

# Learning Communities

University College, Ohio University

## Fall 2006

A learning community is an intentional clustering of courses that a small group of students (the learning community) takes in common to allow them to develop a deeper understanding of the courses' subject matter while they build relationships and learn together outside the classroom.

**Pop Culture**

This RLC explores the elements of society that express and define our popular culture, including music, film, advertisements, print media, and television. Participants will discuss the influence that media has on our popular culture and how it shapes individuals, groups, and society as a whole. Activities will encourage students to examine and analyze popular culture while connecting this influence to decisions made while in college and beyond.

**Sports in Society**

This RLC will explore societal issues using sports as a medium. Participants will examine the roles that athletics and recreation play in our lives using a variety of resources. You don't have to be a sports aficionado to enjoy this community – you only need an interest in how our culture is affected by them.
