Some of the majors in this college have two major codes. In general, with these majors applicants have the option of choosing a degree program that is oriented either more toward the sciences (BS) or toward the liberal arts (BA). Details on the differences can be found in the College of Arts and Sciences section of the Undergraduate Catalog. Applicants may want to consult with an admissions advisor or a college representative about choosing an option.

The prefix of each major code indicates the type of degree awarded in that major. In some cases, it indicates that an additional application process is required for admission to the major.
