

## Q2S Binder for Rehabilitation and Communication Sciences, School of

### General Info

**Document Description:** Q2S Binder for Rehabilitation and Communication Sciences, School of

**Document ID:** 110823

**Document Version:** 5.0

**Document Type:** BINDER

**Document Status:** REVIEW - UCC

**Contact Name:** Averell Overby

**Contact Oak ID:** overbya

**Designee Name:** None

**Designee Oak ID:** None

**Creation Info:** 09/13/2010 by Don Pendergast (pendergd)

**Last Modification:** 01/14/2011 by Randy Leite (leite)

### Department/School Info

**College:** HHS(null)

**Department:** RCS(Rehabilitation and Communication Sciences, School of)

**Mission:** The School of Rehabilitation and Communication Sciences is dedicated to excellence in research and preparing undergraduate and graduate students with the knowledge, behavior, and skills necessary to assume leadership roles in a competitive, diverse, and global health care environment. We provide model clinical services that support student learning as well as the health of the community in southeastern Ohio.

#### Exceptions - Non Three Hour Lecture

The Ohio University Faculty Senate Resolution on the Number of Semester Hours per Course and Course Meeting Times for Quarters to Semesters (<http://www.ohio.edu/facultysenate/upload/CourseHourTimeResolutionfinal4-2009.doc>) resolved that, as a norm, undergraduate lecture courses on the Athens Campus shall be 3 semester hours and that exceptions to these norms will be allowed on the basis of pedagogical justification specific to a course or course sequence.

Three-hour courses are important for balancing student schedules, and three lecture hour per week blocks are important for classroom utilization. It is understood that there are special cases where the 3-lecture hour course norm does not apply, sometimes for categories of courses (recitals or band), sometimes for disciplinary standards, and sometimes for other reasons.

For the semester courses taught by your department that do not meet the 3 lecture hour norm, give a brief explanation of why the norm was not followed and/or what circumstances make these deviations from the norm not create a problem with classroom scheduling or student schedules. (Notes: Categories of courses can be addressed as a group rather than individually. If you are using a 'disciplinary standard' argument, please make comparisons to Ohio Schools on semesters or to Ohio University peer schools on semesters. If you are using a block scheduling approach, please list the courses that will be block scheduled and identify the semester(s) where the block scheduling applies.)

**Reason:** Both CSD 1070 and CSD 3800 will be 3 hour semester courses. All other information regarding these classes will remain the same as indicated. Under the discussion tab for PT 2590 and 2591, reasons are given for why these courses do not meet the 3 credit hour rule for undergraduate classes. Briefly, PT 2591 is currently a 3 credit hour class and therefore should be reduced in a semester format. In addition, the class is held in one of the PT Labs on the second floor of Grover Center and in the clinics; therefore, it should not interfere with classroom scheduling. PT 2590 is an overview course which is currently 20 hours. In the semester format, a two credit hour course will be 28 hours- an addition of 8 hours which will be utilized to complete student understanding of physical therapy as a career; however, as an overview course, we do not believe that 42 clock hours is justified and will place a burden on students pursuing pre-physical therapy curricula in biological sciences and psychology.
