Course Selection and Availability

Admission to CC+ does not guarantee admission to specific courses. In accordance with the Ohio Revised Code, Ohio University must take care to give registration priority to its degree-seeking students while attempting to provide CC+ students with reasonable class choices. However, once a CC+ student has officially registered for a course they will not be displaced.

Not all level 1 courses listed are guaranteed to be offered on all of Ohio University's campuses or available online every semester. Please plan ahead by working with your academic advisor to create a schedule based on available course offerings. Participants in the CC+ program are encouraged to work closely with their college advisor and high school counselors to assure that they are taking the proper courses, including those necessary for high school graduation credit.
