

Department of Teacher Education
The Patton College of Education Ohio University
Curriculum & Instruction
~ Online ~

This program is designed for practicing teachers who want to advance their professional skills in teaching to support student learning. The online format will enable each teacher to use his or her own classroom as a clinical laboratory during the school year. We begin with coursework in the summer and then continue with project and portfolio development during the school year. Those who begin in Summer may complete the master's degree (M.Ed.) the following summer.

Teacher Education programs at Ohio University are fully accredited by the [Council for the Accreditation of Educator Preparation \(CAEP\)](#). Curriculum & Instruction is an "Advanced" program (reserved for practicing teachers who already have a teaching license or certificate). We align with local, state and national standards for teacher preparation and continuing professional development, including:

- Ohio University Unit for the Preparation of Education Professionals (U-PEP): [Conceptual Core](#)
- [Ohio Standards for the Teaching Profession](#) (see "Standards for Ohio Educators")
- The National Board for Professional Teaching Standards (NBPTS): [Core Propositions](#)
