Math Tutoring

Math tutors are available in the Math and Writing Lab for OUL students needing assistance with their math classes. An appointment is not necessary and tutoring is free to all students registered for a course at OUL. Students can walk in for help during the hours listed on this schedule for your math course. The Math and Writing Lab is located in Room 444 on the upper level of the library.

If you have any questions or problems, please contact Becky Parrish, Math and Writing Lab coordinator, at (740)681-3361 or parrishr@ohio.edu.

Math Tutoring Policies

- Remember to sign in on the log sheet each time you come in for help. The student receptionist will direct you to an available tutor who can help you with your class. Not all tutors can tutor every math class. You may request a specific tutor that you have worked with before.

- Bring all necessary materials such as textbooks and notes with you so that the tutors can see what you are working on in class.

- Bring in questions about problems you have attempted, problems worked in class, or a specific topic that you do not understand.

Remember math is learned by doing and by practicing work outside the classroom if you want to do well on your tests.

- Tutors cannot work any problems for you that will be graded as this is considered academic misconduct by the Student Code of Conduct at the university.

- If there are other students waiting, tutoring sessions may have to be limited to 30 minutes.

- Students can receive two hours of tutoring per week per course. This is to ensure that tutors are available to all students and that students are working independently outside of tutoring on their course work.

- Please remember that our tutors are students too. If there are questions that they cannot answer, you may need to ask your professor during their office hours.

- There are times when we may need to change the math tutoring schedule. If the schedule is changed, an up-to-date schedule is available from the receptionist.

Online Tutoring –Available 24/7

Go to: tutor.com/oulp. Once there, students new to tutor.com can create an account following the instructions on the page. You must use your OU email address. Tutor.com is free and can be used for: Math (up to Calculus I) as well as many other courses at OUL.
Math Tutoring for the Spring Semester 2017 – All tutoring is free to OUL students!

Math tutoring is available in the Math and Writing Lab in Room 444 on the upper level of the library on a walk-in basis. Please sign in with the receptionist. When other students are waiting for help, tutoring sessions may have a time limit of thirty minutes. There is a limit of two hours of math tutoring per week per course to ensure that tutors are available to help all students and that students are working independently outside of tutoring on their course work.
