Phone Applications

Call History
Call History allows you to view information on the last 150 calls on your phone. An icon displays indicating the type of call:
- Received
- Placed
- Missed

The caller ID is displayed with the call icon. If the caller ID is unavailable, then the phone number is displayed. If the phone number is unavailable, then “Unknown” is displayed. All Call History items are integrated into one list and are ordered by time (latest to oldest). There is a 150 call limit per phone and not per line. For example, if a phone has multiple lines, the 150 call limit applies to all lines combined.
You can sort the Call History list by all lines, each line, or by missed calls. You can sort the call history for each line by selecting the individual line for which you want to see the call history, or select the All Calls soft key to see the merged history for all lines. You can also dial a number directly from the Call History list.

Phone Contacts
The Cisco Unified IP Phone provides you with access to the Ohio University Directory

Ohio University Directory
The Ohio University Directory contains University contacts that you can access on your phone.
You can dial calls from your corporate directory in two ways:
- When you are not on another call.
- When you are on another call.

Search for and Dial a Contact
1. Press the Contacts button.
2. Select Ohio University Directory. (Use the Navigation bar and button to scroll and select.)
3. Select any of these criteria to search for a co-worker:
   - First name
   - Last name
4. Enter the search criteria information, press the Submit soft key, and select a contact.
5. To dial, perform any of these actions:
   - Press the Dial soft key.
   - Press the Select button.
   - From the keypad, press the number that is displayed in the upper right-hand corner of the contact label.
   - Press the Speakerphone button

Personal Directory

Voice Messages
Voice messages are stored on your voicemail system.
You can:
- Personalize your voicemail
- Check for voice messages
- Listen to voice messages

Check for Voice Messages
Check for voice messages in any of these ways:
- Look for a solid red light on your handset.
- Look for a Message icon on a line label. The red background indicates that there are new voice messages. When you select a line with a Message icon, a Voicemail icon displays on the right side of the phone screen.

Listen to Voice Messages
To listen to voice messages, do one of the following:
- Press the Messages button.
- Follow the prompts to listen to your voice messages.

After you listen to your new voice messages, the message indicators are updated on the phone screen. If there are no new voice messages, the Message icon is removed from the line label, and the Voicemail icon is removed from the right side of the phone screen.

Video Calling
Two-way video is a feature on the new Cisco phones. Video calls are possible when both participants are on-campus and using a video-capable device. The video feature is only for two-way calls, it is not available for conference calls.
Video transmission is enabled by default. To stop transmitting video during a call, press the Video Mute button. To start transmitting video again, press the Video Mute button again.

To disable all video calls:
1. Press the Applications button.
2. Select Preferences. (Use the Navigation bar and button to scroll and select.)
3. Select Camera Settings.
4. Highlight Video and press Select button or Edit soft key.
5. Highlight Off and press Select button or Select soft key.
6. Press Apply soft key.
7. Press the Return soft key twice then the Exit soft key.
