One identity. One voice.

BRAND STANDARDS for OHIO UNIVERSITY CHILlicothe
The purpose of this manual is to establish guidelines for how Ohio University communicates and expresses itself as an organization.

The guidelines are an important component to maintaining consistency as we communicate with all of our various audiences. A consistent message is critical, because it presents the University as a focused institution with a clear vision of the future. With your commitment to the standards, which are outlined in this manual, OHIO will present the strong and unified message that is so important to our communication efforts.

A thorough understanding of the elements within this manual is critical. Deviation from these guidelines may create confusion and dilute the brand identity of the University. Please take the time to review all the sections of this manual and share it with anyone responsible for producing materials for OHIO.

ONE IDENTITY. ONE VOICE. ONE UNIVERSITY. Thank you for your help and commitment to building and maintaining the Ohio University brand identity that reflects the vision and excellence we all represent.

BRAND ATTRIBUTES

Much in the same way a person has unique attributes that help define who they are, every brand also has attributes. These qualities not only identify the strength behind the brand, but also help establish a tone for our communications.

The attributes of the University brand highlighted here are the result of a comprehensive process in which input was gathered from a wide variety of University constituents. In essence, these attributes should be used as a measurement device for all University communications by asking a simple question.

Does the message portray Ohio University as an enriching, student-centered institution?
A brand is more than simply a theme. It is more than the image conveyed through marketing and communication materials. Truly successful brands are those in which the brand promise is delivered at every touch point. A brand, for example, can be reflected in how you answer the phone. It can also be reflected in an institution’s day-to-day decisions.

A brand charter identifies broad operational guidelines that ensure consistent organizational delivery of the experience promised by the brand. It is a tool to help an organization’s associates better understand how to operate and make decisions that are ‘brand appropriate’—or consistently deliver the brand promise.

- We provide the best student-centered learning experience in America.
- We celebrate the importance of “place” and the impact it has on people’s lives.
- We help students become self-fulfilled.
- We value the importance of citizenship through the liberal arts.
- We have a sphere of influence that is far reaching.
- We encourage students to get involved in and give back to their community.
- We recognize people’s accomplishments on campus and within our global society.
- We embrace diversity and individualism.
Ohio University is on a quest to enrich the world, while creating limitless opportunities for students to fulfill their promise and effect positive change. We deliver on that promise through an accessible, engaging, transforming student experience; the combined breadth and excellence of the University’s degree programs and facilities; and the academic success and career accomplishments of students, faculty, and alumni.

BRAND PROMISE

Ohio University enriches the world by helping students fulfill their promise.
When defining the brand of any institution or organization, one helpful exercise is to describe how the brand would think, act, and feel as a person. The exercise helps determine the personality of a brand. Because, like a person, a brand can have multiple attributes that, when combined, create its personality.

If we were to describe Ohio University as if it were a person, we would have a compelling story to tell. We could reference its intellect, its place in history, and its continuous thirst for knowledge.

While all of those characteristics help define the personality of the OHIO brand, they only begin to tell the story. These additional personality traits highlighted below came to the forefront during our brand definition exercises and are directly connected to the Brand Positioning Statement.

Accessible, Authentic, Collaborative, Creative, Diverse, Enriching, Global, Individualistic, Innovative, Student-Centered, and Historic

It is important to keep these attributes in mind as you write, create, and deliver all forms of communication. Whether writing a letter to a prospective student, or creating an invitation to an event on our campus, remember that OHIO is accessible, enriching, and student-centered.
The Brand Voice is not only what you say in terms of content and message, but also the tone in which you say it. The language utilized in communication materials for OHIO does not need to be forced or manufactured. OHIO has all the components necessary to tell an authentic, yet remarkable story. All of our materials should reflect this brand promise.

ESSENCE STATEMENT:
“Regional campuses create the opportunity for students to imagine unlimited possibilities, because Ohio University inspires students to transform themselves and their community.”

The beauty of this brand voice lies in its universal impact. It speaks as clearly to an incoming freshman as it does to a potential philanthropist.

