Pursuant to Resolution 2011-3245, which was passed by the University’s Board of Trustees on
November 18, 2011, the President was authorized to sign on behalf of the university all contracts and
other documents in which the University incurs or discharges a legal obligation. In an amended and
restated directive dated February 15, 2017, the President delegated to the Vice President for Finance
& Administration ("VPFA") authority to sign (i) all agreements in which the University pays or receives
money or other consideration and (ii) all contracts involving the payment or receipt of amounts
greater than $1,000,000 that were not previously approved as part of a university budget, as cosigner
with the President. As a result, the VPFA is solely responsible for all agreements and contracts that
meet these definitions and include but are not limited to the following:

i. procurement of supplies and services, including consulting services,

ii. equipment leases;

iii. leases for space (in cases where the University is either landlord or tenant),

iv. agreements for the purchase, sale, or gift of real estate, regardless of the price,

v. agreements for the sale of university goods or services, regardless of the price, including
   university consulting services; and the sale of any university asset, including contractual
   rights and privileges,

vi. research subcontracts for an aggregate amount greater than $50,000 awarded to any one
    vendor in a 12 month period,

vii. agreements in which obligations of other entities are modified or excused (other than legal
     settlements),

viii. the establishment of banking, securities, and other financial accounts or financial guarantees,

ix. construction contracts,

x. utility agreements,

xi. jointly with the Executive Vice President and Provost, Academic Agreements that involve the
    expenditure or receipt of funds.

Pursuant to University practice, the VPFA has delegated approval authority for execution of certain
contracts to department administrators and managers. A listing of the positions with proper authority
for the aforementioned contracts and any delegations are listed on Exhibit A.
Individuals who are authorized to approve these transactions should have a complete understanding of the proposed terms of the agreements and, as a prerequisite to signature, should determine that:

- the transaction serves the best interests of the University as a whole and not those of an individual unit; the responsible unit has the resources and the ability to perform its obligations under the agreement;
- the risks presented to the University are reasonable in light of the benefits;
- the interests of the University are adequately protected in the event of a default by the other party;
- the information and supporting documentation is accurate and complete;
- all applicable contracting procedures of the University, including competitive bid requirements, have been complied with;
- there are adequate funds to cover any expense and that the funding source is appropriate for the expenditure;
- appropriate routing processes have been followed;
- all agreements have been reviewed by Legal Affairs or that a contract template approved by Legal Affairs is being used; and
- a properly completed Contract Review or Approval Routing Form is attached to the execution copy.

Inquiries regarding (i) completion of the Contract Review or Approval Routing Form or (ii) the appropriate signatory or routing process for agreements, whether listed on Exhibit A or not, should be directed to Procurement Services.
