**Add Content to Your Blackboard Course**

1. Within your Blackboard course, click the link or button for the content area you want to work with.
2. When the content area opens, you’ll see the Content Action Bar, which contains buttons labeled **Build Content**, **Create Assessment**, **Add Interactive Tool**, and **Assign Textbook**.
3. To add an item, move your mouse over the **Build Content** button. A box will appear with the content options.
4. Follow the on-screen instructions to create or upload content, then click **Submit**. Watch for a “success receipt” to appear in a green bar at the top of the page.

**Success: Content Item created.**
