Lunch and Learn

OIL & GAS DEVELOPMENT
- WE HAVE THE ANSWERS, IT’S THE QUESTIONS WE DON’T KNOW YET

Lunch and Learn Series is organized by the Entrepreneurship Development Group (EDG) of Athens County, Ohio

The region is experiencing rapid development in oil and gas exploration that could shortly approach wild west or boom town proportions. In Oil and Gas Development - We Have the Answers, It’s the Questions We Don’t Know Yet, Dale Arnold, Director of Energy Services for the Ohio Farm Bureau Federation since 1995, will explore series of questions energy developers, legal counsels and landowner associations need to address as local leaders and residents make business and planning decisions impacting their farms, homes and community.

Dale represents farm, small business and residential energy consumers on utility advisory boards focusing on demand side management/energy efficiency. He has served on local, state and national working groups focusing on technical evaluation, education/outreach, and community planning, all dealing with energy. He has served on task forces leading to creation of Ohio’s Advanced Energy Initiative as detailed in SB 221, and utility scale wind farm siting guidelines created in response to HB 562.

Thursday, January 19th
11:00 a.m. - 1:00 p.m.*
Ohio University Innovation Center
340 West State Street, Room 103
