The Russ College of Engineering and Technology at Ohio University invites applicants for a Visiting Stocker Professor in the Industrial and Systems Engineering (ISE) Department. The position will last for a period of up to two years.

RESPONSIBILITIES

The visiting scholar will be expected to provide additional depth and breadth for research and education in the department, broaden horizons of our students and catalyze new collaborations among the faculty. The successful candidate will involve students at the Ph.D., M.S. and B.S. level, contribute to peer-reviewed publications and help to enhance the reputation of the Department, College, and University at the national and international level. Candidates should also be able to significantly contribute to the encouraging, supportive, collaborative environment students find in the Russ College, where we “create for good.”

QUALIFICATIONS

Candidates must have a doctoral degree in a relevant field, at least ten years of experience, established record of high-quality research and scholarship, and collegiate teaching experience.

RANK, SALARY AND BENEFITS

This position provides a competitive salary, travel budget, plus excellent benefits including educational benefits for employee and eligible dependents. Research and other activities in the Russ College are supported in part by a $124 million estate gift from Fritz J. and Dolores H. Russ.

Position will remain open until filled; for full consideration please apply by December 1, 2014.
