ADMISSIONS CRITERIA & APPLICATION PROCEDURES

Introduction to Admissions:

Applications are considered on an ongoing basis to studies in the Doctoral Program and the Principal Preparation Program cohorts, which tend to begin every other year. Entrance into the programs typically can be obtained in even numbered years (e.g., 2010, 2012, and 2014). However, exceptions are considered.

The Principal Preparation Program cohorts begin their studies in the summer (i.e., in June). The Doctoral Program cohorts begin their studies during the fall, (i.e., in September).

Applications are also considered on an ongoing basis for studies in the Superintendent License Program and the General Master’s Degree. The Superintendent License cohorts typically begin their studies in the fall. Studies in the General Master’s Degree can be initiated in any term.

Submission of the application materials approximately three months in advance of the anticipated beginning of studies in a program enhances the likelihood that a student will gain admission in a timely manner.
