Exceptions - Non Three Hour Lecture

The Ohio University Faculty Senate Resolution on the Number of Semester Hours per Course and Course Meeting Times for Quarters to Semesters (<http://www.ohio.edu/facultysenate/upload/CourseHourTimeResolutionfinal4-2009.doc>) resolved that, as a norm, undergraduate lecture courses on the Athens Campus shall be 3 semester hours and that exceptions to these norms will be allowed on the basis of pedagogical justification specific to a course or course sequence.

Three-hour courses are important for balancing student schedules, and three lecture hour per week blocks are important for classroom utilization. It is understood that there are special cases where the 3-lecture hour course norm does not apply, sometimes for categories of courses (recitals or band), sometimes for disciplinary standards, and sometimes for other reasons.

For the semester courses taught by your department that do not meet the 3 lecture hour norm, give a brief explanation of why the norm was not followed and/or what circumstances make these deviations from the norm not create a problem with classroom scheduling or student schedules. (Notes: Categories of courses can be addressed as a group rather than individually. If you are using a 'disciplinary standard' argument, please make comparisons to Ohio Schools on semesters or to Ohio University peer schools on semesters. If you are using a block scheduling approach, please list the courses that will be block scheduled and identify the semester(s) where the block scheduling applies.)

Reason: Seventeen of our courses are listed in the non-three hour lecture exception list. Of these courses 12 are courses that include a combination of lecture and laboratory experiences. The lab sections will be taught in our program laboratories and will not place additional time demands on classrooms. These courses include: AT 1002, AT 2300, AT 4600, EXPH 2280, EXPH 2490, EXPH 3280, EXPH 4160, EXPH 4490, EXPH 4610, EXPH 4850, NUTR 2200 and NUTR 2220. The other five courses we created as stand alone courses of less than three hours of credit to provide the most logical delivery of major content: AT 1150, AT 3100, AT 3300, NUTR 2990, NUTR 3600.