BOILERPLATE TEXT:
Attending the Chillicothe regional campus of Ohio University (OUC) offers students the opportunity to earn a degree from Ohio University, which has a 200-year history of excellence, while staying involved with the local community. OUC offers the close-knit feeling and sense of community found on a small campus with the resources and reputation of a nationally renowned university.

To make it work on all levels, the brand has to convey energy. It’s active and forward thinking. It’s like the students, faculty, administrators, and alumni. It reflects the ongoing evolution of the University as a whole. There is an organic nature to this brand. It is a living, breathing concept that is part of everything we do.

REFERENCING OHIO UNIVERSITY IN CHILlicoTHE:
When making any reference in communications to Ohio University in Chillicothe, it should always be stated as “the Chillicothe Campus.”
Enriching. Student-Centered.
These two words set the tone for the look of Ohio University Chillicothe.
Ohio University’s Brand Look is achieved through a collection of the unique visuals that ensure the face of our brand is instantly recognizable. Elements of our brand look include the University’s logos, identity colors, typography, photography, and our hallmark bricks. When combined appropriately and applied consistently, these brand elements help build and maintain a strong identity for OHIO.

**SIGNATURE BRAND LOGO**
- Whenever possible, the two-color logo should be positioned on a white, light-colored or non-cluttered background.
- On most printed marketing and communications materials the logo should be placed at 2-1/4” inches wide on the front cover whenever possible and the design allows. It is always to appear on the back cover, preferably at 2-1/8” wide. In both instances it is not to be used any smaller than 1-5/8”.

**BRAND COLORS**
- Two signature brand colors have been selected for the University, Ohio University Green and Ohio University Gray. By using these colors on all communication materials, they will become established and recognized as our own.

**BRAND TYPOGRAPHY**
- Use of the approved typography fonts Frutiger and Galliard help ensure the look of our printed materials remains consistent.

**PHOTOGRAPHY**
- Enriching, Student-Centered. These two words also set the tone for the look of OHIO. Photos portraying the beauty of the campus should be combined with students actively participating in the campus environment and engaged in the classroom and community.

**HALLMARK IMAGERY**
- Utilize images that distinguish each campus such as iconic structures on campus, photos that illustrate campus beauty, and photos of local landmarks that reflect the community spirit and engagement that distinguish regional campuses.
The University signature brand logo is the keystone of our visual identity and is to be used on all communications materials. Using it consistently will enhance the world’s recognition of who we are. This is the only approved two-color version of the signature in Ohio University Green, Solid Pantone® 342 and Ohio University Gray, Solid Pantone® 404.

Two elements make up the Ohio University signature:

1. Ohio University logo mark
2. Ohio University logo type

In signature form the logo mark and the logo type should always be spaced and aligned as shown above. **The logo mark is never to be used alone to represent the University.**

In exceptional cases where space dictates it is also stacked as shown above right. Please consult with the office of University Communications and Marketing before implementing this format on anything.

**SIGNATURE IN ONE COLOR**

The University signature may be reproduced in one color using any of the official identity colors. The order of preferences for one-color reproduction is: all Ohio University Green, all Ohio University Gray, and all black. The signature also may be “blind” embossed or foil stamped in silver or gold.

**SIGNATURE ON DARK OR COMPLEX Backgrounds**

The University signature should be used in all white whenever it is placed on a dark background. When using the signature on a complex background, it should be placed within a solid, single-color shape (e.g., a box or bar) to avoid confusion. Be sure that the shape does not intrude upon the mark’s clear zones.

**SIGNATURE CLEAR ZONES**

The clear zone is the width of the “I” in the University signature in negative space around all four sides of the logo. Only the official brand theme or contact information should be placed directly under the Ohio University logo.

The University signature brand logo is a trademark of the University. Anyone wishing to use this or any other trademark of the University must receive licensure or permission to do so from the office of University Communications and Marketing.

BRAND TYPOGRAPHY

Two typefaces — a serif and a sans serif — have been selected as the primary identification typefaces for the Ohio University brand. When used in conjunction with the OHIO signature, they reinforce our Brand Look. Both typefaces are suitable for a variety of communication materials.

