Re: Resolution on Annual Raise Pool

The Raise Distribution Guidelines for Fiscal Year 2009 will reflect that the approved range for salary increases will be 1.5% to 7% based on performance evaluations. This range was proposed by the Finance and Facilities Committee last year, and we will follow the same range for FY 2009 raises.

The consensus among chairs and directors as well as deans is that we allocate the raise pool funds on the basis of merit rather than using an across-the-board approach to assure effective faculty recruitment and retention at Ohio University
