**NEW PROGRAM/ CERTIFICATE**

**1. College of Arts and Sciences**

Program Code: CTX99G

Program Name: Art and Science of Brewing Certificate

Department/School Name: Chemistry and Biochemistry

Contact: Michael Held

This specialized certificate aims to provide students with fundamental principles and concepts of biochemistry, microbiology, and engineering, as well as entrepreneurial aspects and small business ownership, all through the lens of craft brewing. Successful, consistent brewing is largely dependent on a firm understanding of the science behind the process. But craft brewing is far more than brewing science. Craft breweries are small businesses that require specific skillsets for management, planning, marketing, social media presence, and operation. Therefore, this program aims to help bring together students with science backgrounds with business-minded students to provide a translational, peer-led learning environment.

This specialized 9-credit certificate will provide a multidisciplinary educational experience especially attractive to non-degree seeking graduate-level students.

Core Brewing Courses (required):

CAS5413 – Art of Craft Brewing: Athens case study (3cr.)

CHEM5500 – Principles of Brewing Science (3cr.)

Experiential/Internship courses (select one from the following):

CHEM5911 – Chemistry Internship (3cr.)

MGT5070 – Managing Innovation and Corporate Entrepreneurship (3cr.)

MGT5071 – Ideation, Concept Development and Business Models (3cr.)

MGT5072 – New Venture Creation (3cr.)

Currently, Jackie O's of Athens Ohio has agreed to host students for a wide variety of internship opportunities (see letter of support).

**2. College of Health Sciences and Professions**

Program Code: CTX14U

Program Name: Professional Deaf Resources Liaison Certificate

Department/School Name: Rehabilitation and Communication Sciences

Contact: Becky Brooks

The CSD Professional Deaf Resources Liaison Certificate provides an opportunity for all undergraduate Ohio University students interested in furthering their understanding of American Sign Language (ASL), as well as, the history, community, and culture of individuals who are deaf. The program provides students with the necessary knowledge and skill in ASL to become allies to the deaf community. The curriculum provides a firm underpinning for entry into a career for students who seek collaborative employment experiences with the deaf community in fields such as health and human services, education, social services, community service agencies, vocational rehabilitation, etc. NOTE: Students

-EDCE 7320 Personality Assessment (4) -EDCE 6750 Psychopathology for Counselors (3)	-EDCE 7320 Personality Assessment (4) <del>-EDCE 6750 Psychopathology for Counselors (3)</del>	This is in response to the revised CSWMFT board licensure standards
<b>Electives</b>	<b>Proposed Electives</b>	
Complete 6 hours of electives	Complete 8 hours of electives	This allows for more flexibility for students to select courses of interest.
<b>Total- 60 hours</b>	<b>Total= 60 hours</b>	

### 3. Patton College of Education

Program Code: ME6298

Program Name: School/ Clinical Mental Health Counseling

Department/School Name: Counseling and Higher Education

Contact: Christine Bhat

This program combines two specializations in the master's degree in Counselor Education – Clinical Mental Health Counseling and School Counseling. The changes for this program thus reflect changes made to ME6274 School Counseling and ME6278 Clinical Mental Health Counseling. In addition to the core courses required for all students in the master's degree in counseling, students will take 8 credit hours of school counseling coursework and 4 credit hours of clinical mental health coursework. They will take 3 semesters of internship with 600 hours in a school and 600 hours in a clinical mental health setting. We would also like the program name to change to list Clinical Mental Health first and School Counseling second. This allows for consistency with our other combined specialization program. The program will decrease by 5 credit hours.

