

Cell Phone Use in University Vehicles

Environmental Health & Safety Guidelines

- * Cell phones should not be used to talk or text while driving.
- * Let your passenger handle all phone calls or text messages.
- * Use message taking services or answering systems and call back later.
- * Let someone else drive if you anticipate making or receiving calls or text messages.
- * Pull over and stop your vehicle in a safe location before using your cell phone.

EHS will periodically issue guidelines for subjects and situations which affect the safety and health of the campus community. These are not Ohio University policy. They represent best practices and proven methods to reduce incidents.
