ENVIRONMENTAL & COMMUNITY SUSTAINABILITY: USING INDICATORS TO TRACK PROGRESS

Join us for the second CE3 Brownbag Lunch of the semester!
Friday, October 9th at 12:00 PM • Bldg 22, The Ridges, Room 221
Pizza will be provided

Join OU Dept. of Geography Assistant Professor of Urban Planning, Amy Lynch, Ph.D., as she discusses how communities across the U.S. use indicators systems to track their progress towards becoming more equitable, environmentally sensitive, and economically resilient. She will describe her work related to the use of built environment sustainability indicators, how well these indicators inform and measure sustainability, and key strategies for helping communities of all sizes reach their sustainability goals.

Save the Date for these Upcoming CE3 Brownbags!

Oct. 23: Crane Hollow Excursion  
Nov. 13: Balkans Delegation (special session)  
Nov. 6: The Sugar Bush Foundation
