NOMINATION FOR MEMBERSHIP

Please check the appropriate box.

☐ To the Admissions Committee of the _____ Chapter/Club
(Any two active full Members of that chapter or club may serve as nominator and seconder. This form should be presented to any officer of the above mentioned group. Publication lists or similar evidence are helpful; consult your chapter/club for required supporting material.)

☐ To the Committee on Membership
(Any two active full Members of the Society may serve as nominator and seconder. Send this form along with a list of publications and/or patents, or similar information which demonstrates the quantitative nature of scientific research and a CV/resumé to Headquarters.)

As active (dues paid) members of Sigma Xi, we, the undersigned, would like to propose the following individual for membership in the Society. We are personally familiar with the nominee's qualifications which can be made available to the Committee on Admissions if required and which, we believe, demonstrate the nominee's eligibility.

Full Name of Nominee _____
(Preferably no initials) Last First Middle

ELIGIBILITY GUIDELINES

Extract from the Society's Constitution (Article II, Section 3) concerning eligibility:

Section 3. Requirements for Election or Promotion to Membership.

A. **Member**. Any individual who has shown noteworthy achievement as an original investigator in a field of pure or applied science is eligible for election or promotion to full membership in the Society by a chapter or the Committee on Membership.

B. **Associate Member.** Any individual who has, through initial research achievement in a field of pure or applied science, shown aptitude for research which is expected in due course to lead to the fulfilment of the requirements for full membership, is eligible for election to associate membership by a chapter or club or the Committee on Membership.

Extract from the Society's Bylaws concerning eligibility:

For Election or Promotion to Full Membership.

"**Noteworthy Achievement.** Noteworthy achievement in research specified for election or promotion to full membership...must be evidenced by publication, patents, written reports or a thesis or dissertation, which must be available to the Committee on Admissions if requested. If the work is "classified," it shall be assessed for the Committee on Admissions by a "cleared" Member. Membership in the Society is neither linked to the possession of any degree nor contingent upon belonging to some other organization." (Bylaw II, 2B)

For Election to Associate Membership.

"**Research Aptitude.** Research aptitude specified for election to associate membership...must be evidence by independent investigation ordinarily resulting in a written report, which must be available to the Committee on Admissions if requested. If the work is "classified," it shall be assessed for the Committee on Admissions by a "cleared" Member. Associate membership is offered to encourage young investigators with promise to continue careers in research. In making the nomination, both the nominator and the seconder attest to the nominee's potential for future promotion to Member." (Bylaw II, 2C)
