Clearing the Cache for Internet Explorer

The following guide is meant to assist users in deleting the cache for Internet Explorer.

1. Open Internet Explorer.
2. Click on the Cog icon in the upper right hand corner.
3. From the list that appears click on Safety.
4. From the list that appears click on **Delete browsing history**.

5. From the box that appears, make sure that "Temporary Internet Files" is selected, and then click **Delete**.
