

## Washington State College of Ohio – Ohio University Plan

---

### Integrated Healthcare Studies Pathway

The Integrated Healthcare Studies (IHS) major is designed as a completion degree for individuals who have completed at least 60 semester hours in an allied health-related discipline; or for those students who have started an undergraduate health related program and have decided a more general health degree better suits their educational goals. The IHS program provides students a pathway to continue their education, increase career possibilities, and creates a pathway to graduate education. The Integrated Healthcare Studies program responds to the need of an increasingly complex state of the American healthcare system by providing opportunities for students to acquire vital knowledge and skills that will be critical in practicing and navigating the healthcare system. Not only is the healthcare system becoming more complex; healthcare professions, and healthcare support, are among the fastest growing occupations with the increased expectation that higher levels of education will be required.

#### Online Convenience. Ohio University Quality.

- Review study materials and submit assignments online.
- Learn from distinguished professors with clinical experience.
- Progress through the degree in consultation with an Ohio University academic advisor.
- Flexibility to choose classes for your specific needs and most IHS courses are held in 7-week increments.
