Opting Into Sponsorship for the Guest Management System

The Ohio University Guest Management System allows Ohio University faculty, staff, and students to sponsor their guests on the university’s wireless network. You must opt into sponsorship by accepting the terms before you can sponsor a guest. This measure is in place to ensure that you are aware that you are responsible for your guest’s actions on the Ohio University network. Following these steps will allow the reader to opt into guest sponsorship.

Access the Guest Management System at https://webapps.ohio.edu/gnr

Login to the system with your Ohio ID and password by clicking the Login button in the center of the page, or by clicking the Login link in the upper-right corner of the page.

Select Manage Sponsorships in the left menu, and after reading the terms, select Continue.

A confirmation message will appear in the left menu that your account is eligible to sponsor guests.
