CULTURAL AND ARTS EVENTS

Ohio University hosts hundreds of cultural and arts events throughout the year. The University Performing Arts Series offers touring Broadway musicals, performances by nationally known classical, bluegrass, and folk musicians, and cultural events such as concerts by international dance troupes. The Athens International Film and Video Festival offers a week of independent and international movies and documentaries by up-and-coming artists. In addition, the university’s Kennedy Museum of Art features significant collections of southwest Native American textiles and jewelry, as well as a renowned contemporary print collection.

INTERNATIONAL COMMUNITY

More than 1,700 international students come to Ohio University from more than 140 countries, creating a diverse, welcoming community. A wide variety of international events take place on campus every year, including academic conferences, internationally focused guest lectures, and international holiday celebrations, dinners, and dances. The annual International Week, sponsored by the International Student Union, is one of the most popular events each year. The week concludes with the International Street Fair—a daylong, community-wide celebration of international food, culture, and the arts.
WIDE VARIETY OF ACADEMIC DISCIPLINES

Established in 1804, Ohio University is the oldest public institution of higher learning in the state of Ohio. The university offers more than 200 master’s and 99 doctoral programs in the colleges of Arts and Sciences, Business, Scripps College of Communication, Gladys W. and David H. Patton College of Education, Russ College of Engineering and Technology, Fine Arts, Health Sciences and Professions, Center for International Studies, and the Voinovich School of Leadership and Public Affairs.

More than 1,000 full-time faculty members lead these programs, and the small student-to-faculty ratio ensures that graduate students can have a strong, one-on-one mentorship with world-renowned scholars. The small student-to-faculty ratio ensures that graduate students can have a strong, one-on-one mentorship with world-renowned scholars. The University is accredited by the North Central Association of Colleges and Schools and a number of professional accrediting associations.

WORLD-CLASS FACILITIES AND RESOURCES

Research, Scholarship, and Creative Activity. Ohio University is classified by the Carnegie Foundation as a high activity research institution. Students at all levels work with faculty on a broad range of research areas such as energy and the environment, health and wellness, communication, and arts and humanities. These research programs are supported in state-of-the-art laboratories and innovative research facilities such as the Aesthetic Technologies Laboratory, Avionics Engineering Center, Center for International Business Education and Development, Edison Biotechnology Institute, Edwards Accelerator Laboratory, Game Research and Immersive Design Lab, Institute for Sustainable Energy and the Environment, Nanoscale and Quantum Phenomena Institute, and many more.

Ohio University is a leader in taking inventions from the laboratory to the marketplace. Forbes magazine recently ranked the institution 4th in the country for the amount of licensing revenue generated in relation to research funding. The university’s African Studies program is a designated Department of Education National Resource Center.