<b>Current</b>	<b>Proposed</b>	<b>Rationale</b>
<b><i>Core Courses for All Counseling Specializations</i></b>	<b><i>Core Courses for All Counseling Specializations</i></b>	
-EDCE 6200 Foundations of Professional Counseling (3)  -EDCE 6550 Counseling Theory & Techniques (4)  -EDCE 6860 Multicultural Counseling (4) -EDCE 6310 Appraisal I (3) -EDCE 6500 Group Counseling (4) -EDCE 6620 Diagnosis and Treatment Planning (3) -EDCE 6450 Counseling over the Lifespan (3) EDCE 6220 Career Development: Research & Theory (3) -EDCE 7640 Legal and Ethical Issues in Counseling (3) -EDCE 6810 Seminar in Education (2) -EDRE 5010 Introduction to Research Methods (4) -EDCE 6920 Counseling Practicum (3) -EDCE 6915 Counseling Internship (16)	-EDCE 6200 Foundations of Professional Counseling (3)  <b>-EDCE 6555 Counseling Interviewing Techniques (3)</b> <b>-EDCE 7555 Theory &amp; Practice of Counseling &amp; Psychotherapy (3)</b> -EDCE 6860 Multicultural Counseling (4) -EDCE 6310 Appraisal I (3) -EDCE 6500 Group Counseling (4) -EDCE 6620 Diagnosis and Treatment Planning (3) -EDCE 6450 Counseling over the Lifespan (3) EDCE 6220 Career Development: Research & Theory (3) -EDCE 7640 Legal and Ethical Issues in Counseling (3) -EDCE 6810 Seminar in Education (2) <b>-EDRE 5010 Introduction to Research Methods (3)</b> -EDCE 6920 Counseling Practicum (3) -EDCE 6915 Counseling Internship (16)	To provide a more comprehensive overview of counseling theories and techniques based on the feedback from students, clinical field supervisors, and the Counselor Education Advisory Board.  This reflects a credit hour change by the Department of Educational Studies
<b><i>Required Clinical Mental Health Counseling Content</i></b>	<b><i>Proposed Clinical Mental Health Counseling Content</i></b>	

<b>Required Clinical Mental Health Counseling Content</b>	<b>Proposed Clinical Mental Health Counseling Content</b>	
-EDCE 7320 Personality Assessment (4) -EDCE 6750 Psychopathology for Counselors (3)	-EDCE 7320 Personality Assessment (4) <del>-EDCE 6750 Psychopathology for Counselors (3)</del>	This is in response to the revised CSWMFT board licensure standards
<b>Required Clinical Rehabilitation Counseling Content</b>	<b>Required Clinical Rehabilitation Counseling Content</b>	
-EDCE 6260 Medical & Psychosocial Issues in Rehabilitation Counseling (4) -EDCE 6290 Job Placement Theory & Techniques (3)	-EDCE 6260 Medical & Psychosocial Issues in Rehabilitation Counseling (4) -EDCE 6290 Job Placement Theory & Techniques (3)	No change
<b>Electives</b>	<b>Proposed Electives</b>	
NA	Complete 1 hours of an approved elective	CACREP programs are required to maintain 60 hours. This allows for students to select an elective of interest.
<b>Total- 61 hours</b>	<b>Total= 60 hours</b>	

### 5. Patton College of Education

Program Code: PH6265

Program Name: Counselor Education

Department/School Name: Counseling and Higher Education

Contact: Adrienne Erby

The program change includes a reduction of 2 credit hours based on the merger of two existing courses EDCE 8990 Leadership in Counseling (3 credit hours) and EDCE 8640 Mental Health Consultation (3 credit hours). The two courses were combined to a 4 credit hour course, EDCE 8700 Counseling Leadership and Consultation, based on student feedback and faculty review of content overlap to maximize efficiency of course offerings. EDCE 8990 and EDCE 8640 will be deactivated within 1 year to ensure students admitted prior to Fall 2022 have an opportunity to complete the courses, which would be on their program of study.

### 6. Patton College of Education

Program Code: ED6272

Program Name: Educational Leadership

Department/School Name: Educational Studies

Contact: Emmanuel Jean Francois

The proposed change is to request approval for (a) the re-arranging of course groupings with no overall change in total hours and no negative impact on student ability to complete the program, and (b) changing the degree from Doctor of Education (EdD) in Educational Leadership program to Doctor of Philosophy (PhD) in Educational Leadership. We propose to increase the minimum number of credits to satisfy the scholarly tools from 12 to 16. We propose to rename "Concentration Area" and call it "Specialization Area/Electives," change the number of credits to satisfy the "Leadership and Policy Core" and decrease the number of dissertation hours from 15 credits to 10 credits, align with the average number of dissertation hours required by peer programs in The Patton College of Education and at other universities in the State of Ohio, and to respond to feedback receive from alumni. The minimum credit hours to satisfy the PhD in Educational Leadership, including the dissertation, remains 62.

