Laboratory.....	47
B. Personnel Decontamination Procedure	48
C. Contaminated Wounds.....	49

TABLE OF CONTENTS

	Page No
D. Ingestion of Radioactive Materials	49
E. Inhalation of Radioactive Materials.....	50
F. High Radiation Exposure.....	50
G. Lost/Stolen Radioactive Sources	50
H. Decontamination of Tools, Equipment and Areas.....	50
I. Emergency Procedure/User Emergency Telephone Numbers/Campus Safety Emergency Numbers.....	51
J. Laboratory Decommissioning.....	52
 IX. Radiation Safety Services	 52
A. Procurement of Radioactive Materials and Radiation Machines.....	52
B. Request New Lab Space and Transfers of Radioactive Materials/Transfers of Employees from AU to AU	52
C. Personnel Monitoring	52
D. Surveys and Wipe Test	53
E. Decontamination	53
F. Leak Test of Sealed Sources.....	53
G. Survey Instrument Calibration.....	53
H. Radiation Machine Surveys	53
I. Radioactive Waste Disposal	54
J. Radiation Safety Lectures	54
K. Consultant Service	54
 X. Required Forms to be Completed by the Applicant or Authorized User, or Services to be Requested	 54
A. Application for Permission to Obtain and Use Radioactive Isotopes.....	54
B. Release of Decayed (non-radioactive) Solid Waste to Ordinary Refuse form	54
C. Radioactive Waste Disposal Request	54
D. Radiation Exposure History Form	54
E. Film Badge/Bioassay (addition or deletion) Request Form.....	55
F. Individuals Who Have Occasion To Enter a Restricted Area (Laboratory)	55
G. License Renewal	55
H. Radiation Safety Orientation Request.....	55
I. Radiation Safety Orientation for Pregnancy	55
J. Transfer Forms.....	55
K. Usage, Transfer, Waste Log & Survey Record for Radioactive Material (RAM) Form	55
L. Faculty and Parental Responsibility for Minors Under the Age of 18 in Ohio University Laboratories Form.....	55

APPENDIX

Appendix No. Title

- Appendix 1 Copy of Ohio University Broad Scope License
- Appendix 2 Application for Permission to Obtain and Use Radioactive Isotopes
- Appendix 3 A Guide for Completing Project Applications for Radioactive Material
- Appendix 4 Common Radionuclides, Energies and Half-Lives
- Appendix 5 Dose Rate/Shielding and Maximum Permissible Concentration In Air
- Appendix 6 Glossary
- Appendix 7 Facility Selection Criteria
- Appendix 8 Radiation Safety Training - Individuals Working in Restricted Areas
- Appendix 9 Training/Experience Requirements to Obtain and Use Radioactive Isotopes
- Appendix 10 Accelerator Schematic
- Appendix 11 Declaration of Pregnancy, Embryo Fetal Protection Statement
Radiation Safety Orientation for Pregnancy form
Declaration of Pregnancy form
- Appendix 12 Procurement of Radioactive Materials
Sample Requisition
- Appendix 13 Laboratory Rules for Radioactive Material Users
Sanitary Sewer Release Criteria
Spill Notification Action Limits
Decontamination Procedures
Personnel Decontamination
- Appendix 14 Laboratory Decommissioning
- Appendix 15 Radioactive Waste Disposal
- Appendix 16 Ohio Administrative Code – Ohio Department of Health (ODH) and Nuclear
Regulatory Commission (NRC) Regulations
ODH: 3701-39, 3701:1-38, 3701:1-40, 3701:1-50, 3701:-1-52, 3701:1-54,
3701: 1-66
NRC: 10 CFR Parts 19, 20, 30, 31, 71
DOT: 49 CFR Parts 171-178

Appendix No. Title

- Appendix 17 License Renewal (for Authorized Users - AU)
License Revision Procedure
- Appendix 18 Individuals Who Have Occasion to Enter Restricted Area form
Occasional Visitor Orientation form
Occasional Visitor Training
- Appendix 19 Duties of Radiation Safety Office
- Appendix 20 Transfer Forms
A Employee Transfer Form (from AU to AU)
B. Request For Use Of Radioactive Isotope In New/Additional Laboratory Space
(including transfer of isotope from building to building)
- Appendix 21 Radiation Safety Orientation Training Recording Form
Accelerator Laboratory Orientation Training form
- Appendix 22 Radiation Exposure History Form
- Appendix 23 Radioactive Waste Disposal Request form
Instructions For Radioactive Waste Disposal Request form
- Appendix 24 Rules and Procedures for Operation of the Tritium Gas Cell
- Appendix 25 Release of Decayed (non-radioactive) Solid Waste to Ordinary Refuse form
and Instructions
- Appendix 26 Film Badge/Bioassay (addition or deletion) Request Form
- Appendix 27 Use, Transfer, Waste Log and Survey Record for Radioactive Material (RAM)
- Appendix 28 Faculty and Parental Responsibility for Minors Under the Age of 18 in Ohio
University Laboratories
- Appendix 29 Radiation Safety Committee Review (Annual Audit) and Performance Review
(RSO and Staff)
- Appendix 30 Safety Evaluation of Proposed Uses/Users
- Appendix 31 Radiation Safety Committee Members
