

# Cooperative Education Report

Each year, Russ College students participate in co-ops—salaried positions at various companies where they gain real-world experience and perspectives on career paths. For the 2006-2007 academic year, nearly 200 students worked in co-op assignments. Mechanical engineering students worked in nearly 100 different assignments.

The Russ College's new coordinator for career programs, **Robbyn Matthews**, talks with junior mechanical engineering major **Michael Totterdale**.

New this year is eRecruiting®, a Web-based, 24/7 comprehensive career management system enabling employers and students to network with each other for co-op and internship opportunities. The system's Alumni Mentors Module connects Russ College alumni with current students for mentoring. **For more information or to sign up, contact the Office of Career Programs at [coop@ohio.edu](mailto:coop@ohio.edu) or 740.593.1618.**

The Russ College thanks its co-op employers for their commitment to engineering and technology education. To get your company involved as an employer, contact the Russ College Office of Career Programs.
