

COOPERATIVE EDUCATION REPORT

Each year, Russ College students participate in co-ops—salaried positions at various companies where they gain real-world experience and perspectives on career paths. For the 2005–2006 academic year, nearly 200 students worked more than 200 different assignments. Mechanical engineering students once again led the pack, with nearly 100 different assignments worked among them.

The Russ College thanks its co-op employers for their commitment to engineering and technology education. To get your company involved as an employer, contact the Russ College Cooperative Education office at www.ohio.edu/engineering/coop, or call 740.593.1618.