### 7. Scripps College of Communication

Program Code: BJ6907

Program Name: Journalism Strategic Communication  
Department/School Name: Journalism  
Contact: Mary Rogus

Program Code: BJ6906  
Program Name: Journalism News and Information

There are two proposed changes: 1. Move JOUR 1330 Precision Language for Journalists from Skills Elective to the Journalism Core 2. Drop the option to take a MDIA or VICO course as the second Skills Elective

### **8. Scripps College of Communication**

Program Code: BJ6910  
Program Name: Journalism Carr Van Anda  
Department/School Name: Journalism  
Contact: Mary Rogus

There are 3 proposed curriculum changes:

1. Move JOUR 1330 Precision Language for Journalists from Skills Elective to the Journalism Core
2. Delete: JOUR 4860 or 4870 requirement
3. Change: Complete any 8 courses in JOUR, MDIA or VICO with approval of advisor. At least 12 credit hours must be in Journalism New: Complete any 8 courses JOUR, MDIA or VICO with approval of advisor. At least 9 credit hours must be in Journalism, at least 1 must be a 4000 level JOUR skills course

Admissions Requirement Changes: Remove junior status to apply and allow freshman admissions Drop 3.0 GPA requirement

### **9. Honors Tutorial College**

Program Code: BJ1923  
Program Name: Journalism HTC  
Department/School Name: Journalism  
Contact: Beth Novak

Changes to the non-HTC Journalism undergraduate programs necessitate changes to the HTC major. These are only changes to the major requirements; college requirements, including tutorials and thesis, remain the same.

The required 21-hour Specialization area(s) will be replaced with a requirement that students declare a Minor or Certificate Program, or create an advisor approved, minimum 15-hour, group of related courses.

### **10. Honors Tutorial College**

Program Code: BA1934  
Program Name: Anthropology  
Department/School Name: Sociology and Anthropology  
Contact: Beth Novak

This is a clean up to better align catalog / DARS. We are adding courses to the Cultural Anthropology, Biological Anthropology and Archaeology distribution lists, updating the Foreign Language requirement and moving the Linguistics and Statistics requirements to the Collateral Courses distribution list because these two areas are not relevant to all students. This results in a 3 credit reduction in the major curriculum.

### **11. College of Fine Arts**

Program Code: BM5053  
Program Name: Instrumental Performance  
Department/School Name: Music  
Contact: Matthew James

We propose to eliminate MUS 3040 (Instrumentation) from the the Instrumental Performance curriculum beginning with the Fall 2021 semester. The content of this course will be absorbed in other music courses, including MUS 4550 (Basic Conducting) and MUS 4560 (Instrumental Conducting). This will result in a 2 credit hour reduction.

### **12. College of Health Sciences and Professions**

Program Code: BS1203 (ND1205)  
Program Name: RN to BSN  
Department/School Name: Nursin  
Contact: Sherleena Buchman

The proposed changes are in response to a required change at OHIO to the general education requirements. The undergraduate RN to BSN program has recently been approved for an increase of 4 credit hours to meet the OHIO general education requirements. However, the School of Nursing curriculum committee has learned that this will cause a negative impact on our enrollment numbers and will make the program not as competitive. The revised program incorporates the Bridges courses into existing NRSE courses. We will revise three existing courses NRSE 4510, 4570 and 4600 to meet the required bridges components.

### **13. College of Business**

Program Code: AA5002  
Program Name: Accounting Technology  
Department/School Name: Accounting  
Contact: David Stott

The purposes of this change are to (1) align two Athens-based courses with their substantially equivalent RHE-based courses and (2) modify the program for BRICKS. Historically, we taught two courses on our RHE campuses that were substantially the same as two courses taught on our Athens campus. However, these courses had different prefixes and course numbers. In our transition to ONE OHIO, these redundant courses will ultimately be eliminated and offered under just the Athens-based course prefixes and numbers. However, in the interim, we need to adjust the programs affected to reflect both courses as alternatives to one another in each of the two courses. This is a minor change at this point that simply adds an option to the two basic accounting courses in the program.

General Education changes. Modified requirements to meet minimum state requirements. BRICKS requirements now include:

- Written Communication: ENG 1510 (3 hrs)
- Quantitative Reasoning: MATH 1200 (4 hrs) and MATH 1350 (4 hrs)
- Social or Behavioral Science: ECON 1040 (3 hrs)
- At least 3 hours in Humanities: Arts, Humanities: Texts and Contexts, Natural Science, or Natural World

Major changes. Modified Accounting Technology Major Requirements as follows (no overall change in credit hours):

- Allow students to complete ATCH 1030 Financial Accounting Procedures or ACCT 1010 Foundations of Accounting (both are 3 credit hour courses)
- Allow students to complete ATCH 1040 Managerial Accounting Procedures or ACCT 1020 Decision Making with Accounting (both are 3 credit hour courses)

No change in credit hours and no other academic units impacted.