Galliard is the primary font used in the Ohio University signature. The enduring classic nature of this font reflects the historic, enriching, authentic personality of OHIO. Frutiger allows for creative flexibility and enhanced readability and is symbolic of the collaborative, global and innovative personality of OHIO. No substitutions are permitted.

Fonts are licensed. The Galliard and Frutiger font families are available for both Windows and Macintosh platforms and are available through the Office of Information Technology at Ohio University.

Letters, memos, reports, and other materials created on personal computers should be developed using Galliard (no smaller than 10 point).

HALLMARK IMAGERY
The images that are chosen to portray each campus are just as important as the words chosen to convey its brand. Because each campus is unique, it is important for landmark buildings and settings to be reflected in the photos. When used consistently and with subtlety, they serve as a recognizable hallmark of Ohio University Chillicothe.

When taking and selecting photos of students, the images should be of people who are engaged within their surroundings. For example, candid photos of students and faculty who are involved in classroom or campus settings, like those shown here, are preferred over staged or manufactured images. When possible, utilize photos that have the warm, welcoming appearance of photos taken in early morning and late afternoon. It is important to maintain an age, gender, and ethnic balance in the photo subjects.

For information on utilizing the University photo archives, please contact the Ohio University Communications and Marketing Department.

BANNERS

Established in 1804, Ohio University is the oldest university in the Northwest Territory. Over the course of its history, our University has earned a reputation for its rich educational tradition and outstanding academic programs. The Office of University Communications and Marketing (UCM) and the Office of Information Technology (OIT) have have developed a set of guidelines to strengthen Ohio University’s online presence.

Use of the Ohio University Web Styleguide ensures the institution is promoted in the best and most consistent way. In this styleguide are approved banners, downloadable University-approved logos, and a color palette of both primary use and secondary use colors. By using these elements as part of your Web presentation, collaboratively we create better recognition of the Ohio University brand.

If we can be of further support or you feel you need additional resources to help promote Ohio University, Stephanie Elmore may be contacted at: elmores@ohio.edu.

HEADER

Standard depth header

Narrow depth header available for use in green (shown above), grey, and black.
Secondary Footer
An option for additional information to be added to the top of the footer on the page.

Sites and pages built within CommonSpot, the University’s official content management system, will already include the standard banners described above.

All official Ohio University Web pages are required to carry the Ohio University banners described above and the University Signature in the top left corner and will be coded as a link back to the main site. All Web pages clearly marked as archived are exempt from this requirement. Ohio University Athletic sites and pages are exempt from this as well. (Please see the section “University Logos” for explanation of logo use both institutional and athletic.)
**LOGOS**

**USAGE AND SIZE OF THE OHIO UNIVERSITY SIGNATURE**
Wherever the Ohio University signature graphic is used, it must be one of these approved images and used no smaller than 154 pixels in width. Always scaled proportionately and in the approved colors as shown.

**Horizontal:** the preferred logo signature for use of the two ways shown below:

![Horizontal logos](image)

**Stacked:** In exceptional cases such as buttons and where the horizontal version will decrease the logo signature’s legibility it is also stacked as shown below. Please consult with the office of University Communications and Marketing before implementing this format on anything. (Also see page 14 of this guide.)

![Stacked logos](image)

Though technology is available which allows for many options such as animation and 3-D modeling, it is not appropriate to apply these techniques to any components of the Ohio University signature. Any distortion of the identity marks dilutes and confuses the University’s image.

These graphics may not be altered or changed in any way. If the logos provided do not meet your specific needs, Stephanie Elmore may be contacted at: elmores@ohio.edu.

For pages and applications in the Web environment, never use the logomark without the logotype.
LOGOS

Clear Zones for the Ohio University signature is the width of the “I” in the Ohio University signature (or 5 pixels on all sides). Maintain this minimum distance proportionately between any part of the signature and any other elements appearing with it and/or the edge of the page. The logos provided here have the 5 pixel gutter included in the graphic. They are not to be cropped.

For any additional assistance in selecting and obtaining a logo for use on your Web site Stephanie Elmore may be contacted at: elmores@ohio.edu.

The Ohio University Seal will be used to authenticate the highest official University documents (e.g., diplomas and legal documents). It may be used on other materials only at the discretion of the president and the Board of Trustees.

