

## North Central State College – Ohio University Plan

---

### Project Management Online Program Pathway

This online program for individuals with a completed associate degree leads to a Bachelor of Science, Project Management major, from the Russ College of Engineering and Technology, a minor in Business from the College of Business at Ohio University, and a Certificate in Lean Six Sigma Methods. This Project Management bachelor degree completion program is focused on enabling students to be able to develop comprehensive project management plans and documentation, control projects, and lead change in an organization. It is expected that our students will also be able to execute projects related to improving an organization's operations to be efficient and effective in meeting company and customer requirements. Students will also learn about Agile project management approaches and which project management tools to use in specific situations.

Students who wish to pursue the project management major prior to earning an associate degree are encouraged to reach out to the program director to seek an advising session for a personalized degree plan.

Ohio University also offers an online graduate program in project management for people who have completed a four-year accredited degree. Information on that program can be found at: [ohio.edu/project-management](http://ohio.edu/project-management).

This completion degree will complement many associate degrees and provide opportunities for graduates of this program to advance in their chosen fields.
