	<i>EDSP 6720 Universal Design [Adv. Differentiated/Instructional Adaptations]</i> (Offered only in Summers)	3

*\*You can also choose to do 4 summer courses the first summer in order to finish earlier.*

**\*\*Bold courses are considered the core courses.**

*\*Italicized courses can be taken in either the first or second summer in any order. Besides these italicized courses, there is an option to take other courses if you want to develop a specialization or area of concentration. This will result in going beyond 30 hours. Consult with your advisor.*

*\*It is fine to take just one course a semester. However, if you are applying for federal loans, you must be registered for at least 5 credit hours per semester. You can request and take two credit hours of independent study to reach the needed 5 hours. It would be better to add a course each fall and spring and develop a specialization or concentration or could be used for the +30 beyond a Master's degree in some States for their salary scales. Consult with your HR officers. Again, this will result in going beyond 30 hours required for this degree.*
