Things to keep in mind:

Please be considerate, it is difficult enough to navigate NY alone. However, with 15 variables, I will be burdened with anxiety, even if you aren’t. Thank you for following the these requests:

- be punctual, we should only enter the host design firms together,
- stragglers can catch-up at the next location
- inform me of any deviations to the agenda
- no hangovers, or sleeping during studio presentations
- prepare intelligent questions, let’s make a list!
- wear comfortable shoes, we will be doing a lot of walking
- be prepared for rain
- business casual is being recommended, no blue jeans w/ holes, 100% cotton, guys: loose fitting jacket, J.Crew sensible, women: packing/travel savvy stuff, dark colors. In general appear to be street wise!
- Bars can be expensive, $3+ a beer
- Tips are 15%, when figuring out how much you owe on a bill made out for the table just add 25¢ per $1. This will cover tax and tip.
- If you are not street savvy, don’t talk to the street people, it could get ugly!
