

WITCHES NIGHT OUT MIXOLOGY

MONDAY | 10/19 | 6PM TO 8 PM | \$45

Instructor: Tara Gillum

It is believed that some techniques of modern mixology stem from the world of magic. Skeptical?

This class will talk about ancient potions and medicines of long ago and how perhaps they are ancestors of some of your favorite modern libations. Everyone will make two cocktails and we will talk about the components and the comparison to witchcraft. Every student will also receive a free gift with your registration that will help you in cocktail creating at home.

***This is not a class on witchcraft. It is the comparison of potion making and cocktail making and how they are parallel. There will be no actual ceremony.**
