---	---------------------------------------	--------------------------	---------------------------------

JOB SUMMARY

Under general direction, the fully operational General Programmer/Analyst III completes assignments working independently or as the leader of a design team. This classification requires sufficient knowledge of programming techniques in order to analyze systems, to design programs, and to encode, test and maintain programs.

PRINCIPAL DUTIES AND RESPONSIBILITIES

1. Analyzes and evaluates existing and proposed systems
2. Prepares charts and diagrams to assist in problem analysis
3. Develops and implements solutions to problems or user needs
4. Prepares program specifications and diagrams and prepares coding logic flowcharts
5. Encodes, tests, debugs, and installs the operating programs and procedures in coordination with computer operations and user departments
6. Revises computer programs, systems and procedures to process data and provide reports
7. Provides documentation of encoding process
8. Provides technical support to faculty, staff, and students
9. Performs other duties as assigned

Worker Characteristics (knowledge, skills & abilities to perform the job duties)

Knowledge of programming and analytical techniques and computer systems. Ability to interpret technical material in book, journals, or manuals and to provide technical support and recommendations. Ability to work independently or to coordinate team efforts on in-depth projects. Excellent communication skills.

Minimum education & experience required (including training, registration & licensure)

Bachelor's degree in computer/technical related field. 6+ years experience in programming or related field.

- Or equivalent of the education and experience listed above.

This job specification describes the general nature and level of work being performed by people assigned to this classification. Employees may perform some or all of these duties. Examples listed do not preclude the performance of other duties similar in nature or in level of complexity.
