Assistant Professor, Biomedical Informatics
School of Interdisciplinary Informatics
College of Information Science & Technology
University of Nebraska at Omaha

The College of Information Science & Technology (IS&T) of the University of Nebraska at Omaha (UNO) is seeking candidates for a faculty position at the Assistant Professor rank in the School of Interdisciplinary Informatics. Candidates for the position must have earned a Ph.D. in Biomedical Informatics, Bioinformatics or a related field, and are expected to have a strong research background, with an emphasis on Healthcare Informatics and/or Public Health Informatics. Responsibilities include research, teaching, and service. The candidate is expected to develop a robust research program capable of attracting extramural funding and to teach at both the undergraduate and graduate levels.

The College of IS&T provides an ideal environment for performing cutting edge computational research in biomedical sciences, offering the fastest computing resources in the state (Holland Computing Center). Faculty benefit from a range of intramural funding opportunities and a strong commitment by the state to fund innovative research programs. Collaborative research is a hallmark of the unit, which boasts faculty with recognized expertise in cyber security and data science. Further, the College of IS&T has several ongoing collaborations with the University of Nebraska Medical Center and other renowned medical centers across the country. On the educational side, the College has been a pioneer in Bioinformatics and Biomedical Informatics education since 2004, and it offers a full range of degrees including a B.Sc. in Bioinformatics, a M.Sc. and a Ph.D. in Biomedical Informatics.

The University and School have a strong commitment to achieving diversity among faculty and staff. We are particularly interested in receiving applications from members of under-represented groups and strongly encourage women and persons of color to apply for this position. The appointment can be effective as early as Spring of 2017.

To apply, please submit a Curriculum Vitae, a list of three references, and a letter of intent with a summary of research interests and future plans at http://unomaha.peopleadmin.com/.