### **EXEMPTION REQUEST: Professional Deaf Resources Liaison Certificate**

The Communication, Sciences and Disorders department is requesting an exemption for the Professional Resources Deaf Resources Liaison Certificate.

Exemption Request:

We are requesting an exemption to the maximum number of credit hours (24 credit hours) permitted for an undergraduate certificate. Including the pre-requisites to the certificate, CSD 1110 Elementary ASL I (4 credit hours) and CSD 1120 Elementary ASL II (4 credit hours), the total credit hours needed to complete the certificate is 29 credit hours.

Rationale:

American Sign Language, as with any L2 language, requires high level, technical skill development. Four semesters of language acquisition are insufficient to develop higher level communication techniques needed for students to be able to effectively apply and utilize the Professional Deaf Resources Liaison Certificate. In addition, as the language of a marginalized culture, sensitivity and empathy are essential to culturally appropriate language development and use. The required and elective courses for the Professional Deaf Resources Liaison Certificate have been carefully selected to represent the skill set needed for students to appropriately and effectively apply the certificate in real-world situations in which they are interacting with members of the deaf community.

Consultations:

The following individuals were consulted, and approval was sought for the Professional Deaf Resources Liaison Certificate to proceed. Documentation and/or letters of support from each are provided in OCEAN 1.9.

1. Howard Dewald, Associate Provost for Faculty and Academic Planning
2. Sally Marinellie, Senior Associate Dean, College of Health Sciences and Professions (Note: John McCarthy, Interim Dean, College of Health Sciences and Professions was also consulted.)
3. Jim Montgomery, Director, Communication Sciences and Disorders

### **EXPEDITED REVIEW**

#### **1. College of Arts & Sciences**

Program Code: BA4203  
Program Name: Political Science- PreLaw  
Department/School Name: Political Science  
Contact: Jennifer Fredette

Add two additional law-related POLS advanced electives to the list of courses that count toward “Political Science Advanced Elective” to better reflect our course offerings and to provide students in the POLS Pre-Law major with more opportunities to complete this requirement.

## **2. College of Arts & Sciences**

Program Code: CTFSTC  
Program Name: Forensic Studies Certificate  
Department/School Name: Linguistics  
Contact: Michelle O’Malley

The 3 categories of electives have been removed allowing students to simply choose three electives from a single large list in addition to the 9 specified courses (CAS 2000, LET 1450, and SOC 2600).

## **3. Russ College of Engineering and Technology**

Program Code: AA5011  
Program Name: Computer Technology Major (A.A.B.)  
Department/School Name: Electrical Engineering and Computer Science  
Contact: David Juedes

Minor changes are being made to the Computer Technology Associates degree program to align with the new general education requirements: The current program specifies that students need to “Complete 3 or more hours from Tier II Social Science (2SS)”. This should be changed to “complete additional courses to fill general education BRICKS requirements.”

## **4. Scripps College of Communication**

Program Code: CTPOLC  
Program Name: Political Communication Certificate  
Department/School Name: Communication Studies  
Contact: Brittany Peterson

While it initially made sense to house the Political Communication Certificate within POLS, this is no longer the case. Efforts to move POCO have been discussed among POLS and COMS faculty for years, but it seems no one had the bandwidth to complete this sort of low-stakes “housekeeping” change in OCEAN. The proposal involves no change to the program; both departments have expressed a willingness for the change. All advising for POCO happens with Communications.

## **PROGRAM RELOCATION**

The College of Health Sciences and Professions is requesting a location change from the Department of Interdisciplinary Studies (DIHS) to the Department of Social and Public Health (DSPH) for the following certificates:

- Gerontology Certificate (CTGERO)
- Appalachian Studies Certificate (CTAPSU)
- Gerontology Certificate (CTGERG)

The coordinator and primary course instructor for gerontology courses is housed in DSPH. Additionally, the undergraduate gerontology certificate content is closely aligned with the Child and Family Studies (CFS) degree program, which is housed in DSPH.

We do not anticipate any disadvantages for students and faculty (including pre-tenure faculty). Discussion between chairs and faculty members in the departments resulted in agreement for this location change for these three certificates.
