Making a Course Available to Students

When you are ready to make your course available to your students (which means that the course link will appear to students when they log in), please follow these steps:

1. In the Control Panel area, click **Customization**
2. Click **Properties** to reveal the “Properties” screen
3. In the “Properties” screen, scroll down to section 3 (“Set Availability”)
4. At the “Make Course Available” option, click the circle for **YES**
5. Click **Submit**
