Advanced Placement Classes

College Board supports the Advanced Placement Program. A high school teacher teaches the course at the high school and the courses are part of the high school scheduling process. The student earns high school credit as well as possible exemption from some college’s coursework if the student demonstrates mastery through an AP test with a score between 3 and 5.

College Credit Plus (CC+) Program

The College Credit Plus Program allows public, nonpublic, and home-schooled students the opportunity to earn college and/or high school credit through successful completion of college courses. Students can select from Option A or Option B. Students must test college ready in English and reading on the campus placement test or have the corresponding ACT or SAT sub scores. Students who wish to enroll in a math course or any course with a math requisite must also demonstrate remediation-free status in math by placing into Tier I Math or by achieving the corresponding ACT or SAT math sub score. If an applicant is not admitted due to low scores on the placement test, he or she may re-apply the following school year. See application for further admission requirements. Attend a CC+ Information Session at OHIO Chillicothe to learn more!

Option A - The student/parent is responsible for payment of tuition, textbooks, and supplies. The student may enroll to receive college credit only or high school credit and college credit.

Option B - Under Option B, general fees, tuition, and textbooks will be paid indirectly by the local school district for admitted students. A student successfully passing a course will be given both college and high school credit.

Applications are available online or in the High School Counselor’s Office. The application deadline is April 1 for summer semester, May 1 for fall semester, and November 1 for spring semester. Applicants to the spring semester must notify their secondary school of their intent to participate by April 1 of the school year prior to the year they wish to enroll.

Steps to Enroll

1.) Complete a CC+ application and submit the form to the Recruitment Office at OHIO Chillicothe.
2.) Submit official high school and college transcripts.
3.) Submit qualifying ACT/SAT scores or register to take the campus placement test. Students must place remediation-free in English and reading.
4.) Attend a mandatory orientation session. All students will be notified via mail.

Want to get a head start on your college experience?

High school students now have more options that allow them to pursue a college education and a high school diploma simultaneously.

Full-time and part-time options are available and many schedules can accommodate sports and other extracurricular activities.
