ABOUT THE PROGRAM

The Masters of Science in Athletic Training is a one-year (three semester) or two-year (five semester) program that begins with a summer semester. Students who receive stipends and tuition waivers must be licensed as an AT. Clinical services are provided on-campus (intercollegiate athletics and campus recreation) and in area high schools and colleges. The Program is accredited by the National Athletic Trainer’s Association.

PROGRAM GOALS

Our mission is to promote and advance the athletic training profession through academics, scholarship, and practice. The program strives to provide advanced systematic study, innovative research opportunities, leadership development, teaching experiences, and professional service. An emphasis is placed on personal and professional development.

RESEARCH/CREATIVE ACTIVITY AREAS

The program emphasizes translational research that has immediate applicability to clinical practice. Research topics include the reliability of traditional measurements used for concussion diagnosis and developing evidence-based diagnostic and intervention procedures. Students have the option of completing a one- or two-year project or a two-year thesis.

SCHOLARSHIP: PRIZES, RESEARCH EXPENDITURES

Graduate students have presented their research at state, district, and national symposia and have had their research supported through external grants. The program also annually receives in excess of $230,000 in external funding.

FACILITIES

The program makes use of teaching and laboratory space in Grover Center and clinical health care facilities in Peden Stadium, the Convocation Center, and Bird Arena. We extend our classroom and laboratories into the rural communities served by the Division.

GRADUATE PLACEMENTS/ACHIEVEMENTS

Ohio University athletic training alumni are found throughout the United States, Japan, and the European Union. Our graduates have become professional leaders, skilled professionals, educators, and researchers in every possible setting. Our rich history lends itself to a strong tradition and an unparalleled alumni network.