The University seal should never be substituted for the Ohio University signature or logo type. (Also see page 17 of this guide.)

The Ohio University Athletics Mark known as the “Attack Cat” is confined to use in direct association with Intercollegiate Athletics only. The “Attack Cat” and the “OHIO” typography that accompanies its use are not to be substituted for the University signature or logo type for institutional or academic purposes. It is not available for use as a background or as part of a logo for any non-athletic department. (Also see page 18 of this guide.)
Color is a critical element in creating a memorable and lasting identity. It can be used to link certain information, and to offer the viewer visual cues for continuity and/or differentiation. Using these color palettes will lend consistency throughout Ohio University’s Web pages.

Our primary palette consists of 006a4e [green] and 7c7369 [grey] for the institution. The Department of athletics uses 006a4e [green] and d3aa85 [tan].

To introduce visual variety to our communications we look to a secondary color palette. With this palette we are suggesting a way to add accent to communications which already carry the primary color(s). By consistently using this secondary palette, we establish continuity for our brand in the higher education marketplace. With a wide variety in choices, the secondary palette makes it easy to find accent color(s) to introduce in your Web communications.

By maintaining this select set of color use as an institution we consistently reinforce our identity not only on the Web but in print and video as well. (Also see pages 15 and 16 of this guide.)

PUNCTUATION

1. Periods
   1.1 With abbreviations:
   Use periods when abbreviating academic degrees.
   EXAMPLE:
   Dr. Bond received her B.A., M.A., and Ph.D. from the University of Pennsylvania.
   And with lower case abbreviations:
   EXAMPLES:
   The workshop will be held from 9 a.m. to 4 p.m.
   Periods are not used with acronyms, which are uppercase.
   EXAMPLES:
   WOUB, OPIE, CBA, ROTC, ISFS
   (See also section 12. “Abbreviations”)

1.2 With run-in heads
   Use a period when the heading is at the beginning of a paragraph:
   EXAMPLE:
   Graduate Survey Requirement. Each candidate will complete at least one graduate survey course.

1.3 With lists
   Listed information conveyed in sentence form should be punctuated with periods.
   EXAMPLE:
   To participate in commencement:
   1. You will need to apply for graduation by the March 1st deadline.
   2. You will need to arrange to rent or purchase a graduation gown.

2. Commas
   2.1 With a series
   Use a comma before the words “and” and “or” in a series of three or more
   EXAMPLE:
   The program is available to sophomores, juniors, and seniors.
   EXAMPLE:
   The keynote speaker at this year’s Spring Literary Festival, Mr. Smith noted that he dedicated his latest book to his parents, Cuba Gooding Jr., and Michelle Obama.
   Note: Using the final comma makes it clear to the reader that the book is dedicated to Cuba Gooding Jr. and Michelle Obama in addition to the author’s parents. (Without the final comma separating the elements, the reader may be left with the impression that Cuba Gooding Jr. and Michelle Obama are the author’s parents.)
   EXAMPLE:
   Students must take three courses each in the areas of history, English, and classics and world religions.
   Note: Without the comma separating “English” from “classics and world religions,” the course groupings are not clear. Is “classics” part of the English major or the world religions major? Using the serial comma consistently makes it clear that courses in classics are grouped with and part of the world religions major.
2.2 With numbers
Place a comma after digits signifying thousands: 1,150 students; except when reference is made to an SAT score or temperature: 3200 degrees.

2.3 With quotations
Follow a statement that introduces a direct quotation of one or more paragraphs with a comma. But use a colon after “as follows.”

EXCEPTIONS:
Dorothy Parker’s epitaph reads, “Pardon my dust.”
Dorothy Parker’s epitaph reads as follows: “Pardon my dust.”

2.4 With introductory words
Introductory words such as “to wit,” “namely,” “i.e.,” “e.g.,” and “viz” should be immediately preceded and followed by a comma.

EXCEPTIONS:
International students are required to submit proof of identity, e.g., a passport, immunization record, a visa, or some other form of identification.

2.5 With dates
When writing a date, place a comma between the day, if given, and the year, but do not place a comma between the month and year when the day is not mentioned.

