## FROM ENVIRONMENTAL HEALTH AND SAFETY

Thank you for taking the time to read this year's annual fire safety report. This report, prepared annually by the Department of Environmental Health and Safety, is provided to meet the requirements of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act of 1998.

**You may obtain a copy of this report by contacting Environmental Health and Safety at (740) 593-1666 or by accessing the following web site:**

[https://www.ohio.edu/riskandsafety/docs/2018\\_CLERY.pdf](https://www.ohio.edu/riskandsafety/docs/2018_CLERY.pdf)

The Department of Environmental Health and Safety is charged with promoting a safe learning, working, and living environment for the University. Our health and safety programs provide services and guidance to campus students, faculty, staff, and visitors.

Our department provides a wide array of safety related services including programs in:

- Fire Protection
- Sanitation and Pest Control
- Industrial Hygiene
- Environmental Compliance
- Occupational Safety and Health

### **Annual Clery Act Security Report**

You may obtain a copy of this report by contacting the Ohio University Police Department at (740) 593-1911 or by accessing the following web site:

[https://www.ohio.edu/police/upload/Clery\\_Report.pdf](https://www.ohio.edu/police/upload/Clery_Report.pdf)

## **OVERVIEW**

The “Higher Education Opportunity Act” (Public Law 110-315) became law in August, 2008, requiring all United States academic institutions to produce an annual fire safety report outlining fire safety practices, standards, and all fire-related on-campus statistics related to student housing. The following public disclosure report details all information required by this law as it relates to Ohio University as outlined in the initial regulation; subsequent yearly reports will comply with the act as amended.

## **SCOPE**

The Annual Fire Clery Report is for the Ohio University campus located in Athens, Ohio.

## DEFINITIONS

- On-campus student housing facilities – student housing facilities that are owned or controlled by Ohio University, or are located on property that is owned or controlled by Ohio University, and is within the reasonably contiguous geographic area that makes up the Ohio University campus in Athens, OH.
- Fire – any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.
- F/A -Fire Alarm System – a central, building-wide alarm system that provides fire detection through the use of smoke and heat detectors, monitors fire suppression systems, sounds building-wide evacuation alarms, and is monitored by the Ohio University Police Department.
- S- Fire Sprinkler System – water based automatic fire suppression system.
- S/A - Local Smoke Alarm – a device that contains a smoke detector and an integrated audible alarm. When activated the local smoke alarm sounds an audible alarm but does not activate the facility fire alarm system and or send an alarm signal the Ohio University Police Department.

## ON-CAMPUS HOUSING FIRE SAFETY EQUIPMENT

At Ohio University, all of our residence halls are protected by fire detection and alarm systems which are centrally monitored 24 hours a day, seven days a week. The buildings are also equipped with either emergency generators or lighting fixtures that incorporate backup batteries which automatically activate to assure adequate egress lighting in hallways and emergency exit stairwells. Fourteen of our residence halls have full sprinkler systems. All fire safety systems and equipment are strictly maintained and tested in accordance with applicable national standards. A summary of the fire protection systems present in each residence hall is provided in *Appendix A*.

## FIRE SAFETY EDUCATION, TRAINING AND FIRE DRILLS

Upon request, all on-campus residents, including those with special needs, receive intensive and comprehensive fire safety training at the beginning of each semester. Each resident is required to review and comply with the requirements outlined in [Ohio University Student Housing Handbook](#), which includes information on fire safety and what appropriate action to take during a fire alarm or fire emergency. There is an emergency evacuation map posted on each floor to direct occupants to primary and secondary exits.

Fire drills are conducted each semester in all of the occupied residence halls in coordination with Ohio University's office of Environmental, Health and Safety. Fraternity and sorority houses that are located in Athens must follow the same procedures that apply to residence halls.

