HAPPY NEW YEAR!

I reviewed the Returned Peace Corps calendar, which has at least one holiday listed for every day of the year, and found seven different dates for New Year. There is the Orthodox New Year, January 14th, the Chinese New Year, February 8th, Rosh Hoshana (Jewish New Year), October 2nd-3rd, the Sikh New Year, March 14th, the Ethiopian New Year, September 11th, the Islamic New Year, October 3rd, and, of course, the Western New Year, January 1st. There may be one or two more, which I missed. I know that the Peace Corps Calendar is not authoritative on this subject, but it is pretty good. And consider it—we could celebrate a holiday every day. There are a lot of independence days and holidays such as Aldo Leopold’s birthday, January 11th; Surva Kukeri Day (Bulgaria), January 29th; Horses Day (Mozambique), February 3rd; and Magna Carta Day, June 15th. I am sure everyone could find a few which would be especially important to each one of us.

Frankly, I do not know how the Western calendar got established or why. We have adopted January 1st as New Year’s Day. There is no point in worrying about it; one day is as good as another. The crucial thing is that we celebrate the passage of time, we look back upon what we could have accomplished during the past year, and look forward to the possibilities that a new year offers. I hope that everyone looks back on 2015 with satisfaction and looks forward to 2016 with anticipation. I do.

Alan

Notes on December’s Luncheon Presentation by Kelly Burns
“THE TROUBLE WITH TREBLES IN TROUSERS”

The “treble” referred to in the title is the countertenor voice in singing which is roughly in the same range as the female contralto or mezzo-soprano, or about a third higher than a tenor. Before the 17th century females were not allowed to sing in church so the high voice was needed. Afterwards, women began to join church choirs and the need for the countertenor declined.

It has re-emerged during the past fifty years in such people as Alfred Deller in England (https://www.youtube.com/watch?v=trOXaDeFeD4) and Andreas Scholl (https://www.youtube.com/watch?v=teDVFRjrOvA).
