

## Geography Department Honors Program

### *Honors Program Application*

Before completing this application, students should carefully read the department guidelines and consult with the Departmental Honors Coordinator. Students must also consult with the faculty member who has agreed to supervise the honors thesis. The application should be submitted to the Departmental Honors Coordinator by the beginning of the student's senior year and consist of three components:

1. The form below, signed by both faculty members.
2. Statement of Proposed Project Description.
3. A copy of your most recent DARS.

You will be notified of your status within two weeks of submitting a completed application.

Name: \_\_\_\_\_ Email: \_\_\_\_\_

Campus Address: \_\_\_\_\_

Permanent Address: \_\_\_\_\_

Major: \_\_\_\_\_ Advisor: \_\_\_\_\_

Overall GPA: \_\_\_\_\_ Departmental GPA: \_\_\_\_\_

Credits earned as of the end of last semester: \_\_\_\_\_

**Proposed Project Description:** In no more than three pages, describe the research project that will be undertaken. Be sure to explain carefully how the project will be designed, how it will be accomplished, and the final outcome, especially if the project includes a significant geo-technical component. Include a timetable for completing the project. Note that this application will not be complete until you have written this part, your committee has approved its content, and signed below.

**Supervising Committee:** By signing below you are agreeing to supervise the above student's honors thesis, following the rules set forth by the department and the college. You have read and you approve of the project description and timetable.