## SPECIFIC FIRE PREVENTION RELATED POLICIES AND PROGRAMS

- **Policy 44.105: Fire Emergencies**, affirms procedures that students must evacuate the building upon fire alarm activation and outlines the role of staff members in overseeing evacuation procedures and reentry into the building when authorized. This policy is intended to prevent injury, loss of life, and property damage from fire emergencies. <http://www.ohio.edu/policy/44-105.html>
- **Policy 44.109: Safety Management**, ensures systematic integration of safety and environmental considerations into all university activities. This policy applies to all members of the university community and also to contractors whose work is directed on a day-to-day basis by university employees. <http://www.ohio.edu/policy/44-109.html>
- **Policy 44.113: Smoking**, prohibits smoking in all Ohio University buildings; on appurtenant rooftops and terraces; in public buildings directly and indirectly under the control of Ohio University; and within 10 feet of Ohio University buildings, including windows and ventilation intake openings. This policy provides an Ohio University smoking policy in compliance with Ohio Smoking Law, Chapter 3794 of the Ohio Revised Code, effective date December 7, 2006, and with the Ohio Fire Code provisions on Smoking, Section 310. <http://www.ohio.edu/policy/44-113.html>
- **Policy 42.501: Decorations in University Buildings**, states that all room furnishings and/or decorations and the decorating of public spaces is strictly controlled, additional limitations on the use of flammable and combustible materials for decorations in both residence rooms and common areas. This policy establishes the conditions for safe use of decorations in university buildings, including classroom, administrative, and residence buildings. <http://www.ohio.edu/policy/42-501.html>

- The **Ohio University Student Housing Handbook** which is part of the housing contract, limits the types of electrical appliances allowed in residence halls, establishes expectations for compliance with drills and training, provides for periodic health and safety inspections of residence rooms, affirms limitations on materials that may be stored in resident rooms, prohibits open flames without a permit, limits the use of combustible decorations/furnishings, and defines the consequences if students violate university policies and programs.

Specifically:

- Electrical appliances such as electric stoves, George Foreman-type grills, toaster ovens, toasters, crock pots, sandwich makers, space heaters, hot plates, and other open coiled appliances are not permitted in residence hall rooms. No extension cords of any type are permitted, and halogen bulb lamps and high intensity lamps are prohibited.
- Items that require an open flame, operate on fuel, or produce heat (such as Bunsen burners, lit candles, incense, and alcohol burners) are prohibited.
- Student rooms, common areas, storage, and mechanical areas are subject to regular inspection by the Ohio Fire Marshal's Office, Environmental Health and Safety personnel, and Student Programs staff. In addition, resident room inspections are conducted once per semester by hall staff in order to identify any health or safety concerns. Violations of fire and life safety policies are subject to university judicial action and appropriate sanctions.
- Anyone found causing a false fire alarm, tampering with fire-safety equipment, or not properly evacuating during a fire alarm will face arrest and/or judicial referral.
- Ohio University's Fire Safety program establishes requirements for periodic fire safety inspections of all university buildings, including residence halls; provides for periodic training for employees and students on basic fire safety; affirms conditions that must be maintained in all university properties to comply with the Ohio Fire Prevention Code; and, establishes requirements for the permitting, approval and inspection of hot work, use of open flames/burning, pyrotechnics and special effects, and temporary facilities, tents and stages.

## SPECIFIC EHS PROGRAMS AND PROCEDURES

- **Resident Life Fire Safety** - Fire Safety is taken very seriously at Ohio University. It is customary that your hall will conduct a fire drill. Please comply fully with the building evacuation and re-entry procedures during these drills. Any time you hear a fire alarm, pick up your keys and OU ID, lock your door, and leave the building immediately. Never use the elevator. Take the time to learn where the fire alarms and exit routes are from any room in your building (you won't always be in your own room when the alarm sounds or when you spot smoke or flames). If you encounter smoke or flames in the building, pull the nearest fire alarm, leave the building immediately, and call 911.
- **Resident Life Electrical Safety** - Very few of our residence hall rooms have a sufficient number of electrical wall outlets to accommodate all of the appliances which you'll have with you or be in locations which will be most convenient to your chosen room layout. Therefore, when you are trying to be creative, please follow the electrical safety "do's" and "don'ts".
- **Space Heaters** - The Ohio University recognizes that individuals have different levels of comfort associated with temperature and heat. The use of electric space heaters as a temporary measure is permitted, if guidelines are followed.
- **Recreational Fires** - EHS requires a permit for recreational or ceremonial fires. For permits call 593-1666. Please allow ten (10) days to process. Compliance must be met for the Athens City Fire Department Burn Law (effective 8/29/06).
- **Multi-outlet assemblies (power strips)** - Power strips should be properly secured to a permanent surface, equipped with fuse or circuit breaker, energized from a permanent outlet, grounded 3-wire type, and UL approved.
- **Extinguisher Training** – Training is offered any time, please contact the Department of Environmental Health & Safety at 593-1666 if you would like to practice using a fire extinguisher or to set up a training class.

