### Long-term Care Administration Major

The Department of Social and Public Health intends to offer a three-year baccalaureate degree route to students pursuing a Long-term Care Administration major. This option will be open to students who complete 28 hours of academic credit spread out over two summer terms or through advanced placement or concurrent enrollment credit completed while in high school. Students must also complete a capstone internship experience at the end of the program; either in Athens or elsewhere. Other students will also be able to pursue this degree in a four-year time frame.

The curriculum outlined below is a semester-by-semester plan of study for the Long-term Care Administration major in adherence to section 3333.71 of Revised Code for three-year baccalaureate degrees. This plan described a path that includes the summer enrollment option. Please review this document and the following endnotes to gain a better understanding of program requirements.

The scheduling scenario below is intended to present an example pattern by which this major can be completed in three years. Those interested in pursuing this option need to work with an academic advisor to develop a specific plan to earn the 126 credit hours required for graduation.

<sup>1</sup>All Tier I and Tier II Courses can be taken at any time.

<sup>2</sup>Since most of the general education courses (Tier courses at OU) easily transfer from institution to institution, these courses may be taken through online or on-campus enrollment at other institutions subject to transfer credit applicability guidelines. Students should consult an academic advisor before enrolling in courses at other institutions.

<sup>3</sup>General Electives can come from any department. Academic advisors often encourage an expanded related area and/or a minor/certificate program that will complement the major.

<sup>4</sup>General Electives may be completed at other institutions, subject to credit transferability and minimum grade requirements.
