

College of Arts and Sciences

The curriculum outlined here is a semester-by-semester plan of study for the BA in GERMAN (BA 5222), in adherence to section 3333.71 of the Revised Code for three-year baccalaureate degrees.

The estimated number of hours transferred or taken as AP is set at 14. [This plan assumes the following pre-entry 14 credits: T1 Quantitative (3 credits); T1 English AP (3 credits); German AP 3 (cross-cultural) (8credits)].

Please note these are just examples. The actual slate of courses would be dependent upon the courses for which a student actually has previous credit. Students with additional AP credits would be allowed to count them (as appropriate) toward the three-year degree pathway. A student should work closely with an advisor to design a plan that is specific for him/her with courses taken appropriately to complete the plan in the desired time frame.

The student also should be aware that trade-offs are inherent in the decision to complete a degree in three years. A student on a three-year track must stay focused on the curriculum and may not be able to explore educational alternatives or change programs or majors. S/he may also not be able to participate in additional study abroad programs, internships, student clubs or government, or service learning opportunities. The student must keep in mind that for the German major, a study abroad program is required, and the student must take and pass the ACTFL Oral Proficiency Interview with a proficiency of intermediate high or above. This exam is administered after the study abroad and one semester before graduation.

The scheduling scenario below is intended to present an example pattern by which this major can be completed in three years. Those interested in pursuing this option need to work with an academic advisor to develop a specific plan to earn the 124 credit hours required for graduation.