EXAMPLE:
November 1945

2.6 With academic semesters and terms
The comma is omitted when citing academic quarters or terms.

EXAMPLES:
spring 1992
fall 2012

2.7 With telephone numbers
Area codes and other codes for telephone numbers are to be set off from the phone number with a period.

EXAMPLES:
740.654.6711
800.654.3756
3. Hyphens
3.1 Hyphenating compound words
Use a hyphen in compound adjectives that come before the words they modify.

EXAMPLES:
full-time student
grade-point average
upper-division course
part-time faculty
out-of-state tuition

Do not hyphenate words such as:
African American
Latin American
Native American

3.2 Hyphenation with prefixes
Words beginning with “non,” “anti,” “sub,” “co,” and “pre” usually can be combined without a hyphen.

EXAMPLES:
nontraditional, nondenominational, coeducational, antinuclear, substandard, premedicine, prephysical therapy, precollege

Use the nonhyphenated spelling if either spelling is acceptable.

Exceptions
Hyphenate words when a prefix causes confusion in reading the word that follows.

EXAMPLES:
pre-enroll, not preenroll
re-enroll, not reenroll
pre-engineering, not preengineering
co-op, not coop
non-alumni, not nonalumni

4. Quotation Marks
4.1 Used with other punctuation
Quotation marks should be placed outside a period or comma, but inside a colon or semicolon. They should also be set inside exclamation points and interrogation marks that are not part of the quotation.

EXAMPLES:
The chapter “A Review of Production Standards,” which provides an in-depth analysis of these events, has been updated for the most recent edition of the book.
The production company had only two reservations about The Bionic Hamster: the cost and the time needed to complete the special effects.
What did you think of the last episode of “Seinfeld”?

4.2 Quotes within quotes
Use single quotation marks for quotations printed within other quotations.

EXAMPLE:
The speaker replied, “I follow Emerson’s dictum, ‘A foolish consistency is the petty hobgoblin of small minds,’ to its logical extreme.”
4.3 Block quotations
If several paragraphs are to be quoted, use quotation marks at the beginning of each paragraph, but at the end of the last paragraph only.

5. Apostrophes
5.1 With dates
In making the plural of dates, do not use an apostrophe before the “s.”
   EXAMPLES:
   in the early 1800s
   in the ’60s and ’70s

5.2 With class year
Use the apostrophe to punctuate years of college classes.
   EXAMPLE:
   Class of ’92

5.3 With degrees
Associate’s, bachelor’s, and master’s degrees, when used generically, should be written with an “’s.”
   EXAMPLES:
   master’s degrees, not masters’ degrees
   associate’s degree, not associate degree

5.4 With possessives
The possessive case of singular nouns is formed by adding “’s”; the possessive of plural nouns by adding an apostrophe only.
   EXAMPLES:
   the horse’s mouth, the puppies’ tails; the children’s books

The general rule above also covers singular nouns and proper names ending in “s” (with the exception of “Jesus” and “Moses,” which add just the apostrophe):
   EXAMPLES:
   Burns’s poetry
   McDavis’s speech
   Dickens’s novels

5.5 With possessives in titles
The apostrophe is dropped from possessives when they become part of official designations or titles.
   EXAMPLES:
   Founders Day
   Sibs Weekend
   Moms Weekend
   Dads Weekend
   Parents Weekend
   Ohio University Visitors Center
   Dean of Students Office
   Founders Citation

An exception to this style is “women’s studies,” which retains its apostrophe.
6. Dashes
An em dash (long dash —) can be used to help provide emphasis or set off additional explanation.
They look forward to seeing their class year etched in brick—representing their shared commitment to the University's values—when they return to campus in the future.
The influence of key figures in Ohio University's beginnings—including Cutler, Putnam, and Lindley—is still felt on campus today.
An en dash (medium-sized dash –) is used to connect continuing or inclusive numbers, such as dates, times, or reference/page numbers.
EXAMPLES:
10 a.m.–5 p.m.
pp. 9–17

7. Capitalization

best man for the job—best candidate
man-made—synthetic, manufactured
