RE: French Tutorial program deactivation

Date: April 6, 2021

We are proposing to deactivate the French Tutorial program (BA1914) and are suspending admissions immediately in anticipation of approval of this request.

The Department of Modern Languages no longer has the capacity or faculty resources to support the high level of one-on-one tutorials necessary for the French program. No faculty will be impacted by this deactivation.

There is currently only one student in the program, and she will be able to complete the degree without changes.