- **Nuisance Fire Alarms** - Fortunately, the cause of most fire alarms is not fire, but something else. Causes can be accidental (somebody bumping into a fire alarm device, a worker spray painting, sawing/sanding wood, or welding too close to a detector), unintentional (dust or insects the detector sees as smoke, or a smoke detector too close to a kitchen area, or water that leaks into a detector), mechanical (a malfunctioning system--usually when a new system is being installed, an electrical storm, or a faulty wire), or malicious (intentionally setting off the alarm). Learn more about [How To Live With Your Fire Alarm System](#).
- **Fire Drills** - Fire drills will be conducted each semester during the academic session. Drills are conducted for each of the 43 residence halls by Ohio University staff. EHS keeps records of these drills as well as those reported by off campus [Greek Chapter Houses](#).
- **Prevention and Inspection Programs** - Environmental Health and Safety conducts a fire drill during the first two weeks of the academic session at each residence hall. Random fire safety inspections are made weekly throughout the Ohio University campus by Residence Life staff. Fraternities and sororities are inspected by EHS.
- **Building Construction and Alarm Systems** - Some residence halls are equipped with fire department standpipes, hoses, and some have sprinkler systems. Each residence hall is equipped with a fire alarm system that includes manual pull stations, horns and strobe lights. All rooms contain smoke detectors, either single or multi-station (interconnected to the fire alarm panel). The fire alarm and sprinkler systems are inspected and tested according to code requirements and fire extinguishers are scheduled to be inspected monthly per code.
- **Fraternity & Sorority Inspection** - Ohio University has a special relationship with fraternity and sorority chapters. As part of that special relationship, the university allows sophomore students to be exempted from the on-campus housing policy. In order to maintain this exemption, chapters must comply with certain rules and expectations.

- **Tents, Canopies, Football, & Outdoor Events** - The state of Ohio requires a permit for all tents and membrane structures (air inflated or frame covered structure) over 200 square feet, and canopies (open sides at least 75%) over 400 square feet. Please visit the following sites for specific requirements.

- [Tent/Canopy Permit Policy](#)
- [State of Ohio Tent/Canopy Permit](#)
- [Tent/Canopy Application Explanation and Guidelines](#)
- [Assembly Events Inspection Requirements](#)

**Tent & Canopy Use Permit Forms** - A permit is required for tents, canopies, and membrane structures available from the Ohio Department of Commerce. These permits are not processed by Ohio University.

For more information visit the following website:  
[http://com.ohio.gov/documents/dico\\_391.pdf](http://com.ohio.gov/documents/dico_391.pdf)

## **FIRE STATISTICS**

The number and cause of each fire in each residence hall is summarized in *Appendix B*. There were no reported fire-related injuries or fatalities in residence halls during calendar years 2014 through 2017.

## **FIRE REPORTING**

The Ohio University Police Department monitors the status of all fire detection and fire suppression systems in residence halls. If a fire occurs, it must be reported to the Ohio University Police Department by calling (740) 593-1911 (non-emergency) or 911 (emergency). The Ohio University campus fire log is available for viewing upon request in the lobby of the EHS Department M-F, 8:00am to 5:00pm.

## **PLANS FOR FUTURE IMPROVEMENT**

Ohio University maintains a prioritized list of projects to upgrade older fire systems, enhance the capabilities of existing systems, or install new fire safety systems in existing buildings while providing comprehensive maintenance and testing schedules.

## **REPORTING FIRES AND EMERGENCIES**

Report on-campus fires to 911 and activate the building fire alarm using a manual fire alarm pull-station.

