Podium with Wall Mounted Speakers
For Help, Call 597-3000.

START HERE:

Control Box
• Press On to enable projector.
• WAIT 1 minute for projector to warm up.
• To choose projector input, press:
  • VCR to play a videotape
  • DVD to play a DVD using the VHS/DVD deck
  • PC to use the built-in computer or to play a DVD using the computer’s DVD drive
  • Laptop to use your own computer via the top shelf laptop cables.
• Black Screen to blank the projector screen. Press a second time to re-enable the display.

Laptop Cables
1 Projector - attach to laptop’s VGA/Display port.
2 Audio - attach to laptop’s speaker, headphone, or line out jack.
3 Ethernet - attach to laptop’s network port.

Audio
• Power switch is in center of unit.
• Volume knobs allow separate control of right and left speakers.
• Speakers are wall mounted.

Built-in PC
• Windows XP with Office
• 2 front panel USB ports
• 1 USB port on podium’s keyboard tray
• CD/DVD combo drive
  • CD burning & playback
  • DVD playback only
• Floppy drive

Closed Captioning
• To display or hide captions for videotapes or DVDs, press BY PASS.

Expansion Shelf
• To raise, lift until latch clicks.
• To lower, release triggers on both sides of shelf underside.

VHS/DVD Deck
• Multi-region compatible.
• RCA audio and composite video inputs on front panel.
• Use attached remote to access playback features.

VHS/DVD Remote
• Set VCR/DVD switch based on the type of media you are playing.
• VCR-specific functions are labeled in orange, DVD in green.
• To use front panel audio/video inputs, set switch to VCR and press Input Select.
• To change projector input, use the podium Control Box.
