Employee Comparison Presentation

Needed Information:

- Employee A earns a pay of $4.90 an hour; Employee B earns $4.68 an hour; and, Employee C earns a pay of $4.85 an hour.
- Overtime is paid at one-and-a-half times the regular hourly rate for each overtime hour worked.
- For each item that is produced, the employee also earns a wage of $0.38.
- Thus, an employee's gross wages are given by the following formula:
  \[ \text{Gross wages} = \text{Reg Hours x Wage} + 1.5 \times \text{OT Hours x Wage} + 0.38 \times \text{Items produced} \]
- If an item is returned, the total cost to the company is $1.74.
- Each ounce of resource used costs the company $0.80; but, each ounce of resource wasted costs the company $1.33.
- The following is a list of shipping costs per item for a given day:
  - $0.48 per item shipped on Monday, Tuesday, or Wednesday.
  - $0.68 per item shipped on Thursday or Friday.
  - $1.13 per item shipped on Saturday or Sunday.
- The tax rates for our contributions (FICA and Medicare) are: FICA @ 6.2%; and, Medicare @ 1.45%.