**\*\* All fires, including those that have been extinguished, must be reported to Ohio University Police.**

Report all other emergencies to the Ohio University Police Department by one of these methods:

- Call 3-1911 from any campus phone
- Call (740) 593-1911 from a cellular or off-campus phone
- Use a Code Blue Telephone or other emergency telephone

## EMERGENCY PROCEDURES

Ohio University has published an Emergency Response Guide to help members of the Ohio University community properly respond to emergencies on campus. The current version of the guide can be found at the Ohio University Emergency Programs web page:

<http://www.ohio.edu/riskandsafety/emergencyprograms/responses.htm>

## EVACUATION PROCEDURES

All persons are required to evacuate from and exit the building any time: the fire or evacuation alarm sounds; an evacuation announcement is made; or a University official orders you to evacuate.

When evacuating, remember to:

- Close any open windows in your room
- Take jackets or clothing needed for protection from the weather
- Feel the top of your door for heat before opening it
- Stay low and open the door slowly checking for signs of smoke or fire in the corridor
- Lock your room door behind you as you leave
- Proceed quickly to the nearest exit
- Move away from the building and to your floor's meeting location
- If you have information about the emergency then report it to emergency responders
- If you are unable to exit the building due to a disability or fire conditions, take refuge to a safe location and call 911. If possible, signal out a window to emergency responders.

## **SMOKE DETECTORS**

All on-campus student housing rooms are equipped with local smoke alarms that when activated will sound an in-room audible alarm. Many smoke alarms are connected to the building fire alarm system for power and monitoring purposes. Some in-room smoke alarms do not sound a building-wide alarm and do not send an alarm signal to the Ohio University Police Department. In-room smoke alarms are designed to alert room occupants.

## **REPORTING MALFUNCTIONING LOCAL SMOKE ALARMS**

Report malfunctioning smoke alarms to Facilities Management and Safety by calling (740) 593-2911 at any time, day or night.

Never cover, remove, or tamper with smoke alarms or other fire protection equipment.

## **OHIO UNIVERSITY FIRE SAFETY PLAN**

The current Ohio University Fire Safety Plan is shown on the next page. This fire safety plan is applicable to all campus facilities, including on-campus student housing facilities.

## IN CASE OF FIRE EMERGENCY

### Ohio University Policy 44.105: Fire Emergencies

#### When the Fire Alarm Sounds

1. Evacuate the building immediately via the nearest available exit. Go to a location out of the path of emergency response vehicles, away from fire hydrants, approximately 50 feet away from the building, and account for the people in your group. If you know someone is unable to evacuate the building, you should relay that information to 911.
2. If you cannot evacuate the building due to mobility impairment, the intensity of the fire, or smoke, then "Shelter in Place" by:
  - a. closing the doors to the room you are in;
  - b. calling 911 to give your location and information;
  - c. stopping up cracks (e.g., with wet towels) to block smoke;
  - d. open windows to the outside for fresh air; and staying next to the floor to avoid breathing hot gases and smoke.
  - e. Wait until help arrives.
3. In order to slow the spread of the fire, doors, and if possible, windows, should be closed as the last person leaves a room or area during the evacuation of the building.
4. Do not use elevators, use the building's stairwells.
5. Do not return to your room until the all clear signal is given by the Ohio University Police Department ("OUPD"), or the Athens Fire Department, or — in the case of a fire drill — Environmental Health and Safety ("EHS").

#### If You Discover a Fire

1. Call 911.
2. Assist any person in immediate danger to safety, if that can be accomplished without risk to you or other persons.
3. Do not try to fight the fire yourself; call 911 and be prepared to give your name, location, and fire information. If the fire is small enough and you have been trained, you may use a nearby fire extinguisher to control and extinguish the fire after calling 911.
4. Immediately activate the building fire alarm system by pulling a manual fire alarm pull station on your way out of the building if the building alarm is not already sounding. In all residence halls and many other buildings this will automatically notify OUPD and the fire department and get help on the way. The Stopper II device which covers the pull station will sound a local alarm when opened. Do not mistake this for the actual fire alarm. After opening this cover, the actual pull station must be pulled to sound the fire alarm.
5. If you cannot evacuate the building, then shelter in place, as described in item 2 of subsection I, above.
6. Never reenter a building after a fire without permission from the Athens Fire Department or OUPD.
