

J. Warren McClure School of Emerging Communication Technologies Transfer Policy

You must meet the minimum college transfer requirements, one of which is an **earned g.p.a of at least 2.5**, to be eligible to apply for transfer into the School of Emerging Communication Technologies. You may apply for transfer at any time.

Enrollment in the School is limited to ensure quality instruction and advising. Additional transfer procedures may be adopted if enrollment should become a problem.

IMPORTANT: Depending upon the number of hours and courses already completed, transfer students may not be able to complete all their requirements within a four-year period. **If you are accepted into the School, you should expect to spend 2 years or more in order to fulfill all requirements.**

Steps to follow for admission:

1. Talking to the Director or Associate Director of the McClure School about the program is recommended, but not required.
2. Fill out a **Transfer Information Sheet** and **Application for Update of Program(s)** form available in a forms rack outside the School office and submit to:

McClure School of Emerging Communication Technologies
Schoonover Center, Room 361
Athens, OH 45701

3. Please be advised that while you will be considered a major for the School's internal purposes (you will be assigned an advisor, you can participate in the student group functions, etc.), transfer forms are processed by the Scripps College only through the 7th Friday of the semester, unless there is an error/delay on the College. This means you may have to go to your former college to pick up pre-registration material for one semester.
4. If you have any questions, please ask at the School Office or call 740/593-4890.

**J. Warren McClure School of
Emerging Communication Technologies**

Transfer Information Sheet

Date: _____

Name _____ Gender _____

Student ID No. _____ Birthdate _____

Home Address _____
