

Steam Outage Information

2017 Outage Dates: May 8th-19th

2018 Outage Dates: May 7th – 18th

During the above dates, the entire campus will be without steam. This will affect the air conditioning capabilities at Ping, Morton, and Alden. In other buildings there may be temperature variations depending upon their system capabilities. Additionally, any special equipment relying on steam to function will be inoperable (for example, some autoclaves are reliant upon steam).

This outage also affects the production of domestic hot water in many of our buildings, including residence halls. The following is a list of Residence Halls that WILL have hot water during the outage:

There are a number of dormitories that have in building hot water heaters and are not reliant on the heating plant for hot water. They are:

For CY17

- Adams Hall
- Armbruster House
- Atkinson House
- Bromley Hall
- Brown Hall
- Crawford Hall
- Dougan House
- Ewing House
- Hoover House
- James Hall
- Mackinnon Hall
- Pickering Hall
- Smith House
- True House
- Weld House
- Wray House

CY18 building list will change. It will include Jefferson and should include all of the East Green dorms if that project is completed.

Questions should be directed to Facilities Work Center, 740-593-2911.
