When faculty and staff are migrated to CatMail in the coming months, mobile phone & tablet users will need to adjust settings on their devices to access email. Instructions available at: www.ohio.edu/oit/email/CatMail/clients/mobile.cfm

If you are having any issues, visit the Bobcat Depot or call 740-593-1222 and a technician will walk you through the setup.

⇒ Your email storage quota will increase to 50 Gb.
⇒ You will be in the same calendaring system as your students so scheduling with them will be easier.
⇒ The web version of Outlook will be much more user-friendly. The new look will resemble Hotmail accounts. The new link to bookmark CatMail is CatMail.ohio.edu

December 17, 2014 - The December 9th OIT staff conversion from Exchange to CatMail was very successful! The migration process for 112 mailboxes was completed in a short period of time and with very few issues causing minor problems for the employees.

Technicians are analyzing the few reported issues to make corrections and ensure the rest of campus will have smooth sailing when they are converted from Exchange email to CatMail early in 2015. The important thing to remember is that your desktop version of Outlook will look virtually the same and all your contacts, calendars, folders, and rules will move with you. In addition, the conversion will require you to make some small settings adjustments in all your mobile devices.

Project team members have been keeping the OIT website up-to-date with current migration information and training materials. VISIT www.ohio.edu/oitech

Make sure you plan to come to a CatMail Preview presentation in the Friends of the Libraries room during the week of January 12th. OIT Staff will be on hand to tell you about the email improvements, to demonstrate the new features of the online web version of Outlook, and to answer any questions about the migration and the schedule.

The migration schedule will be published in January for the approximately 10,000 Exchange mailboxes yet to be converted to CatMail. The university will be migrated by college or department or by regional campus so that groups stay together.

Questions? Call 740-593-1222 or submit a communication request online: www.ohio.edu/oitech
CatMail Training Resources

All new CatMail information is available through the OIT website:
http://www.ohio.edu/oit/email/

There will be a new URL to login to the web version of Outlook:
https://catmail.ohio.edu

Mobile device setup
- iPhone delete & re-add
- Android delete & re-add
- IMAP & POP settings

https://www.youtube.com/user/OITatOhioUniversity

General upgrade information

Migration: Overview

- All of your existing mailbox data will be copied behind the scenes starting days or weeks before your migration.
- When your switch mail is made, all your data will be there waiting for you!
- Outlook should just work. Other software & devices might require updated settings.

Did you know?
Your email mailbox quota will increase to 50Gb with the CatMail upgrade!
