‡ Reporting standards not met; insufficient number of cases.

For the purposes of this table, "STEM²" classification includes teaching fields that are consistent with a less-strict definition of "STEMM," encompassing more fields typically found at two-year colleges.

Science fields include Agricultural, animal, food and plant sciences; Renewable natural resources; Other agriculture; Biochemistry; Biology; Botany; Genetics; Immunology; Microbiology; Physiology; Zoology; Biological sciences, other; Astronomy; Chemistry; Physics; Earth atmosphere and oceanographic; Physical sciences, other; Psychology; Social sciences, general; Anthropology; Archeology; Area and ethnic studies; Demography; Economics; Geography; History; International relations; Political science and government; Sociology; and Other social sciences.

Technology fields include Computer and information sciences; Other computer science; Engineering-related technologies; and Science technologies.

Engineering fields include Architecture and environmental design; Engineering, general; Civil engineering; Electrical and communication engineering; Mechanical engineering; Chemical engineering; and Other engineering.

Mathematics fields include Mathematics/Statistics.

Medicine fields include Dentistry; Medicine, including psychiatry; Nursing; Pharmacy; Public health; Veterinary medicine; and Other health sciences.

For the purposes of this table, "STEM²" classification includes teaching fields that are consistent with a less-strict definition of "STEM," encompassing more fields typically found at two-year colleges.

Science fields include Agricultural, animal, food and plant sciences; Renewable natural resources; Other agriculture; Biochemistry; Biology; Botany; Genetics; Immunology; Microbiology; Physiology; Zoology; Biological sciences, other; Astronomy; Chemistry; Physics; Earth atmosphere and oceanographic; Physical sciences, other; Psychology; Social sciences, general; Anthropology; Archeology; Area and ethnic studies; Demography; Economics; Geography; History; International relations; Political science and government; Sociology; and Other social sciences.

Technology fields include Computer and information sciences; Other computer science; Engineering-related technologies; and Science technologies.

Engineering fields include Architecture and environmental design; Engineering, general; Civil engineering; Electrical and communication engineering; Mechanical engineering; Chemical engineering; and Other engineering.

Mathematics fields include Mathematics/Statistics.

Medicine fields include Dentistry; Medicine, including psychiatry; Nursing; Pharmacy; Public health; Veterinary medicine; and Other health sciences.

For the purposes of this table, "STEM2+" classification includes teaching fields that are consistent with a less-strict definition of "STEMM," encompassing more fields typically found at two-year colleges.

Science fields include Agricultural, animal, food and plant sciences; Renewable natural resources; Other agriculture; Biochemistry; Biology; Botany; Genetics; Immunology; Microbiology; Physiology; Zoology; Biological sciences, other; Astronomy; Chemistry; Physics; Earth atmosphere and oceanographic; Physical sciences, other; Psychology; Social sciences, general; Anthropology; Archeology; Area and ethnic studies; Demography; Economics; Geography; History; International relations; Political science and government; Sociology; and Other social sciences.

Technology fields include Computer and information sciences; Other computer science; Engineering-related technologies; and Science technologies.

Engineering fields include Architecture and environmental design; Engineering, general; Civil engineering; Electrical and communication engineering; Mechanical engineering; Chemical engineering; and Other engineering.

Mathematics fields include Mathematics/Statistics.

Medicine fields include Dentistry; Medicine, including psychiatry; Nursing; Pharmacy; Public health; Veterinary medicine; and Other health sciences.

‡ Reporting standards not met; insufficient number of cases.

For the purposes of this table, "STEM²" classification includes teaching fields that are consistent with a less-strict definition of "STEMM," encompassing more fields typically found at two-year colleges.

Science fields include Agricultural, animal, food and plant sciences; Renewable natural resources; Other agriculture; Biochemistry; Biology; Botany; Genetics; Immunology; Microbiology; Physiology; Zoology; Biological sciences, other; Astronomy; Chemistry; Physics; Earth atmosphere and oceanographic; Physical sciences, other; Psychology; Social sciences, general; Anthropology; Archeology; Area and ethnic studies; Demography; Economics; Geography; History; International relations; Political science and government; Sociology; and Other social sciences.

Technology fields include Computer and information sciences; Other computer science; Engineering-related technologies; and Science technologies.

Engineering fields include Architecture and environmental design; Engineering, general; Civil engineering; Electrical and communication engineering; Mechanical engineering; Chemical engineering; and Other engineering.

Mathematics fields include Mathematics/Statistics.

Medicine fields include Dentistry; Medicine, including psychiatry; Nursing; Pharmacy; Public health; Veterinary medicine; and Other health sciences.

For the purposes of this table, "STEMM*" classification includes teaching fields that are consistent with a less-strict definition of "STEMM," encompassing more fields typically found at two-year colleges.

Science fields include Agricultural, animal, food and plant sciences; Renewable natural resources; Other agriculture; Biochemistry; Biology; Botany; Genetics; Immunology; Microbiology; Physiology; Zoology; Biological sciences, other; Astronomy; Chemistry; Physics; Earth atmosphere and oceanographic; Physical sciences, other; Psychology; Social sciences, general; Anthropology; Archeology; Area and ethnic studies; Demography; Economics; Geography; History; International relations; Political science and government; Sociology; and Other social sciences.

Technology fields include Computer and information sciences; Other computer science; Engineering-related technologies; and Science technologies.

Engineering fields include Architecture and environmental design; Engineering, general; Civil engineering; Electrical and communication engineering; Mechanical engineering; Chemical engineering; and Other engineering.

Mathematics fields include Mathematics/Statistics.

Medicine fields include Dentistry; Medicine, including psychiatry; Nursing; Pharmacy; Public health; Veterinary medicine; and Other health sciences.

For the purposes of this table, "STEMM*" classification includes teaching fields that are consistent with a less-strict definition of "STEMM," encompassing more fields typically found at two-year colleges.

Science fields include Agricultural, animal, food and plant sciences; Renewable natural resources; Other agriculture; Biochemistry; Biology; Botany; Genetics; Immunology; Microbiology; Physiology; Zoology; Biological sciences, other; Astronomy; Chemistry; Physics; Earth atmosphere and oceanographic; Physical sciences, other; Psychology; Social sciences, general; Anthropology; Archeology; Area and ethnic studies; Demography; Economics; Geography; History; International relations; Political science and government; Sociology; and Other social sciences.

Technology fields include Computer and information sciences; Other computer science; Engineering-related technologies; and Science technologies.

Engineering fields include Architecture and environmental design; Engineering, general; Civil engineering; Electrical and communication engineering; Mechanical engineering; Chemical engineering; and Other engineering.

Mathematics fields include Mathematics/Statistics.

Medicine fields include Dentistry; Medicine, including psychiatry; Nursing; Pharmacy; Public health; Veterinary medicine; and Other health sciences.
