

OHIO GoMobile

OHIO's Student Laptop Program

Summer 2009

Why Buy an OHIO Laptop?

Great Price, Convenience & Service

The OHIO GoMobile Program makes your purchase a one-stop experience.

- At the Technology Depot, you can test drive our laptops before making the purchase and our staff can answer questions on the spot.
- We offer pre-configured accessory bundles and software, so you get everything you need in a single purchase.
- Your purchase includes technical support after the sale from our Service Desk. All laptops are durable "business-class" machines from leading vendors already configured with what you need for your four years at OHIO. Laptops are backed by a three-year warranty and our technicians are vendor certified. If repairs are needed, the Technology Depot can support you.
- The price is less than purchasing directly from the vendor.

FAQs

What makes an OHIO GoMobile laptop a better deal than purchasing elsewhere?

Cheap laptops are everywhere these days. In fact, you could probably find a laptop for less than \$500. Before you buy a bargain "consumer-line" laptop, keep the following points in mind:

- Laptops offered through OHIO GoMobile program are "business class" machines and include a 3-year warranty (1 year battery). Windows units also include 3-year accidental protection.
- Most "consumer-line" models have a 90-day warranty, use non-Intel chips & skimp on memory & hard drive space. Our laptops include state of the art components, ample memory & large hard drives.
- Business Class = More Reliable (designed & manufactured with high quality components)

What are my payment options?

We accept personal checks and major credit cards (Visa, MasterCard, American Express). If you need financing options, visit the Ohio University Credit Union at www.oucu.org and click the "youth & college" link at the top for low interest rate computer loan options..

What timeframe should I purchase ?

For incoming Freshman, we encourage you to purchase your laptop during Orientation. You are then assured of getting the latest technology while still having enough time to get familiar with your new computer before school starts in the fall. Visit www.ohio.edu/technology/depot for our models and the latest promotions.

Do I need a printer?

There are computer labs across campus that offer printing. For convenience, an inkjet all-in-one printer/scanner/copier is recommended.

How do I get support if I purchase a laptop from the Technology Depot?

In the unlikely event that you need warranty or accidental damage service, help is right here on campus. The OHIO Technology Depot is a certified warranty provider for Apple, Dell, HP, & Lenovo. You can drop your computer off at the Technology Depot for repair services. Technical support is available. You can walk-in at the Technology Depot or call our Service Desk for phone support. If you are off-campus, you can contact the manufacturer directly for warranty service also.

How to Order?

Online: www.ohio.edu/technology/depot

Phone: 740-597-DEPO

Campus: Tech Depot, Baker University Center, 112

Microsoft Office Professional Plus (Word, Excel, PowerPoint & Access — Access only on Windows) is NOT pre-installed on the laptops. Per our Microsoft agreement, students can not purchase until they are registered for classes. ~ Cost = \$70 (Retail = \$150)

Visit www.ohio.edu/technology/depot for full specifications

"I use my notebook in a fair amount of my classes, and with the discounted University price it was an opportunity I couldn't let pass."

Josh W., Electrical Engineering, Class of 2010

"Getting my laptop from the Technology Depot was a real no-brainer. The price was extremely fair and the service was great. The selection is great, the staff is friendly and helpful, and the laptops are top of the line. Why anyone would buy their laptop elsewhere is beyond me!"

Jesse H., English, Class of 2010
